PLANNING COMMISSION STAFF REPORT
NEWBERG URBAN RENEWAL PLAN AND ACCOMPANYING REPORT
CONFORMANCE WITH NEWBERG COMPREHENSIVE PLAN AND YAMHILL
COUNTY COMPREHENSIVE PLAN

HEARING DATE: July 22, 2021

FILE NO: GEN19-0017

REQUEST: Newberg Urban Renewal Plan and Accompanying Report Conformance with
Newberg Comprehensive Plan and Yamhill County Comprehensive Plan

LOCATION: Proposed Newberg Urban Renewal District Area

APPLICANT: City of Newberg

ATTACHMENTS:

Resolution 2021-373 with

- Exhibit "A": Newberg Urban Renewal Plan
- Exhibit "B": Newberg Urban Renewal Report
- Exhibit "C": Findings

1. Newberg Urban Renewal Area Map
2. Community Support Letters

A. DESCRIPTION OF REQUEST: The City of Newberg, is proposing an urban renewal district within a 600 acre area of Newberg generally described as the downtown area, Riverfront Master Plan area and connecting roadways of S Blaine Street and S River Street. Attachment 1 is a map of the proposed Newberg Urban Renewal Area.

B. PROCESS: ORS 457.089(1) requires that an urban renewal plan and accompanying report has to be determined to be in conformance with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan. The Planning Commission will hold a legislative hearing on the application. The Commission makes a determination of compliance listed in findings. The Planning Commission's determination is forwarded to the City Council, who will hold a legislative public hearing and render a final decision on the Urban Renewal Plan and accompanying Report and compliance with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan. Important dates related to this request are as follows:

1. 7/20/20: The Newberg City Council accepted the Newberg Urban Renewal Feasibility Study on July 20, 202 by Resolution No. 2020-3685.
2. 8/17/20: The Newberg City Council formed the Newberg Urban Renewal Agency and declared blight conditions exist by Ordinance No. 2020-2865.
3. 5/24/21: The Ad Hoc Urban Renewal Citizens Advisory Committee recommended the Newberg Urban Renewal Plan and Report be forwarded to the Newberg Urban Renewal Agency for referral to taxing districts and to the Newberg City Council for adoption.
4. 6/7/21: The Newberg Urban Renewal Agency referred the Newberg Urban Renewal Plan and Report to Taxing Districts via Resolution No. 2021-02.
5. 6/23/21: The Newberg Graphic published notice of the Planning Commission hearing on conformance with the Newberg Comprehensive Plan and notice was posted in four public places.
6. 7/7/21: The Newberg Graphic published notice of the Planning Commission hearing on conformance with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan and notice was posted in four public places.
7. 7/8/21: The Planning Commission opened the hearing and took testimony on the Newberg Comprehensive Plan conformance and continued the hearing to July 22, 2021.
8. 7/22/21: The Planning Commission will hold a legislative hearing to consider the request of the Urban Renewal Plan conformance with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan.

- C. **PUBLIC COMMENTS:** As of the writing of this report, the city has received thirteen letters of support for the Newberg Urban Renewal Plan that are included as Attachment 2.
- D. **ANALYSIS:**

Summary:

The Planning Commission is being asked to make a recommendation to the City Council regarding the Council's consideration and adoption of the proposed Newberg Urban Renewal Plan (Plan), Exhibit "A" and accompanying Report, Exhibit "B".

The focus of the Planning Commission's review and recommendation is the conformance of the Plan with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan. This action does not require a public hearing but has been noticed as a public hearing for transparency purposes, and the Planning Commission is not being asked to approve the Plan and accompanying Report, but rather make a recommendation to the City Council on the conformance with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan and a recommendation on adoption of the Newberg Urban Renewal Plan. The Planning Commission recommendation will be shared with the Yamhill County Board of Commissioners in their consideration of a resolution approving the Newberg Urban Renewal Plan.

The Yamhill County Board of Commissioners review of the Newberg Urban Renewal Plan is established by ORS 457 as follows: *"457.105 Approval of plan by other municipalities. In addition to the approval of a plan by the governing body of the municipality under ORS 457.095, when any portion of the area of a proposed urban renewal plan extends beyond the boundaries of the municipality into any other municipality and, in the case of a proposed plan by a county agency, when any portion of such area is within the boundaries of a city, the governing body of the other municipality may approve the plan and may do so by resolution, rather than by ordinance. A proposed plan for an urban renewal area which is wholly within the boundaries of a city, or which is wholly within the boundaries of a county and does not include any area within the boundaries of a city, must be approved only by the governing body of the municipality in accordance with ORS 457.095."*

There are no explicit review criteria for a Planning Commission for the review of an urban renewal plan. The Oregon Revised Statute (ORS) ORS 457.089(1) states that "An urban renewal plan and accompanying report shall be forwarded to the planning commission of the municipality for recommendations, prior to presenting the plan to the governing body of the municipality for approval under ORS 457.095". The generally accepted practice is for the Planning Commission to provide input on the relationship of the Plan to the Local Goals and Objectives (Section XIII of the Plan), and particularly to its conformance to the City of Newberg Comprehensive Plan, and in this case the Yamhill County Comprehensive Plan as a portion of the Plan (approximately 244 acres) is outside of the city limits but within the urban growth boundary.

Background:

The City of Newberg has been engaged since January 2020 evaluating establishing an urban

renewal program. On July 20, 2020 the City Council accepted the Newberg Urban Renewal Feasibility Study and directed staff to prepare for City Council consideration the appropriate documentation to establish an urban renewal agency by Resolution No. 2020-3685.

On August 17, 2020 the City Council adopted Ordinance No. 2020-2865 declaring that blighted areas exist within the City of Newberg, recognizing the need for an urban renewal agency to function in the City of Newberg, and providing for the exercise of the agency's powers by the City Council of the City of Newberg. This action created Section 2.40 Urban Renewal Agency in the Newberg Municipal Code.

The Ad Hoc Urban Renewal Citizens Advisory Committee (CAC) has been meeting since October 2020 with assistance from Elaine Howard Consulting, LLC and city staff to prepare an Urban Renewal Plan and accompanying Report in conformance with ORS 457. The CAC has met eight (8) times in preparing the Plan and Report. The CACs final meeting was held on May 24, 2021. They unanimously voted to recommend the Newberg Urban Renewal Plan and Report be forwarded to the Newberg Urban Renewal Agency for referral to taxing districts, and to the Newberg City Council for adoption.

On June 7, 2021 the Newberg Urban Renewal Agency referred the Newberg Urban Renewal Plan and Report to Taxing Districts via Resolution No. 2021-02. That official notice was distributed on June 9, 2021. Staff and our consultant are in process of meeting with the taxing districts. Comments from the taxing districts are due by July 26, 2021 in accordance with ORS 457.089(2)(b).

Relationship to Newberg Comprehensive Plan Local Goals and Objectives:

The Newberg Urban Renewal Plan (Plan) relates to local planning and development objectives contained within the Newberg Comprehensive Plan, Newberg Transportation Systems Plan, Newberg Water Master Plan, Newberg Wastewater Master Plan, Newberg Stormwater Master Plan and Newberg Municipal Code Title 15 Development Code.

Section XIII of the Plan (Exhibit “A”) describes the purpose and intent of the Comprehensive Plan, the particular goals and policies within the Comprehensive Plan to which the proposed Plan relates, and an explanation of how the Plan relates to these goals and policies. The numbering of the goals, policies, and implementation strategies will reflect the numbering that occurs in the original document. Italicized text is text that has been taken directly from an original planning document. The Comprehensive Plan designations are shown in Figure 2 of the attached Plan (Exhibit “A”). The proposed land uses conform to Figure 2, the comprehensive plan designations and the maximum densities and building requirements can be found in Title 15 Newberg Development Code.

This is not a comprehensive list of all parts of the Newberg Comprehensive Plan that are supported by this Plan. This list includes the major Goals and Policies from the comprehensive plan that are in conformance with the urban renewal plan, however, there may be other Goals and Policies that are not listed, but are still in conformance with this Plan. Exhibit “C” contains the findings related to Newberg Comprehensive Plan conformance.

Relationship to Yamhill County Comprehensive Plan Local Goals and Objectives:

The Newberg Urban Renewal Plan (Plan) relates to local planning and development objectives contained within the Yamhill County Comprehensive Plan, Yamhill County Transportation Systems Plan, and Grow Yamhill County – Yamhill County Economic Development Plan.

This is not a comprehensive list of all parts of the Yamhill County Comprehensive Plan that are supported by this Plan. This list includes the major Goals and Policies from the comprehensive plan that are in conformance with the urban renewal plan, however, there may be other Goals and Policies that are not listed, but are still in conformance with this Plan. Exhibit “C” contains the findings related to Yamhill County Comprehensive Plan conformance as well as the Yamhill County Transportation System Plan and Grow Yamhill County – Yamhill County Economic Development Plan.

PRELIMINARY STAFF RECOMMENDATION: The preliminary staff recommendation is made in the absence of public hearing testimony, and may be modified subsequent to the close of the public hearing. At this writing, staff recommends the following motion:

Move to adopt Planning Commission Resolution 2021-373, which the Newberg Planning Commission finds, based upon the information provided in the staff report and the provided exhibits and attachments, that the Newberg Urban Renewal Plan conforms with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan. The Planning Commission further recommends the Newberg Urban Renewal Plan be adopted by the City Council.

PLANNING COMMISSION RESOLUTION 2021-373

**A RESOLUTION DETERMINING THE NEWBERG URBAN RENEWAL PLAN AND
ACCOMPANYING REPORT IS IN CONFORMANCE WITH THE NEWBERG
COMPREHENSIVE PLAN AND YAMHILL COUNTY COMPREHENSIVE PLAN**

RECITALS

1. The Newberg City Council accepted the Newberg Urban Renewal Feasibility Study on July 20, 2020 by Resolution No. 2020-3685.
2. The Newberg City Council formed the Newberg Urban Renewal Agency and declared blight conditions exist by Ordinance No. 2020-2865 on August 17, 2020.
3. The Ad Hoc Urban Renewal Citizens Advisory Committee recommended the Newberg Urban Renewal Plan and Report be forwarded to the Newberg Urban Renewal Agency for referral to taxing districts and to the Newberg City Council for adoption on May 24, 2021.
4. The Newberg Urban Renewal Agency referred the Newberg Urban Renewal Plan and Report to Taxing Districts via Resolution No. 2021-02 on June 7, 2021.
5. After proper notice, the Newberg Planning Commission opened a legislative hearing on July 8, 2021 to consider the Urban Renewal Plan's conformance to the Newberg Comprehensive Plan. The Commission heard testimony and continued the hearing to July 22, 2021.
6. After proper notice, the Newberg Planning Commission opened a legislative hearing on July 22, 2021 to consider the Yamhill County Comprehensive Plan conformance with the Newberg Urban Renewal Plan.
7. The Newberg Planning Commission finds that the Newberg Urban Renewal Plan meets the applicable criteria from ORS 457.089(1), and the goals and policies of the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan as shown in Exhibits "A", "B", and "C".

The Newberg Planning Commission hereby resolves as follows:

1. The Planning Commission finds, based upon the information provided in the staff report and the provided Exhibits "A" and "B" that the Newberg Urban Renewal Plan conforms with the Newberg Comprehensive Plan and Yamhill County Comprehensive Plan.
2. This recommendation is based on the staff report, Exhibit "A" Newberg Urban Renewal Plan, Exhibit "B" Urban Renewal Report, and Exhibit "C" Findings and by this reference are incorporated.

3. The Planning Commission recommends the Newberg City Council adopt the Newberg Urban Renewal Plan.

Adopted by the Newberg Planning Commission this 22nd day of July, 2021.

I. DEFINITIONS

“Agency” means the Newberg Urban Renewal Agency. This Agency is responsible for administration of the urban renewal plan.

“Area” means the properties and rights-of-way located within the Newberg Urban Renewal Boundary.

“Blight” is defined in ORS 457.010(1)(A-E) and identified in the ordinance adopting the urban renewal plan.

“Board of Commissioners” means the Yamhill County Board of Commissioners.

“City” means the City of Newberg, Oregon.

“City Council” or “Council” means the Newberg City Council.

“Comprehensive Plan” means the City of Newberg comprehensive land use plan and its implementing ordinances, policies, and standards.

“County” means Yamhill County, Oregon.

“Fiscal year ending” means the year commencing on July 1 and closing on June 30 of the next year.

“Frozen base” means the total assessed value including all real, personal, manufactured, and utility values within an urban renewal area at the time of adoption. The County Assessor certifies the assessed value after the adoption of an urban renewal plan.

“Increment” means that part of the assessed value of a taxing district attributable to any increase in the assessed value of the property located in an urban renewal area, or portion thereof, over the assessed value specified in the certified statement.

“Maximum indebtedness” means the amount of the principal of indebtedness included in a plan pursuant to ORS 457.190 and does not include indebtedness incurred to refund or refinance existing indebtedness.

“ORS” means the Oregon Revised Statutes. Chapter 457 specifically relates to urban renewal.

“Planning Commission” means the Newberg Planning Commission.

“Revenue sharing” means under-levying tax increment proceeds to effectively share a portion of the revenue with the other taxing districts who levy permanent rate taxes in the urban renewal area as defined in ORS 457.470.

“Tax increment financing (TIF)” is a method of funding urban renewal projects and programs through incurring debt that is repaid by the division of taxes accomplished through the adoption of an urban renewal plan.

“Tax increment finance revenues” means the funds allocated by the assessor to an urban renewal area due to increases in assessed value over the frozen base within the area.

“UGB” means urban growth boundary.

“Urban renewal area (URA)” means a blighted area included in an urban renewal plan or an area included in an urban renewal plan under ORS 457.160.

“Urban renewal plan” or “Plan” means a plan, as it exists or is changed or modified from time to time, for one or more urban renewal areas, as provided in ORS 457.085, 457.095, 457.105, 457.115, 457.120, 457.125, 457.135 and 457.220.

“Urban renewal project” or “Project” means any work or undertaking carried out under ORS 457 in an urban renewal area.

“Urban renewal report” or “Report” means the official report that accompanies the urban renewal plan pursuant to ORS 457.087.

II. INTRODUCTION

A. Plan Overview

The City of Newberg has spent the last several years completing planning to set the stage for an urban renewal plan which is a key implementation tool. The City updated all infrastructure master plans. The updates to the *Transportation System Plan*, *Waster Master Plan*, *Wastewater Master Plan* were technical updates that consisted of addendums to the current master plans. and the *Newberg Comprehensive Plan*. In addition, the City prepared the *Riverfront Master Plan* and the *Downtown Improvement Plan*. Newberg has also completed the *A NewBERG Vision*, and the *Newberg Economic Development Strategy*, *Newberg Strategic Tourism Plan*, *Newberg Housing Needs Analysis*, *Newberg Economic Opportunity Analysis*, and the *Urban Renewal Feasibility Study*. All of this planning has led to the formation of the Newberg Urban Renewal Agency (Agency) and the preparation of the Newberg Urban Renewal Plan (Plan).

Opportunity for public input was provided for each planning document used as a basis for this urban renewal plan. The City also convened an Ad Hoc Urban Renewal Citizens Advisory Committee (CAC) comprised of representatives of the Newberg City Council, Chehalem Park and Recreation District, Tualatin Valley Fire and Rescue (TVF&R), Newberg School District, Chehalem Valley Chamber of Commerce, business owners and community members. The CAC provided input on the boundary, proposed projects and finances for the urban renewal area. The Citizens Advisory Committee met fourteen times and at their last meeting on May 24, 2021 unanimously approved the projects in the Plan and unanimously recommended the Newberg Urban Renewal Plan and Report be forwarded to the Newberg Urban Renewal Agency for referral to taxing districts and to the Newberg City Council for adoption.

Materials were posted online during the feasibility study phase of the project including a series of videos to explain urban renewal. The briefings at the City Council and Planning Commission have been open public meetings. Additional opportunities for public input were at an online Open House on April 7, 2021, the Newberg Urban Renewal Agency (Agency) meeting on June 7, 2021, Newberg Planning Commission meeting on July 8, 2021 and the Newberg City Council public hearing on August 2, 2021. The City Council public hearing was noticed to all property owners in the City of Newberg and mailed to all property owners outside the city limits but within the urban renewal area.

The Newberg 2021 Urban Renewal Plan Area (Area), shown in Figure 1, consists of approximately 599.73 total acres: 452 acres of land in tax lots and 147.73 acres of public rights-of-way. It is anticipated that the Plan will take thirty years of tax increment collections to implement. The maximum amount of indebtedness that may be issued for

the Plan is \$106,400,000 (One Hundred Six Million Four Hundred Thousand dollars). Detailed financial analysis is in the Report accompanying the Newberg Urban Renewal Plan .

Detailed goals and objectives developed for the Plan are intended to guide tax increment finance (TIF) revenue investment in the Area over the life of the Plan. The project category descriptions and list of projects are similarly intended to aid future decision makers when considering how best to expend TIF revenue. The Plan is to be administered by the Agency. Substantial amendments to the Plan must be approved by City Council as outlined in Section VII. All amendments to the Plan are to be listed numerically on the inside of the front page of the Plan and then incorporated into the Plan document and noted by footnote with an amendment number and adoption date.

The relationship between the sections of the Plan and the ORS 457.085 requirements is shown in Table 1. The specific reference in the table below is the section of this Plan that primarily addresses the statutory reference. There may be other sections of the Plan that also address the statute.

Table 1 - Statutory References

Statutory Requirement	Plan Section
ORS 457.085(2)(a)	V, VI
ORS 457.085(2)(b)	V, VI
ORS 457.085(2)(c)	XIV
ORS 457.085(2)(d)	XIII
ORS 457.085(2)(e)	XIII
ORS 457.085(2)(f)	IX
ORS 457.085(2)(g)	VIII
ORS 457.085(2)(h)	III
ORS 457.085(2)(i)	VII
ORS 457.085(2)(j)	Not applicable

B. Urban Renewal Overview

Urban renewal allows for the use of tax increment financing, a funding source that is unique to urban renewal, to fund its projects. Tax increment revenues - the amount of property taxes generated by the increase in total assessed values in the urban renewal area from the time the urban renewal area is first established - are used to repay borrowed funds. The borrowed funds are used to pay for urban renewal projects and cannot exceed the maximum indebtedness amount set by the urban renewal plan.

The purpose of urban renewal is to improve specific areas of a city that are poorly developed or underdeveloped, called blighted areas in Oregon Revised Statutes (ORS) 457.010. These areas can have old or deteriorated buildings, public spaces that need improvements, streets and utilities in poor condition, a complete lack of streets and utilities altogether, or other obstacles to development. In general, urban renewal projects can include construction or improvement of streets, utilities, and other public facilities; assistance for rehabilitation or redevelopment of property; acquisition and re-sale of property (site assembly) from willing sellers; and improvements to public spaces. This Area meets the definition of blight due to its transportation system infrastructure deficiencies, utility infrastructure deficiencies, and underdeveloped and undeveloped properties. These blighted conditions are specifically cited in the ordinance adopting the Plan and described in detail in the Report.

The Report contains the information required by ORS 457.087, including:

- A description of the physical, social, and economic conditions in the area;
- Expected impact of the Plan, including fiscal impact in light of increased services;
- Reasons for selection of the Plan area;
- The relationship between each project to be undertaken and the existing conditions;
- The estimated total cost of each project and the source of funds to pay such costs;
- The estimated completion date of each project;
- The estimated amount of funds required in the Area and the anticipated year in which the debt will be retired;
- A financial analysis of the Plan;
- A fiscal impact statement that estimates the impact of tax increment financing upon all entities levying taxes upon property in the area; and
- A relocation report.

III. MAXIMUM INDEBTEDNESS

Maximum indebtedness is the amount of indebtedness secured by a pledge of tax increment revenue that can be spent on projects, programs and administration throughout the life of the Plan. The maximum amount of indebtedness that may be issued or incurred under the Plan, based upon good faith estimates of the scope and costs of projects in the Plan and the schedule for their completion is \$106,400,000 (One Hundred Six Million, Four Hundred Thousand Dollars). This amount is the principal of such indebtedness and does not include interest or indebtedness incurred to refund or refinance existing indebtedness or interest earned on bond proceeds.

IV. PLAN GOALS

The goals of the Newberg Urban Renewal Plan come directly from existing publicly vetted and City Council adopted documents. *A NewBERG Community Vision* provides an overall vision for the city of Newberg identified as Goals A and B below. The *City of Newberg Riverfront Master Plan* provides the goals for the Riverfront, Goal C. The *City of Newberg Downtown Improvement Plan* provides goals for the Downtown, Goal D. The urban renewal plan is an implementation tool to enable the city to undertake projects already identified in these documents and in the City of Newberg Master Plans within the urban renewal area. There are many other Newberg planning documents that provide support to the projects identified in this Plan. Those are reviewed in Chapter XII of this Plan.

The goals of the Plan represent its basic intents and purposes. Accompanying each goal are objectives, which generally describe how the Agency intends to achieve each goal. The urban renewal projects identified in Sections V and VI of the Plan are the specific means of meeting the objectives. The goals and objectives will be pursued as economically as is feasible and at the discretion of the Agency. The goals and objectives are not listed in any order of importance or priority. A matrix of how the projects align with the goals and objectives is shown in Table 2.

Goal A: ECONOMIC DEVELOPMENT

Goal 1. Enhance industrial development capabilities and opportunities

- Retention and expansion of existing industrial businesses
- Recruitment of traded sector companies
- Ensure adequate utilities (water, sewer, storm drainage, electricity, natural gas and telecommunications) to support industrial growth
- Improve transportation access for industrial land

Goal 2. Enhance commercial development capabilities and opportunities

- Redevelop vacant and underutilized commercial/retail sites
- Support creation of new retail/commercial businesses

Goal 4: Complete funding, administrative, and organizational actions for Newberg Downtown Improvement Plan

- Create an Urban Renewal District

Goal B: LIVABILITY & DEVELOPMENT

Goal 1. Blend the built environment with surrounding natural landscape

Goal 2. Improve multi-modal transportation

- Complete ADA Spot Improvement Program projects for Primary Critical Routes to improve walkability in accordance with the Newberg Transportation System Plan
- Complete bicycle lanes and lane treatments along planned routes established by the Newberg Transportation System Plan

Goal 4. Complete Downtown Improvement Plan

- Implement First Street improvement projects
- Implement West End/Mill District Project
- Implement Second Street Mixed-use District Projects
- Implement Catalyst Development Projects

Goal 5. Improve Infrastructure

- Increase the supply of industrial and commercial/retail land
- Ensure adequate utilities (water, sewer, storm drainage, electricity, natural gas and telecommunications) to support industrial growth
- Improve transportation access for industrial land

Goal C: RIVERFRONT AREA

Goal 1. Provide a mix of land uses: public, residential, commercial/mixed use, and industrial.

Goal 2. Plan for a multi-modal transportation network to provide access and connections to the rest of the city, especially Downtown Newberg.

Goal 3. Preserve open space and incorporate natural features as part of the riverfront's strong sense of place.

Goal D: DOWNTOWN AREA

Goal 1. Downtown will be a vibrant, inviting, and fun destination for those coming from near and far.

Goal 2. Downtown streets will be pedestrian-friendly and safe for all modes of transportation.

Goal 3. Downtown will be the center for public life – a place to shop, work, visit, gather and play.

Goal 4. Downtown will have increased density, a diverse mix of businesses and a broad range of places in which to live.

Goal 5. Downtown will be easy to navigate through attractive, effective signage and physical connections between activity centers and districts

Goal 6. Downtown will have a variety of easy-to find parking options

Goal 7. Downtown will have the appropriate type and level of infrastructure to support the envisioned future type, mix and intensity of uses

Goal E: ADMINISTRATION

Goal 1. Provide for the administration of the urban renewal plan.

Table 2 – Relationship of Projects to Newberg Urban Renewal Plan Goals

Project Category	Goals
Transportation	A,B,C,D
Infrastructure	A,B,C,D
Riverfront Trails	A,B,C
Utility Undergrounding	A,B,C,D
Acquisition	A
Administration	A,B,C, D, E

V. URBAN RENEWAL PROJECT CATEGORIES

The projects within the Area fall into the following categories. The project lists are separated into specific geographical sub areas in the urban renewal area as shown in Figure 4 through Figure 11.

A. Public Transportation

B. Infrastructure

C. Riverfront Trails

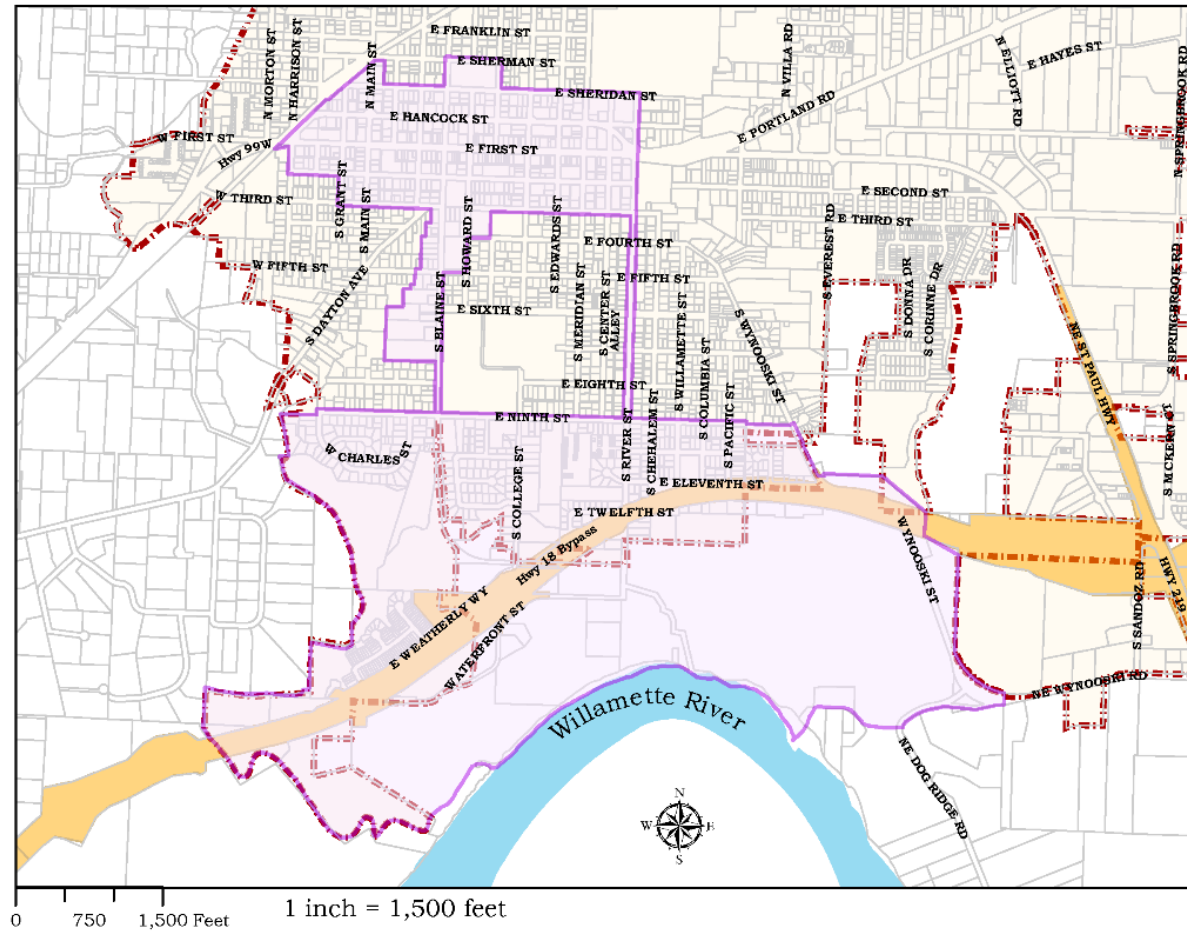

D. Undergrounding Utilities

E. Acquisition/Disposition

F. Administration

VI. URBAN RENEWAL PROJECTS

Urban renewal projects authorized by the Plan are described below. They are not listed in any priority order. The Agency will determine the order of the projects and may add and remove projects in the future through the amendment process defined in Section VII of this Plan. The projects identified for the Area are described below, including how they relate to the existing conditions in the Area.

A. Sub-Area A Riverfront:

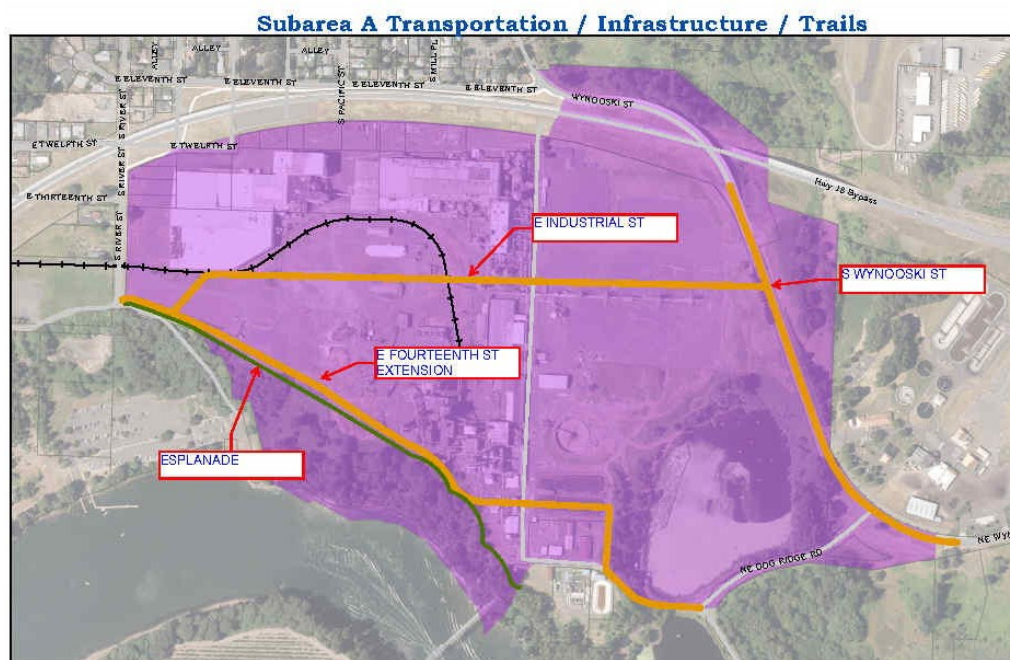

1. *Public Transportation and Infrastructure*

- a) E Fourteenth Street Extension – S River Street to NE Dog Ridge Road. Includes street, curb, sidewalk, storm, water. New street to meet City of Newberg standards.
- b) E Industrial Street from E Fourteenth Street extension to NE Wynooski Road. Includes street, curb, sidewalk, storm, water, wastewater. New street to meet City of Newberg standards.
- c) NE Wynooski Street from Bypass to NE Dog Ridge Road. Includes street, curb, sidewalk, storm. This is currently a County Road. Improvements to existing road to meet City of Newberg standards.

2. Riverfront Trails

- a) Esplanade south of Mill Urban Multi-Use Trail.

H. Sub-Area H: Downtown

1. Public Transportation and Infrastructure

- a) Meridian Street - E Third to E Sheridan- water line replacement.
- b) College Street - E Third to E Sheridan – water line replacement.
- c) Washington Street – water line replacement.
- d) Main Street - E Third to RR Tracks – water line replacement.
- e) Blaine Street E First to E Third – water line replacement.
- f) N College Street (Highway 219) at Hancock Street (Highway 99) Intersection Improvement - Add south bound right turn lane on N College Street.
- g) First Street Road Diet. Includes street, curb, sidewalk, water line replacement, wastewater and stormwater.
- h) Howard Street - E Third to E First - water line replacement.
- i) Sheridan Street - RR Tracks to ½ block east of N Main - water line replacement.
- j) S River Street improvements – E First Street to E Third Street. Includes street, curb, sidewalk, and wastewater and stormwater.
- k) N Blaine Street/E Hancock Signal
- l) N Blaine Street/E First Street Signal
- m) Parking - Surface parking lots 1 and 2.

2. Undergrounding Utilities

- a) Second Street utility undergrounding S Grant Street to S River Street

I. Acquisition/Disposition

Acquisition/Disposition are allowed in the Plan. Prior to any property being acquired, it must be identified in the Plan in Section VIII.

J. Administration

Authorizes expenditures for the administrative costs associated with managing the URA including budgeting and annual reporting, planning and the implementation of projects in the Area.

VII. AMENDMENTS TO PLAN

The Plan may be amended as described in this section. Adding other properties to the Developer Incentives Program does not require an amendment to the Plan.

A. Substantial Amendments

Substantial Amendments, in accordance with ORS 457.085(2)(i), shall require the same notice, hearing, and approval procedure required of the original Plan, under ORS 457.095, including public involvement, consultation with taxing districts, presentation to the Agency, the Planning Commission, the County, and adoption by the City Council by non-emergency ordinance after a hearing. If there are unincorporated parcels within the Area at the time a Substantial Amendment is considered, it must also be approved by Yamhill County through adoption of a resolution by the Board of County Commissioners.

Notice of such hearing shall be provided to individuals or households within the City of Newberg, as required by ORS 457.120.

Notice of adoption of a Substantial Amendment shall be provided in accordance with ORS 457.095 and 457.115.

Substantial Amendments are amendments that:¹

1. Add land to the urban renewal area, except for an addition of land that totals not more than a cumulative 1% of the existing area of the urban renewal area; or
2. Increase the maximum amount of indebtedness that can be issued or incurred under the Plan.
3. Increase in duration or the time to retire Plan debt unless the increase is necessary to avoid a default on previously-issued indebtedness

B. Council Approved Amendments

Council Approved Amendments are amendments that require approval by the Newberg City Council by adoption of a resolution. Council Approved Amendments are the addition of a project where the tax increment revenue share of the project cost exceeds \$500,000. This threshold may be inflated annually on the date of adoption of the Plan by the cost of inflation for projects as published by the Seattle Engineering News

¹ Unless otherwise permitted by state law, no land equal to more than 20 percent of the total land area of the original Plan shall be added to the urban renewal area by amendments, and the aggregate amount of all amendments increasing the maximum indebtedness may not exceed 20 percent of the Plan's initial maximum indebtedness, as adjusted, as provided by law and by concurrence provisions in ORS 457.470.

Record or other generally accepted record if the Seattle Engineering News Record is no longer published.

C. Minor Amendments

Minor Amendments are amendments that are not Substantial Amendments or Council Approved Amendments as defined in this Plan and in ORS 457. Minor Amendments require approval by the Agency by resolution.

D. Amendments to the Newberg Comprehensive Plan and/or Newberg Municipal Code.

Amendments to the Newberg Comprehensive Plan and/or Newberg Municipal Code that affect the Plan and/or the Area shall be incorporated automatically within the Plan without any separate action required by the Agency or City Council. If a Substantial Amendment is prepared, the Section of this Plan on Relationship to Local Objectives should be updated.

VIII. PROPERTY ACQUISITION AND DISPOSITION

The Plan authorizes the acquisition and disposition of property as described in this section. Property includes any and all interests in property, including fee simple ownership, lease, easements, licenses, or other rights to use. If property is acquired it will be identified in the Plan through a Minor Amendment, as described in Section VII. Identification of property to be acquired and its anticipated disposition is required by ORS 457.085(g). If property acquisition includes a public building, how that public building serves and benefits the Area must be identified per ORS 457.085(2)(j).

A. Property acquisition for public improvements

The Agency may acquire any property within the Area for the public improvement projects undertaken pursuant to the Plan by all legal means, including use of eminent domain. Good faith negotiations for such acquisitions must occur prior to institution of eminent domain procedures.

B. Property acquisition from willing sellers

The Plan authorizes Agency acquisition of any interest in property within the Area that the Agency finds is necessary for private redevelopment, but only in those cases where the property owner wishes to convey such interest to the Agency. The Plan does not authorize the Agency to use the power of eminent domain to acquire property from a private party to transfer property to another private party for private redevelopment. Property acquisition from willing sellers may be required to support development of projects within the Area.

C. Land disposition

The Agency will dispose of property acquired for a public improvement project by conveyance to the appropriate public agency responsible for the construction and/or maintenance of the public improvement. The Agency may retain such property during the construction of the public improvement.

The Agency may dispose of property acquired under Subsection B of this Section VIII by conveying any interest in property acquired. Property shall be conveyed at its fair reuse value. Fair reuse value is the value, whether expressed in terms of rental or capital price, at which the urban renewal agency, in its discretion, determines such land should be made available in order that it may be developed, redeveloped, cleared, conserved, or rehabilitated for the purposes specified in the Plan. Because fair reuse value reflects limitations on the use of the property to those purposes specified in the Plan, the value may be lower than the property's fair market value.

Where land is sold or leased, the purchaser or lessee must agree to use the land for the purposes designated in the Plan and to begin and complete the building of its improvements within a period of time that the Agency determines is reasonable.

D. Properties to be acquired

This Plan must provide an indication of which real property may be acquired and the anticipated disposition of said real property whether by retention, resale, lease or other legal use, together with an estimated time schedule for such acquisition and disposition. This may be added at a date when the property is identified and may be added through a Minor Amendment.

IX. RELOCATION METHODS

When the Agency acquires occupied property under the Plan, residential or commercial occupants of such property shall be offered relocation assistance, as required under applicable state law. Prior to such acquisition, the Agency shall adopt rules and regulations, as necessary, for the administration of relocation assistance. The Agency will comply with all applicable state law in providing these potential benefits.

There are plans to acquire land for infrastructure which may trigger relocation benefits in the future in the Area. All acquisitions will be reviewed for potential of relocation benefits.

X. TAX INCREMENT FINANCING OF PLAN

Tax increment financing consists of using annual tax increment revenues to make payments on debt, usually in the form of bank loans or revenue bonds. The proceeds of the debt are used to finance the urban renewal projects authorized in the Plan. Debt may be either long-term or short-term.

Tax increment revenues equal most of the annual property taxes imposed on the cumulative increase in assessed value within an urban renewal area over the frozen base value (i.e., total assessed value at the time an urban renewal plan is adopted). The property taxes for general obligation (GO) bonds and local option levies approved after October 6, 2001 are not part of the tax increment revenues.

A. General description of the proposed financing methods

The Plan will be financed using a combination of revenue sources. These include:

- Tax increment revenues;
- Advances, loans, grants, and any other form of financial assistance from federal, state, or local governments, or other public bodies;
- Loans, grants, dedications, or other contributions from private developers and property owners, including, but not limited to, assessment districts; and
- Any other public or private source.

Revenues obtained by the Agency will be used to pay or repay the costs, expenses, advancements, and indebtedness incurred in (1) planning or undertaking project activities, or (2) otherwise exercising any of the powers granted by ORS Chapter 457 in connection with the implementation of this Plan, including costs associated with the preparation of the Plan.

B. Tax increment financing

The Plan may be financed, in whole or in part, by tax increment revenues allocated to the Agency, as provided in ORS Chapter 457. The ad valorem taxes, if any, levied by a taxing district in which all or a portion of the Area is located, shall be divided as provided in Section 1c, Article IX of the Oregon Constitution, and ORS 457.440. Amounts collected pursuant to ORS 457.440 shall be deposited into the unsegregated tax collections account and distributed to the Agency based upon the distribution schedule established under ORS 311.390.

C. Duration

The Agency intends not to collect tax increment revenues for the Area after thirty years of tax increment collections. The Agency shall not initiate any Projects in the Area unless the Agency reasonably projects it will be able to pay for those Projects from the

proceeds of indebtedness issued on or before FYE 2052, and from other funds available to the Agency. Except as provided in the next sentence, all indebtedness that is secured by the tax increment revenues of the Area shall mature no later than FYE 2052, and the Agency shall structure all its indebtedness so that it can be paid in full from the tax increment revenues of the Area that the Agency reasonably projects it will receive on or before FYE 2052. The Agency may issue refunding indebtedness that matures after FYE 2052, only if issuing that refunding indebtedness is necessary to avoid a default on previously-issued indebtedness.

D. Review of Plan

Every 5 years of the Plan from the date of first tax increment revenues, the Agency shall undertake a financial analysis of the Plan, including updated projections for tax increment finance revenues and evaluating the ability of the revenues to achieve or exceed the Plan's maximum indebtedness by the anticipated expiration date in FYE 2052. The Agency shall also review the project list for potential changes. The Agency shall consult and confer with affected taxing districts regarding the results of this financial and project update and will consider revenue sharing or shortening the time frame of the Plan if revenues are exceeding projections.

XI. VALIDITY

Should a court of competent jurisdiction find any work, clause, sentence, section or part of this Plan to be invalid, the remaining words, clauses, sentences, sections or parts shall be unaffected by such findings and shall remain in full force and effect for the duration of this Plan.

XII. ANNUAL REPORT

The Agency shall file an Annual Report in compliance with ORS 457.460.

Figure 12 Comprehensive Plan Designations

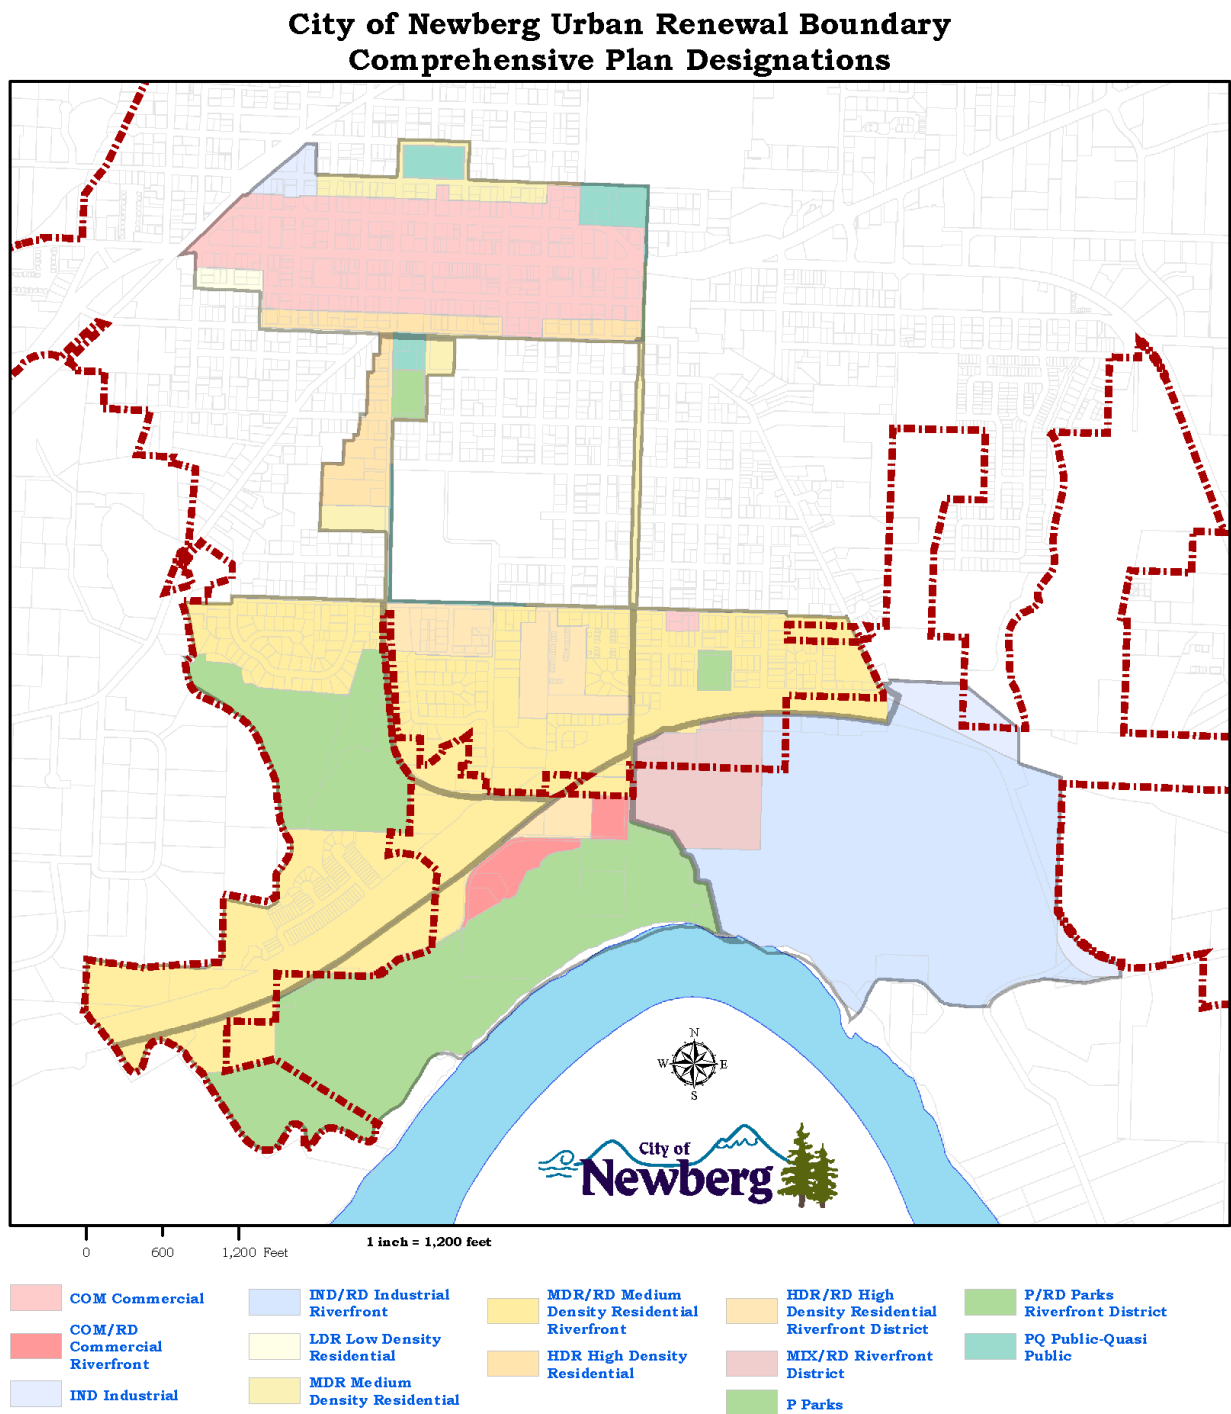

Figure 13 Zoning Designations

XIII. RELATIONSHIP TO LOCAL OBJECTIVES

ORS 457.085 requires that the Plan conform to local objectives including the comprehensive plan and economic development plan of a locality. This section provides that analysis. Relevant local planning and development objectives are contained within the *Newberg Comprehensive Plan* (Comprehensive Plan), *Newberg Transportation System Plan*, *Newberg Water Master Plan*, *Newberg Wastewater Master Plan*, *Newberg Stormwater Master Plan*, and *Newberg Municipal Code Title 15* (Municipal Code). For the Yamhill County findings, the documents reviewed were the *Yamhill County Comprehensive Plan*, the *Yamhill County Transportation Systems Plan* and the *Grow Yamhill County, Yamhill County Economic Development Plan, 2013*. The following section describes the purpose and intent of these plans, the main applicable goals and policies within each plan, and an explanation of how the Plan relates to the applicable goals and policies. The analysis covers the most relevant sections of the documents but may not cover every section of the documents that relate to the Plan.

The numbering of the goals and policies within this section reflects the numbering that occurs in the original document.

Comprehensive Plan designations for all land in the Area are shown in Figure 12. All proposed land uses conform to Figure 12. Maximum densities and building requirements for all land in the Area are contained in the Newberg Municipal Code. Some of the properties are presently outside the city limits but inside the Urban Growth Boundary. It is anticipated that these properties will be annexed prior to development and will comply with the required Comprehensive Plan and Municipal Code designations.

A. Newberg Comprehensive Plan

The Comprehensive Plan is a set of policies and a map of land use designations that guide growth and development in the city. The Plan reflects community needs and goals, and is consistent with established statewide goals and guidelines. The Comprehensive Plan contains the following sections: Introduction and Background; Goals and Policies; Plan Classifications; Population Growth; Land Need and Supply; and Summary. As the Comprehensive Plan is updated in the future, this document will automatically incorporate those updates without the Plan having to be formally amended. This section of the Plan should be updated if there is a substantial amendment completed in the future.

A. CITIZEN INVOLVEMENT

GOAL: To maintain a Citizen Involvement Program that offers citizens the opportunity for involvement in all phases of the planning process.

Finding: The preparation of the Plan was guided by a Citizens Advisory Committee (CAC). The Committee held fourteen meetings to guide preparation of the feasibility study, discuss the boundary, help prioritize the project list, review financial components of the Plan and review the draft Plan and Report. The CAC was comprised of taxing district representatives from Tualatin Valley Fire & Rescue, Newberg School District, Chehalem Park and Recreation District, and the Chehalem Valley Chamber of Commerce, Newberg Downtown Coalition, and five citizen representatives.

Once the feasibility study was completed, it was posted to the Newberg website as well as six videos explaining urban renewal technicalities. A Frequently Asked Questions fact sheet was also posted to the website as well as all documents from the Citizens Advisory Committee.

The City provided two updates to the City Council in televised meetings (Youtube) and three updates to the Planning Commission. Flyers in English and Spanish were distributed at the Wednesday Farmers' Market and throughout Newberg. Other briefings were provided to the Rotary (2), Kiwanis, and City Club (2).

The Plan itself is based on the numerous planning documents prepared in the City of Newberg all of which were thoroughly reviewed by the citizens of Newberg. These documents include *City of Newberg Riverfront Master Plan*, *City of Newberg Downtown Improvement Plan*, *A NewBERG Community Vision*, *the Newberg Comprehensive Plan*, *Stormwater Master Plan*, *Water Master Plan*, *Wastewater Master Plan*, *Transportation Systems Plan*, and *the Newberg Economic Development Strategy*.

E. AIR, WATER, AND LAND RESOURCE QUALITY

GOAL: To maintain and, where feasible, enhance the air, water and land resource qualities within

the community.

POLICIES:

3. As public sanitary sewer systems become available, all development shall connect to the public system. To encourage economic development, the City may permit subsurface sewerage disposal where the system meets State and County requirements and where unique circumstances exist.

5. New industry should be located in areas which minimize impacts.

9. The City will seek abatement of the aesthetic degradation of the environment resulting from blighted neighborhoods, indiscriminate waste disposal, offensive outdoor storage.

12. The City will require development to establish and maintain adequate levels of natural area buffers between new development and the waterways in the Riverfront District.

13. The City will discourage the development of uses that will generate or import quantities of hazardous substances into the Riverfront District.

14. Development in the Riverfront District will be encouraged to retain existing native vegetation that contributes to habitat functions and values.

Finding: Development of the Riverfront District and Downtown is a key goal of the Plan. This development will provide new industry to Newberg. This new industry will comply with the provisions of the Comprehensive Plan as all new development will comply with the requirements of the City of Newberg. In the Downtown area new development and infill development will comply with the provisions of the Comprehensive Plan as all new development will comply with the requirements of the City of Newberg.

F. AREAS SUBJECT TO NATURAL HAZARDS

GOAL: To protect life and property from flooding and other natural hazards.

POLICIES:

6. The City will discourage development on hazardous slope areas and natural resource areas in the Riverfront District.

Finding: Development of the Riverfront District and Downtown is a key goal of the Plan. This new development will comply with the provisions of the Comprehensive Plan as all new development will comply with the requirements of the City of Newberg.

G. OPEN SPACE, SCENIC, NATURAL, HISTORIC AND RECREATIONAL RESOURCES

GOALS:

1. To ensure that adequate land shall be retained in permanent open space use and that natural, scenic and historic resources are protected.

2. To provide adequate recreational resources and opportunities for the citizens of the community and visitors.

3. To protect, conserve, enhance and maintain the Willamette River Greenway.

1. Open Space & Natural Resources Policies

d. The dedication of easements for public drainageways and stream corridors should be encouraged when properties are either developed or redeveloped. Developed densities

that would normally be allocated to portions of the property within delineated stream corridors may be transferred to adjoining areas up to a maximum increase of 20 percent.

2. Scenic Resources Policies

- b. The City will encourage identification of scenic drives, sites and viewpoints.
- c. The City will encourage the protection and enhancement of views of the Willamette River throughout the Riverfront District.
- d. The City shall seek to protect identified key views of the Willamette River that are identified through area plans, specific plans, and other planning processes.

4. Recreation Policies

- n. The City will encourage the development of greenways or trails connecting the Riverfront to other open spaces and/or parks in the Newberg areas.
- o. The City will encourage the development of a regional Riverfront pedestrian/bicycle path connection, including connections to Champoeg State Park, the French Prairie, and Dundee.

5. Willamette River Greenway Policies

- f. Recreational access to the Willamette River for pedestrians, boaters (motorized and non-motorized), and other users who wish to appreciate the River from its banks should be provided.
- i. Existing waterfront parklands should be developed to maximize their water orientation and provide for a variety of active and passive recreational uses, including motorized and non-motorized boating, picnicking, walking, hiking, and other activities that make use of the waterfront and waterways.
- j. The City will encourage the development of a pedestrian esplanade in the Riverfront District to provide views of the river and connections to the riverfront.
- k. Waterfront recreational and park development along the Willamette River will be given emphasis to provide recreational resources for future generations.

Finding: There are specific projects within the Plan that will provide for the development of an esplanade and new trails in the Riverfront District. These projects will comply with the City's policies and development standards.

H. THE ECONOMY

GOAL: To develop a diverse and stable economic base.

POLICIES:

1. General Policies

- a. In order to increase the percentage of persons who live in Newberg and work in Newberg, the City shall encourage a diverse and stable economic base. Potential methods may include, but are not limited to, land use controls and capital improvement programs.
- b. The City shall encourage economic expansion consistent with local needs.
- c. The City will encourage the creation of a diversified employment base, the strengthening of trade centers and the attraction of both capital and labor intensive enterprises.
- d. Newberg will encourage the development of industries which represent the most efficient use of existing resources including land, air, water, energy and labor.
- g. The City shall encourage business and industry to locate within the Newberg City limits.
- j. A mixed-use river-oriented commercial area should be encouraged to be developed near the Willamette River.

2. Industrial Areas Policies

- d. The City shall undertake specific activities to encourage the growth of existing businesses, to encourage a diversity of businesses, and to attract new businesses to the community in industries that will provide local employment opportunities consistent with community needs and goals.
- g. The City shall identify land that will provide for expansion of existing businesses and/or attract new businesses and shall reserve that land for future industrial development that is consistent with community needs and goals.
- i. Industrial land shall be reserved for industrial uses.

3. Commercial Areas Policies

- a. The City shall encourage the retention of the downtown core as a shopping, service and financial center for the Newberg area. New commercial developments shall be encouraged to locate there.
- d. To maintain the integrity and function of the highway system, new commercial development shall be discouraged along the route of any limited access highway.

4. Riverfront District Policies

- a. The City will enhance commercial diversity and activity in the Riverfront District by encouraging a business mix that provides goods and services to satisfy neighborhood and visitor needs and that also draws people from the greater region.
- b. The City will encourage development of the Riverfront District as a distinct river oriented center that can help support a variety of local businesses.
- c. The City will encourage the development of commercial, retail, industrial, and employment uses that have a strong reason for locating near the Riverfront and support the vision of the Riverfront District as a walkable and bikeable mixed-use area.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The majority of funding in the Plan is allocated to transportation and infrastructure. The Riverfront District is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. This development will comply with the City's policies and development standards.

I. HOUSING

GOAL: To provide for diversity in the type, density and location of housing within the City to ensure there is an adequate supply of affordable housing units to meet the needs of City residents of various income levels.

2. Location Policies

- c. The City will encourage medium - to high density- housing in and adjacent to the commercial core of the Riverfront District medium-density residential uses in the western and northern portions of the Riverfront District.

3. Mix Policies

- k. The City shall encourage an adequate supply of multi-family housing dispersed throughout the City to meet the needs of renters.
- n. The City will encourage housing development in commercial areas within the Riverfront District as part of mixed use developments

Finding: The majority of funding in the Plan is allocated to transportation and infrastructure. These projects are intended to facilitate development including

development in commercial areas within the Riverfront District as part of mixed use developments and in the Downtown area for mixed use development.

J. URBAN DESIGN

GOAL 1: To maintain and improve the natural beauty and visual character of the City.

1. General Policies

h. Curbs, gutters, and sidewalks should be required in all new developments.

i. Curb ramps should be required at intersections and pedestrian crosswalks wherever new curbs are installed. These ramps improve access for the elderly and handicapped, as well as for strollers, bicycles and other wheeled vehicles.

5. Downtown Policies

a. The City should encourage improvement of the central business district as the economic, cultural, business and governmental center of the Newberg area.

c. The City should encourage a variety of commercial and service activities to locate in the central business district, including mixed-use commercial/residential buildings and mixed-use commercial/craft industrial to create a vital downtown core with a strong retail sector.

d. The City should discourage the use of the central business district for non-intensive land uses or uses which have a low floor area to site size ratio.

e. The City should encourage a higher utilization of downtown space, encouraging intensive use of all building levels.

f. A concerted effort should be made to revitalize the central business district through rehabilitation or redevelopment of existing areas.

g. The City should consider:

- Adequate off-street parking.
- Adoption of a downtown improvement plan which should include design standards for all new private and public improvements.
- Various options to make the downtown more pedestrian friendly, particularly as traffic volumes change with the opening of the Phase 1 Bypass.

Finding: The Plan provides for the extensive provision of new streets and street reconstruction. These streets will have curbs, gutters, sidewalks, and curb ramps to conform with the City standards for streets. Off street parking is one of the projects in the Plan. The projects are intended to help support the Downtown by providing transportation

and infrastructure improvements to help facilitate redevelopment and development in the Downtown area.

6. Riverfront District Policies

a. The City will encourage a mix of employment, housing, commercial, and industrial uses serving the neighborhood and the surrounding community to enhance the Riverfront District's identity as a vital and attractive City asset and to ensure an active, pedestrian friendly, and thriving Riverfront District.

b. Development and land uses will be encouraged that promote the Riverfront District as a convenient and attractive environment for residents of Newberg as well as for visitors from other cities and the region as a whole.

c. The development of mixed commercial uses will be encouraged in the Riverfront District along E Fourteenth, NE Waterfront, S College, and S River Streets.

d. The City will encourage the use of common design elements such as gateways, wayfinding signage, streetscape features, and building design elements for new and/or improved development in the Riverfront District in order to create a sense of identity that is unique to this area of Newberg.

e. The City will permit land uses with design features along S River Street that are compatible with or provide a buffer between residential and retail uses on the west side of the street and industrial and mixed employment uses on the Riverfront Mill Site.

f. The City will encourage commercial structures within the Riverfront District that are in scale with commercial sites and suitable for river-oriented businesses.

Finding: The Riverfront District is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. These projects will comply with the City's policies and development standards.

K. TRANSPORTATION

GOAL 1: Establish cooperative agreements to address transportation based planning, development, operation and maintenance.

POLICIES:

b. The City should work to ensure that the transportation system is developed in a manner consistent with state and federal standards for the protection of air, land and water quality, including the State Implementation Plan for complying with the Clean Air Act and the Clean Water Act.

GOAL 2: Establish consistent policies which require concurrent consideration of transportation/land use system impacts.

POLICIES:

a. Transportation improvements should be used to guide urban development and should be designed to serve anticipated future needs.

e. The City will encourage the development of retail development within the downtown area.

f. Within the Riverfront District Mixed Employment area, the City shall limit new retail development to up to 60,000 square feet and new office development to up to 60,000 square feet in order to mitigate traffic impacts identified in the 2019 Riverfront Master Plan

GOAL 3: Promote reliance on multiple modes of transportation and reduce reliance on the automobile.

POLICIES:

a. Design the transportation system and related facilities to accommodate multiple modes of transportation where appropriate and encourage their integrated use;

1) The City should plan for a network of transportation facilities and services including but not limited to air, water, rail, auto, pedestrian, bicycle and public transit.

3) All local and commuter transit services must implement the accessible transportation requirements established by the Americans with Disabilities Act of 1990.

d. The City should develop a program in coordination with the rail line owner to operate a trolley on the rail line down Blaine Street to connect the downtown area to the Riverfront Mill Site.

GOAL 4: Minimize the impact of regional traffic on the local transportation system.

POLICIES:

a. Enhance the efficiency of the existing collector/arterial street system to move local traffic off the regional system.

GOAL 5: Maximize pedestrian, bicycle and other non-motorized travel throughout the City.

POLICIES:

a. The City should provide safe, convenient and well-maintained bicycle and pedestrian transportation systems that connect neighborhoods with identified community

a. Enhance the efficiency of the existing collector/arterial street system to move local traffic off the regional system.

i. A bicycle path should be provided along or near the bypass.

GOAL 6: Provide effective levels of non-auto oriented support facilities (e.g. bus shelters, bicycle racks, etc.).

a. The City should develop land use, density, and design standards to encourage development patterns that accommodate pedestrian, bicycle and transit uses.

b. New development should be designed to accommodate integrated multiple modes of transportation.

d. The City should provide a transportation system (traffic, bicycle, pedestrian and transit) with facilities that are accessible to all people, complying in the process with applicable provisions of the Americans with Disabilities Act (ADA).

GOAL 7: Minimize the capital improvement and community costs to implement the transportation plan.

POLICIES:

a. The Transportation System Plan shall identify needed improvements to the collector/arterial street system, the public transit system, the pedestrian/bicycle system and the air, rail, water, and pipeline systems. Improvements should be identified as likely funded or aspirational projects for the 20-year planning horizon. (Ordinance 2016-2810, December 19, 2016)

b. The list of improvement projects in the Transportation System Plan shall guide development of the city's capital improvement plan for transportation projects.

i. New development and existing development undergoing expansion or modification should be designed to accommodate planned long-term transportation improvement projects in the vicinity of the development.

GOAL 9: Create effective circulation and access for the local transportation system.

POLICIES:

a. Enhance existing routes and add alternative routes for local travel.

3) The City should coordinate the development of an integrated bike and pedestrian system that provides for connections between and through adjacent development and that provides convenient links to community destinations.

b. Develop a system of roads that provide for efficient movement of traffic. Specific design guidelines for the different classifications of roadways is found in the Transportation System Plan and the Newberg Public Works Design and Construction Standards. The functional classifications of roadways in the City of Newberg includes the following:

Expressway. Expressways should be designed to expedite the movement of regional traffic through the urban area; they function as freeways with limited access points and no private development access points.

Within the City of Newberg, the Highway 99W Bypass Corridor is intended to be an expressway, which is generally aligned east/west along the southern alignment route depicted in the Newberg/Dundee Bypass Location Environmental Impact Statement. The length of the Highway 99W Bypass within the City is approximately 3 miles. Expressways shall be designed to ODOT guidelines.

Major Arterials. Major Arterials expedite the movement of traffic to and from major trip generators and between communities, collect and distribute traffic from principal arterials to collector streets, or directly to traffic generators. The functional emphasis is on the movement of people, goods, and services through the city, therefore consolidating access points, minimizing parking, and managing traffic flow to promote through-travel is the desired condition. Exceptions may occur in the central business district and in designated neighborhood commercial areas. Within the City of Newberg, Highway 99W is a major arterial that is generally aligned east/west. The length of Highway 99W within the City is approximately 3.3 miles.

Minor Arterial. Minor Arterials collect and distribute traffic from major arterials to collector and local streets, and facilitate traffic movement between neighborhoods. Highway 219 (Hillsboro-Silverton Highway) from first street to the southern urban growth boundary is a minor arterial that is generally aligned north/south. The length of Highway 219 within

Newberg (south of Villa Road) is approximately 3.0 miles. Springbrook Road and Mountainview Drive are other examples of minor arterials.

Major Collectors. Major collectors serve multi-neighborhood areas. They are intended to channel traffic from local streets and/or minor collectors to the arterial street system. A major collector can also provide access to abutting properties. Villa Road, Haworth Avenue, and Wynooski Road are all examples of major collectors.

Minor Collectors. A minor collector provides access to abutting properties and serves the local access needs of neighborhoods by channeling traffic to the major collector and arterial street system. A minor collector is not intended to serve through traffic. Meridian Street, Columbia Drive, and Vittoria Way are all examples of minor collectors.

Local Streets. Local streets provide direct access to adjoining properties and connect to collector streets. Most residential neighborhood streets are local streets.

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront District and Downtown area. The projects will implement portions of the *City of Newberg Comprehensive Plan*, *City of Newberg Transportation System Plan*, and are therefore in conformance with the Comprehensive Plan. Some of the projects are designated in the *Riverfront Master Plan* and the *Downtown Improvement Plan*. These projects will comply with the City's policies and development standards.

L. PUBLIC FACILITIES AND SERVICES

GOAL: To plan and develop a timely, orderly and efficient arrangement of public facilities and services to serve as a framework for urban development.

POLICIES:

1. All Facilities & Services Policies

- a. The provision of public facilities and services shall be used as tools to implement the land use plan and encourage an orderly and efficient development pattern.
- b. The extension of publicly-owned facilities and services into currently undeveloped areas shall occur only in accordance with the Water Master Plan, Wastewater Master Plan, Stormwater Master Plan and Newberg Design and Construction Standards.
- c. New public facilities and services shall be designed at levels consistent with planned densities and designated land uses for the area.
- d. Services shall be planned to meet anticipated community needs.

e. Owners of properties which are located on unimproved streets should be encouraged to develop their streets to City standards.

f. Maximum efficiency for existing urban facilities and services will be encouraged through infill of vacant land within the Urban Growth Boundary.

g. Public facilities and services necessary to meet the special needs of industrial and mixed employment activities should be planned for those areas designated industrial on the comprehensive plan map and should be provided at a level sufficient to support proposed activities, if public funds are available.

h. New residential areas shall have: paved streets, curbs, pedestrian ways, water, wastewater, stormwater, street lights and underground utilities.

2. Wastewater, Stormwater and Water Policies

a. All existing development within the City limits shall connect to public wastewater, stormwater and water systems as soon as they become available.

b. Water systems within the planning area will be designed to provide an adequate peak flow for fire protection.

g. Stormwater systems should be designed to convey stormwater based on impervious area within the Urban Growth Boundary to protect, maintain, and enhance the public health, safety, and general welfare.

h. The design of the stormwater system should provide for the drainage of surface water from development, minimize erosion, and reduce degradation of water quality due to sediments and pollutants in stormwater runoff.

i. Encourage new development to maximize infiltration of stormwater runoff when soil conditions allow.

Finding: There are numerous infrastructure projects in the Plan. These projects are intended to develop a timely, orderly and efficient arrangement of public facilities in the Area. These projects will comply with the City's policies and development standards.

M. ENERGY

GOAL: To conserve energy through efficient land use patterns and energy-related policies and ordinances.

POLICIES:

1. Planning Policies

a. The City will encourage energy-efficient development patterns. Such patterns shall include the mixture of compatible land uses and a compactness of urban development.

Finding: The projects in the Plan provide support for development in the Downtown, an established area with a compactness of urban development. The projects will also encourage development in the Riverfront District which is zoned for a mixture of compatible uses and a compactness of urban development. These projects will comply with the City's policies and development standards.

B. City of Newberg Transportation System Plan December 2016, updated March 2021 adding Addendum Riverfront Master Plan

The Transportation System Plan (TSP) provides a long-term guide for City transportation investments by incorporating the vision of the community into an equitable and efficient transportation system. The plan evaluates the current transportation system and outlines policies and projects that are important to protecting and enhancing the quality of life in Newberg through the next 20 years. The TSP represents a collection of past and current ideas, incorporating projects, policies, decisions, and standards from past and current plans into a single document.

A TSP is required by the State of Oregon to help integrate local plans into the statewide transportation system. The plan balances the needs of walking, bicycling, driving, transit, freight, and rail into an equitable and efficient transportation system.

Plan Details

Goal 1: Maintain or improve access to existing properties and employment areas; improve freight traffic and/or minimize downtown trips for through traffic; have minimal impact on adjacent properties.

Goal 2: Emphasize visual and aesthetic qualities in their design; minimize any potential energy, social, environmental, and economic impacts; improve rail, water, and air transportation systems where possible.

Goal 3: Enhance access for emergency response; include improvements meant to reduce crash frequency and severity and/or to enhance pedestrian/bicyclist safety.

Goal 4: Include "complete street" principles with both vehicle and pedestrian/bicycle improvements; improve the connectivity of the street and/or sidewalk system; improve access to public transit.

Goal 5: Provide the most cost effective improvement option and identify stable funding sources for improvements; repair, maintain, and/or improve existing facilities and protect

needed right-of-way for future projects; or constructed as a mitigation requirement by private development.

Potential Additional Funding Sources

Urban Renewal District

An Urban Renewal District (URD) would be a tax-funded district within the City. The URD would be funded with the incremental increases in property taxes resulting from construction of applicable improvements. This type of tax increment financing has been used in Oregon since 1960. Use of the funding includes, but is not limited to, transportation improvements, which are funded by the incremental taxes rather than fees. (P 53 of TSP)

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront District and Downtown areas. The projects are intended to implement the *City of Newberg Transportation System Plan*. These projects will comply with the City's policies and development standards.

C. City of Newberg Wastewater Master Plan May 2018, updated May 2021 adding Appendix K: Addendum to include Riverfront Master Plan

Plan Details

In 2016, the City of Newberg, Oregon, contracted with Keller Associates, Inc. (Keller) to complete a wastewater facility planning study for the City's sanitary sewer collection system and wastewater treatment plant (WWTP). The study area consists of all areas within the City of Newberg Urban Growth Boundary (UGB). This study was updated in 2021 to include provisions in the Riverfront Master Plan.

Finding: There are wastewater projects identified for East Industrial Street, S River Street, and First Street in the Plan including new lines in new streets, improvements in existing streets, a Riverfront lift station, a force main and a gravity main project. These projects will comply with the City's policies and development standards.

D. City of Newberg Water Master Plan May 2017, updated May 2021 adding Appendix E: Addendum Riverfront Master Plan

Plan Details

The purpose of this Water Master Plan (WMP) is to perform an analysis of the City of Newberg's (City's) water system and:

- Document existing water system service area, facilities and operation
- Estimate future water requirements including potential water system expansion areas

- Identify deficiencies and recommend water facility improvements that correct deficiencies and provide for growth
- Update the City's capital improvement program (CIP)
- Evaluate the City's existing operation and maintenance (O&M) program
- Evaluate the City's existing system development charges (SDCs)

Finding: There are water projects identified in the Plan for East Industrial Street, S River Street, E Fourteenth Street, S Blaine Street, First Street, Meridian Street, N College Street, Howard Street, Washington Street, Main Street, E Sheridan Street, including new lines in new streets, improvements in existing streets and replacing water lines in some Downtown streets. These projects will comply with the City's policies and development standards.

E. City of Newberg Stormwater Master Plan, updated June 2021

Plan Details

In 2013, the City of Newberg (City) initiated development of a multi-objective Stormwater Master Plan (Master Plan) to provide a clear understanding of the existing stormwater system and provide a capital improvement project (CIP) program to address deficiencies in the system. The main objectives of this plan are as follows:

- Update the City's stormwater system's hydrologic and hydraulic models to evaluate system capacity.
- Develop an integrated stormwater system capital improvement program to address storm system capacity needs and water quality.
- Evaluate stream channel conditions with respect to erosion and impacts from future development.
- Continue to comply with water quality regulations.
- Review the City's stormwater management program and make recommendations on activities and staffing where applicable.
- Identify implementation priorities and impacts to the program budget.
- Develop a Master Plan document that is useful and easy to read, reference, and update.

Finding: There are stormwater projects identified on S Blaine Street, S River Street, and First Street in the Plan. There are also stormwater projects in all new streets in Subarea A. These projects will comply with the City's policies and development standards.

F. Newberg Economic Development Strategy Updated 2019

Plan Details

Goal: *Having a qualified and educated workforce; an environment of openness to business investment; programs for retention, expansion and recruitment of businesses; public investment in critical infrastructure; metrics to measure economic activity; all while being sustainable.*

INDUSTRIAL SECTOR

Goal: *Enhance industrial development capabilities and opportunities*

COMMERCIAL SECTOR

Goal: *Enhance commercial development capabilities and opportunities*

BUSINESS DEVELOPMENT AND WORKFORCE

Goal: *Create a premier business and workforce development program*

DOWNTOWN NEWBERG

Goal: *Complete funding, administrative, and organizational actions for Newberg Downtown Improvement Plan.*

TOURISM AND HOSPITALITY

Goal: *Newberg / Chehalem Valley a regional, national & international tourist destination*

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The majority of funding in the Plan is allocated to transportation and infrastructure. The Riverfront District is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. This development will comply with the City's policies and development standards.

G. Newberg Municipal Code Title 15 Development Code

The land uses in the Area will conform to the zoning designations in the Municipal Code, including the maximum densities and building requirements, and are incorporated by reference herein. The existing zoning is shown in Figure 4. It shows the expected zoning designations of the parcels that are outside of the city limits but inside the urban growth boundary.

As the Municipal Code is updated, this document will be automatically updated. If a substantial amendment is completed in the future, this section will be updated to match the current zoning designations.

The zoning categories at the time of the Newberg 2021 Urban Renewal Plan preparation follow. They are in the order that they occur in Title 15 of the Municipal Code.

Existing Zoning Categories

R-1 Low Density Residential District.

1. The purpose of this land use designation is to provide for low density urban single-family residential uses at an average overall density of 4.4 units per gross buildable acre in the district. It is intended to provide a stable and healthful environment together with the full range of urban services.

2. Typical housing types will include single-family dwellings, duplex dwellings, and planned unit developments. The district also is intended to allow low intensity institutional uses that operate consistent with peaceful enjoyment of residential neighborhoods. The R-1 district is intended to be consistent with the low density residential (LDR) designation of the comprehensive plan.

R-2 Medium Density Residential District.

1. The purpose of this land use designation is to provide a wide range of dwelling types and styles at an average overall density of nine units per gross buildable acre in the district.

2. Typical housing types will include single-family dwellings on small lots, attached single-family, duplex dwellings, or multifamily dwellings, and manufactured dwelling parks. The district also is intended to allow low intensity institutional uses that operate consistent with peaceful enjoyment of residential neighborhoods. The R-2 district is intended to be consistent with the medium density residential (MDR) designation of the comprehensive plan.

R-3 High Density Residential District.

1. The purpose of this land use designation is to provide multifamily dwellings of different types and styles at an average overall density of 16.5 units per gross buildable acre in the district.

2. Typical housing types will include duplex dwellings, multifamily dwellings, and manufactured dwelling and mobile home parks. The district also is intended to allow low intensity institutional uses that operate consistent with peaceful enjoyment of residential neighborhoods. Density may vary depending on lot size, off-street parking area, transportation, landscaping and other site considerations. The R-3 district is intended to be consistent with the high density residential (HDR) designation of the comprehensive plan.

RP Residential-Professional District. The RP residential-professional district provides for a desirable mixing of residential land uses with medical and local business office uses in possible close proximity to adjacent residential areas. The office building and parking coverage, traffic generation, open space and other external factors are intended to be compatible with the residential uses permitted. This district may be appropriate in transition areas between major land uses as indicated in the adopted plan. The RP district is intended to be consistent with commercial or residential designations on the Newberg comprehensive plan. RP districts shall be located as to conform to goals and policies identified within the Newberg comprehensive plan and in areas which have a minimal impact on the livability or appropriate development of abutting property.

C-1 Neighborhood Commercial District. The C-1 neighborhood commercial district is intended to create, preserve and enhance areas of retail establishments serving frequently recurring needs in convenient locations. It is typically appropriate for small convenience stores or neighborhood shopping centers located within residential neighborhoods. The C-1 district is intended to be consistent with the commercial (COM) designation of the comprehensive plan.

C-2 Community Commercial District. The C-2 community commercial district is intended to create, preserve and enhance areas with a wide range of retail sales, commercial services, and office establishments. Typical development types include individual commercial buildings on small and large sites, community shopping centers, and some outdoor retail uses. This district is typically located along highways and arterials. This district also includes some development which does not strictly fit the description of “commercial” but also does not merit a separate zoning district. The C-2 district is intended to be consistent with the commercial (COM) and mixed use (MIX) designations of the comprehensive plan.

C-3 Central Business District. The C-3 central business district is intended to preserve and enhance areas within which the greatest possible concentration of retail sales and business will occur. The district will be applied to the “core” area based upon the guidelines

established in the comprehensive plan. The buildings and uses permitted reflect the desire to have parking provided on a district-wide basis rather than having each individual building or use provide parking. The C-3 district is intended to be consistent with the commercial (COM) designation of the comprehensive plan.

C-4 Riverfront Commercial District.

1. The purpose of the C-4 riverfront commercial district is to allow a mix of uses that:
 - a. Provides a variety of retail, commercial, and residential uses that benefit from proximity to the river.
 - b. Encourages access to and enjoyment of the Willamette River.
 - c. Ensures compatibility of development with the surrounding area and minimizes impacts on the environment.
2. Properties zoned in this district must comply with the development standards of the riverfront overlay subdistrict, as described in NMC 15.352.010 through 15.352.060.
3. The C-4 district is intended to be consistent with the commercial/riverfront district (COM/RD) designation of the comprehensive plan.

M-2 Light Industrial District. The M-2 light industrial district is intended to create, preserve and enhance areas containing a wide range of manufacturing and related establishments and is typically appropriate to areas providing a wide variety of sites with good rail or highway access. The M-2 district is intended to be consistent with the industrial (IND) designation of the comprehensive plan.

CF Community Facilities District. The purpose of the CF community facilities district is to provide for appropriate development of community facilities, primarily by public agencies or nonprofit organizations. It encourages the preservation of natural resources and open space resources inventoried in the comprehensive plan. The CF district is intended to be consistent with the parks (P) and public/quasi-public (PQ) designations in the comprehensive plan. It may also be consistent with any other designation of the comprehensive plan as determined by the city council.

I Institutional District. The I institutional district is intended to support and promote institutional uses. The district provides for the establishment and growth of large institutional campuses as well as accessory and compatible uses. The institutional district is intended to be consistent with the public/quasi-public (PQ) designation of the comprehensive plan.

M-E Mixed Employment District. The M-E mixed employment district is intended to create a mix of light industrial and limited commercial uses that provide employment

opportunities for the City of Newberg while also creating a high-quality urban environment. This designation can provide a buffer between industrial uses with a high degree of external impact and other uses such as residential and recreational areas. The M-E designation is intended to be consistent with the industrial (IND) and mixed use (MIX) designations of the comprehensive plan.

CC Civic Corridor Overlay Subdistrict. The CC subdistrict is intended to emphasize the civic and historic character of that portion of downtown Newberg generally bounded by Sherman Street on the north, Blaine Street on the west, 5th Street on the south and Howard and School Streets on the east and as depicted on the zoning map. The subdistrict overlay may be applied within any zoning district. The subdistrict shall be designated by the suffix CC added to the symbol of the parent district.

H Historic Landmarks Overlay Subdistrict. The historic landmarks overlay subdistrict may be created within any zoning district. The overlay shall be designated by the suffix H added to the symbol of the parent district. All uses permitted in the parent zone shall be allowable in the H overlay zone except as otherwise may be limited by this code.

IO Institutional Overlay Subdistrict. The institutional overlay subdistrict may be created within any zoning district. The overlay shall be designated by the suffix IO added to the symbol of the parent district. All uses permitted in the parent zone shall be allowable in the IO overlay zone except as otherwise may be limited by this code.

RD Riverfront Overlay Subdistrict. The riverfront overlay subdistrict may be applied to R-1, R-2, R-3, M-1, M-2, M-3, M-E, C-1, C-4, and CF zoning districts. This subdistrict may be applied to lands south of Ninth Street to the Willamette River. The overlay shall be designated by the suffix RD added to the symbol of the parent district. All uses permitted in the parent zone shall be allowable in the RD overlay zone except as otherwise may be limited in this code. Where provisions of the subdistrict are inconsistent with the parent district, the provisions of the subdistrict shall govern.

Bypass Interchange (BI) Overlay. The bypass interchange overlay shall apply to lands within the city limits and within approximately one-quarter mile of the end of ramps of the East Newberg and Oregon 219 interchanges to the bypass. The bypass interchange overlay may be applied in combination with any zoning district. The overlay shall be designated by the suffix BI added to the symbol of the parent district. All uses permitted in the parent zone shall be allowed within the bypass interchange overlay except as specifically limited by this code.

Finding: The Plan conforms with Title 15 of the Newberg Municipal Code as the projects will support the development of parcels in the Area and those parcels will be developed in

accordance with the Municipal Code through the normal City of Newberg development review process.

H. Yamhill County Comprehensive Plan

The following findings were prepared by the City of Newberg in coordination with Yamhill County staff.

Section I Urban Growth and Change and Economic Development

A. Urban Area Development

GOAL STATEMENT

1. To encourage the containment of growth within existing urban centers, provide for the orderly, staged, diversified and compatible development of all of the cities of Yamhill County, and assure an efficient transition from rural to urban land use.

POLICIES

A. Yamhill County will, in cooperation with the cities and special districts of the county, encourage urban growth to take the form of a series of compact, balanced communities, each with its own business and community center and each related to industrial areas and other centers of employment.

C. Yamhill County will recognize the lands within established urban growth boundaries as the appropriate and desired location for urban development.

GOAL STATEMENT

2. To encourage the containment of urban services and facilities and other public capital improvements within existing urbanizing areas in order to achieve an orderly pattern of urban growth.

POLICIES

A. Yamhill County will continue to seek full cooperation and coordination among the cities, the school districts, other special-purpose districts of the county and the county itself in jointly planning and programming all land use, urban services and facilities and other public improvements having an impact on the rate and direction of urban growth.

B. Yamhill County will seek to establish a general commitment by all providers of urban services that no subdivision of lands in designated urban areas on the Plan Map will be permitted without the provision of urban services commensurate with the location, nature and scale of the proposed development, recognizing the overall capital program for

community services and the ultimate net cost to the community of the services to be provided.

Finding (Goals 1 and 2): One of the major goals of the Plan is to develop a diverse and stable economic base while providing for orderly, staged, diversified and compatible development and assuring an efficient transition from rural to urban land use. All unincorporated areas within the Urban Renewal Plan (Plan) are within the urban growth boundary (UGB) and are intended to be developed to urban densities in the future.

The majority of funding in the Plan is allocated to transportation and infrastructure. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. However, it is within the UGB so providing infrastructure for future development will provide for orderly, staged, diversified and compatible development.

The projects designated for the Downtown Improvement Plan area also provide key transportation and infrastructure improvements to encourage economic development including rehabilitation of existing structures and new development. These projects will encourage the containment of growth within the existing urban center. The City of Newberg has coordinated with providers of urban services with the UGB and the proposed Plan area consistent with Goal 2. Policy A. The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection A. Urban Area Development, Goals 1 and 2 of the Yamhill County Comprehensive Plan.

GOAL STATEMENT

3. To create convenient and attractive residential neighborhoods which can be efficiently serviced with roads, utilities, schools, parks and commerce, and can take advantage of desirable physical features; and to give a satisfactory range of choice to the prospective householder through the imaginative use of a variety of design concepts.

POLICIES

A. Yamhill County will continue to recognize that the appropriate location of medium-density residential development is in areas having a full range of urban services and amenities within or immediately adjacent to central business districts; immediately adjacent to public traffic generators, such as schools, parks, hospitals, and regional or neighborhood shopping centers; or in selected small areas having unique scenic qualities and a location where community water supply and sewage-disposal systems, adequate access by way of a road of collector or higher status and other urban services necessary to meet the needs of the intended residents can and will be provided.

Finding: There are 117 parcels in the Plan Area designated for High Density Residential uses and another 35 parcels designated for Medium Density Residential uses. The utility undergrounding on Second Street will allow for higher density residential uses on this

street as TVF&R will be able to service the higher density uses. Most of the funding in the Plan is allocated to transportation and infrastructure. These projects are intended to facilitate development including development within the Riverfront Master Plan area as part of mixed use developments and in the Downtown area for mixed use development. Improving the transportation system will allow residents to easily access recreational opportunities at the riverfront. The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection A. Urban Area Development, Goal 3 of the Yamhill County Comprehensive Plan.

C. Alternative Development

The planned unit development (PUD) concept provides a viable alternative to conventional urban development patterns.

Finding: Not applicable this proposal is not a Planned unit development.

E. Housing

GOAL STATEMENT

1. To assure the provisions of safe, sanitary and decent housing for all residents of the county at a reasonable cost.

POLICIES

A. Yamhill County will continue to cooperate with all governments and housing agencies within the region in promoting unified housing policies and action programs as well as an equitable distribution of assisted housing throughout the county.

E. Yamhill County will coordinate its efforts with each city in order to avoid potential conflicts with respect to countywide housing opportunities and demand.

Finding: There are 117 parcels in the Area designated for High Density Residential uses and another 35 parcels designated for Medium Density Residential uses. The utility undergrounding on Second Street will allow for higher density residential uses on this street as TVF&R will be able to service the higher density uses. Most of the funding in the Plan is allocated to transportation and infrastructure. These projects are intended to facilitate development including development within the Riverfront Master Plan area as part of mixed use developments and in the Downtown area for mixed use development. Improving the transportation system such as E First Street, S River Street, S Blaine Street and S Wyooski Street will allow residents to easily access recreational opportunities in the Downtown area at the riverfront. The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection E. Housing, Goal 3 of the Yamhill County Comprehensive Plan.

F. Economic Development

GOAL STATEMENT

1. To maintain a rate and pattern of economic growth sufficient to prevent recurring high levels of unemployment and under-employment in the county, balance the real property tax base of the various cities, and strengthen local economic bases.

POLICIES

A. Yamhill County will, in cooperation with the cities, the local chambers of commerce and affiliated industrial promotion groups, and State agencies concerned with State and regional economic development, encourage a diversified employment base, the strengthening of trade centers, and the attraction of both capital and labor intensive enterprises, consistent with the needs of each community and the county as a whole.

B. Yamhill County will encourage economic development projects which do not conflict with the predominant timber and agricultural character of the county.

C. Yamhill County will ensure citizen participation in economic development planning through the continued involvement of the Yamhill County Economic Development Committee.

D. Yamhill County will develop an Overall Economic Development Program which is consistent with the county comprehensive plan. This program will be outlined in an updated Overall Economic Development Plan which, upon completion, will be incorporated into the economic element of the county comprehensive plan.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. This will provide a strengthening of trade centers, and the attraction of both capital and labor intensive enterprises, consistent with the needs of the community. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. The Riverfront Area is projected to create both construction and permanent jobs. 300 – 400 permanent jobs are anticipated on the former mill site property in addition to employment within the Riverfront commercial and in the Downtown area

The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development.

Citizen participation has been a key component of the planning for this Area. As a base for

developing the Plan, the following plans were prepared, all of which had significant public involvement:

Riverfront Master Plan

Downtown Improvement Plan

A NewBERG Vision

Newberg Economic Development Strategy

Newberg Strategic Tourism Plan

Newberg Housing Needs Analysis

Newberg Economic Opportunity Analysis

Urban Renewal Feasibility Study

In addition to these plans, there was extensive citizen involvement in the Plan. The preparation of the Plan was guided by a Citizens Advisory Committee (CAC). The Committee held fourteen meetings to guide preparation of the feasibility study, discuss the boundary, help prioritize the project list, review financial components of the Plan and review the draft Plan and Report. The CAC was comprised of taxing district representatives from Tualatin Valley Fire & Rescue, Newberg School District, Chehalem Park and Recreation District, and the Chehalem Valley Chamber of Commerce, Newberg Downtown Coalition, and five citizen representatives.

Once the feasibility study was completed, it was posted to the Newberg website as well as six videos explaining urban renewal technicalities. A Frequently Asked Questions fact sheet was also posted to the website as well as all documents from the Citizens Advisory Committee.

The City provided two updates to the City Council in televised meetings (Youtube) and three updates to the Planning Commission. Flyers in English and Spanish were distributed at the Wednesday Farmers' Market and throughout Newberg. Other briefings were provided to the Rotary (2), Kiwanis, and City Club (2).

The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection F. Economic Development, Goal 1 of the Yamhill County Comprehensive Plan.

G. Commercial Development

GOAL STATEMENT

1. To create an environment for commercial development which will preserve and enhance the vitality of the central business districts, assure safer, more convenient and attractive community and neighborhood commercial centers, and protect prime commercial sites for use in advance of need.

POLICIES

E. Highway service and tourist commercial uses catering to the needs of the traveling public

will be encouraged to locate within existing urban centers. Traditional central commercial uses will be encouraged to locate or relocate only in existing town centers and the dispersal of such uses to peripheral highway locations will be discouraged.

F. As part of the on-going planning program the county will coordinate with the cities to:

1. Prepare and maintain an inventory of buildable commercial lands; and
2. Work with businessmen and community groups to formulate re-development plans for existing commercial areas.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development including commercial development in the area.

The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. The Downtown area is a key tourist hub of commercial uses and is within the Plan Area. The City has an inventory of buildable commercial lands as part of its Economic Opportunities Analysis which has obtained County input and been shared with the County. The Urban Renewal Plan also address the redevelopment of the Downtown area with infill development and in the Riverfront Master Plan area supported by infrastructure improvements identified in the Plan.

The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection G. Commercial Development, Goal 1 of the Yamhill County Comprehensive Plan.

H. Industrial Development

GOAL STATEMENT

1. To concentrate industries of similar types, service needs, and performance characteristics within designated areas of each of the existing urban centers; to encourage adequate land for new industrial development within urban growth boundaries; to encourage the relocation of existing industries from undesirable locations in order to eliminate land use conflicts; to attract new industries in accordance with the need to achieve a more balanced local property tax and employment base, while maintaining a high standard of environmental quality; and to protect the stability and functional aspect of industrial areas by protecting them from incompatible uses.

POLICIES

B. To the greatest extent possible, industrial areas will be located within urban growth boundaries. Those industrial areas located outside urban growth boundaries will be compatible with the industrial development goal and will be located where they can be adequately served by necessary major utility lines, including electric power substations and transmission lines, trunk sewer lines, trunk water lines, and where appropriate, trunk gas lines.

D. Industrial uses which are compatible with surrounding residential development and are willing to bear the cost of maintaining high performance characteristics and attractive site and building layout and design, will be encouraged to locate or relocate in designated industrial parks and that such parks and their staged development will be subject to planned unit development agreements.

E. Industrial uses will be located so that adequate buffer space is provided between incompatible land uses.

H. Established industrial areas may be extended and new industrial areas designated by plan amendment where development trends warrant such extension or designation and full urban services are extended into the area, if appropriate, and the extension or designation of land use and services is consistent with all other goals and policies of the comprehensive plan.

I. Industrial development will utilize the transportation system in an efficient and safe manner and reduce energy consumption by identifying for industrial development areas with alternative transportation opportunities, and by locating employment opportunities close to public transportation and, where appropriate, in community areas.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. Twenty-seven percent of the Area is zoned for industrial uses in the M-2 Light Industrial zone within the Riverfront Master Plan area. This area is within the urban growth boundary in alignment with Policy B. The City of Newberg has established design standards for industrial development within the Plan Area that mitigates impacts and is in alignment with Policy D. The industrial area within the Riverfront Master Plan provides transitional buffering using different approaches in alignment with Policy E. No extension of industrial areas are proposed within the Plan Area and Policy H is not applicable. The industrial area within the Plan is located within the Newberg urban growth boundary. The City continues to coordinate with the Yamhill County Transit Area on providing alternative access through transit options in alignment with Policy I.

The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development.

The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection H. Industrial Development, Goal 1 of the Yamhill County Comprehensive Plan.

SECTION II. The Land and Water

A. Agricultural Lands

GOAL STATEMENT

2. To conserve Yamhill County's soil resources in a manner reflecting their suitability for forestry, agriculture and urban development and their sustained use for the purposes designated on the county plan map.

Finding: The Plan is within the urban growth boundary where urban density development is identified to occur. There are no agricultural designated lands within the Plan Area. Focusing development within the urban growth boundary and within the Plan Area aligns with Yamhill County's soils resources by not having urban scale development expanding onto agricultural and forest lands.

The Plan conforms to Section II The Land and Water Subsection A. Agricultural Lands, Goal 2 of the Yamhill County Comprehensive Plan.

C. Water Resources

GOAL STATEMENT

1. To conserve and to manage efficiently our water resources in order to sustain and enhance the quantity and quality of flows for all consumptive and non-consumptive uses and to abate flood, erosion and sedimentation problems.

Finding: The Plan Area will be served by a municipal water system operated by the City of Newberg. Newberg's water source is well fields located in Marion County across the Willamette River. The City's Water Treatment Plant is located just outside of the Plan Area in its southeast corner. The Plan Area encompasses lands that are within a flood area and the Willamette River Greenway. The City has overlay provisions for these areas to protect them from development and conserve the areas.

The Plan conforms to Section II The Land and Water Subsection C. Water Resources, Goal 1 of the Yamhill County Comprehensive Plan.

E. Open Space

GOAL STATEMENT

1. To insure the continuance of the open space character that has always existed in Yamhill County.

POLICIES

A. Yamhill County will cooperate with all governmental and recreation agencies within the region to identify open space and scenic resources, to determine resident and non-resident recreation needs, and to formulate and implement measures for open space preservation and use.

GOAL STATEMENT

2. To preserve and improve potential recreational and other open spaces in both urban and rural environments for all to enjoy.

POLICIES

A. Yamhill County will seek to establish a permanent county open space net; increased public access to areas of prime recreational significance; the development of additional water-based recreational opportunities; and continuity of scenic views, buffer areas, wildlife and natural habitat and associated natural environments.

Finding (Goals 1 and 2): The goals of the adopted *Newberg Riverfront Master Plan* support and will help implement the goals and policies of Yamhill County. The specific goals are:

- A. Provide a mix of land uses: public, residential, commercial/mixed use, and industrial.
- B. Plan for a multi-modal transportation network to provide access and connections to the rest of the city, especially Downtown Newberg.
- C. Preserve open space and incorporate natural features as part of the riverfront's strong sense of place.
- D. Honor the long history of waterfront industry at this location.
- E. Provide an open and transparent planning process.
- F. Engage a diverse group of stakeholders throughout the planning process.
- G. Create a plan that works for community members of all ages, abilities, and cultural backgrounds.

The projects identified in the Plan for the waterfront area were identified in the *Newberg Riverfront Master Plan* and include trails and the development of the esplanade facilitating recreational uses for all citizens of Newberg and Yamhill County.

The Plan conforms to Section II The Land and Water Subsection E. Open Space Goals 1 and 2 of the Yamhill County Comprehensive Plan.

G. Ecologically and Scientifically Significant Natural Areas

GOAL STATEMENT

To protect land and water areas that have substantially retained their natural character and land and water areas that, although altered in character, are important as habitat for plant, animal or marine life, for the study of natural historical, scientific, or paleontological features or for the appreciation of their natural features.

Finding: The Plan area includes frontage along the Willamette River. This area is identified to be retained as park and open spaces that maintains as much of the natural character as possible. The former Newberg Landfill and Rogers landing Park are within the Plan boundaries. Between these two areas the Riverfront Master Plan identifies keeping it as open space that can be viewed from the esplanade at the top of the bluff. This will preserve the habitat for plant, animal or marine life.

The Plan conforms to Section II The Land and Water Subsection G. Ecologically and Scientifically Significant Natural Areas of the Yamhill County Comprehensive Plan.

I. Historic Areas, Sites, Structures and Objects and Cultural Areas

GOAL STATEMENT

1. To protect sites, structures and objects that have local, regional, statewide, or national historical significance, and areas characterized by evidence of an ethnic, religious or social group with distinctive traits, beliefs, and social forms, for future generations.

J. Potential and Approved Federal Wild and Scenic Waterways and State Scenic Waterways

GOAL STATEMENT

1. To protect approved federal wild and scenic waterways and state scenic waterways, and to coordinate with state and federal agencies studying potential federal wild and scenic waterways and state scenic waterways.

Finding: The Willamette River Greenway is located within the Plan boundaries. This area is protected as a Goal 5 Resource by the Newberg Comprehensive Plan. The area has a Stream Corridor designation which limits development activities. The proposed esplanade in the Plan is located just outside this designated area but will provide for recreational

viewing opportunities to the Willamette River and French Prairie located south of the river in Marion County.

The Plan conforms to Section II The Land and Water Subsection H. Historic Areas, Sites, Structures and Objects and Cultural Areas of the Yamhill County Comprehensive Plan.

SECTION III. Transportation, Communications and Public Utilities

A. Transportation

GOAL STATEMENT

1. To provide and encourage an efficient, safe, convenient and economic transportation and communication system, including road, rail, waterways, public transit and air, to serve the needs of existing and projected urban and rural development within the county, as well as to accommodate the regional movement of people and goods and the transfer of energy, recognizing the economic, social and energy impacts of the various modes of transportation.

POLICIES

A. Yamhill County will encourage the establishment of a transportation system supportive of a geographically distributed and diversified industrial economy for the county including coordination with all city comprehensive plans.

B. All transportation-related decisions will be made in consideration of land use impacts including but not limited to adjacent land use patterns, both existing and planned, and their designated uses and densities.

D. Yamhill County will, in cooperation with the State Highway Division and the cities of the county, establish a comprehensive list of recommended road improvements throughout the county, establish a suitable review mechanism for arriving at and amending priorities on a continuing basis and work towards the creation of an on-going capital improvement program closely coordinated with all agencies of government responsible, including cities for road location, construction, finance and maintenance.

I. Yamhill County will encourage bicycle and pedestrian traffic as an element of the transportation system by coordinating with the cities within the county to develop an integrated system of safe and convenient bicycle and pedestrian ways to complement other modes of transportation.

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront Master Plan area and Downtown area. The projects will implement portions of the *City of Newberg Comprehensive Plan*, *City of Newberg Transportation System Plan*, and are therefore in conformance with the Newberg

Comprehensive Plan. Some of the projects are designated in the *Riverfront Master Plan* and the *Downtown Improvement Plan*. These projects will comply with the City's policies and development standards. These projects will help the County implement Policy A to coordinate with cities and Policy I to encourage bicycle and pedestrian ways to complement other modes of transportation. The Plan conforms with Section III. Transportation, Communications and Public Utilities Subsection A. Transportation, Goal 1 of the Yamhill County Comprehensive Plan.

SECTION IV. Public Land, Facilities, and Services

A. Public Facilities and Services

GOAL STATEMENT

1. To develop a timely, orderly and efficient arrangement of public services and facilities to serve as a framework for urban and rural development, including public lands and buildings, parks and recreation areas and facilities, schools, police and fire protection, domestic water supply, sanitary and storm sewerage and other drainage facilities, and power, gas and telephone services.

POLICIES

A. Yamhill County will coordinate with the cities within its jurisdiction to provide an orderly phasing of water, sanitary sewerage, storm drainage and other public services and facilities within the urban growth boundaries.

Q. The development of sanitary sewerage systems will be supported where such systems conform to all applicable federal and state standards pertinent to the collection, treatment, and final disposal of effluent; support will be given for the continued separation of sanitary and storm water collection systems and the development of correction programs to reduce ground and surface water infiltration; support will be given for the separation and disposal of industrial wastes which differ significantly from normal domestic sewage in strength or composition, or which contain significant quantities of grease, chemicals or suspended metals; and the planning management criteria enunciated for domestic water systems should be applied with equal consideration to sanitary sewerage systems.

Finding: There are numerous infrastructure projects in the Plan. These projects are intended to develop a timely, orderly and efficient arrangement of public facilities in the Area. They will supply infrastructure to unincorporated areas that are also in the UGB that will allow them to annex into the city and provide needed jobs and economic activity. The Plan conforms with Section IV. Public Land, Facilities and Services Subsection A. Public Facilities and Services, Goal 1 of the Yamhill County Comprehensive Plan.

B. Parks and Recreation

GOAL STATEMENT

1. To provide adequate recreational opportunities in both the rural and urban environments to meet existing and projected needs.

POLICIES

A. Yamhill County will cooperate with all governments and recreation agencies within the region to identify recreation, open space, and scenic resources; determine resident and nonresident needs and formulate and implement measures for providing recreation services.

D. Yamhill County will encourage the location of urban parks in scenic areas which are easily accessible to much of the urban population and which can be developed to provide recreation opportunities for a variety of age and interest groups.

G. Yamhill County will promote the development of an integrated bicycle and pedestrian trail system to provide recreational opportunities and to link open space, Yamhill County communities and park areas.

I. Yamhill County will encourage cooperation among government agencies to increase recreation opportunities, programs and facilities for county residents, and will explore the possibilities of providing recreation programs for the small towns and rural areas of the county.

Finding: The goals of the adopted *Newberg Riverfront Master Plan* support and will help implement the goals and policies of Yamhill County. The specific goals are:

- A. Provide a mix of land uses: public, residential, commercial/mixed use, and industrial.
- B. Plan for a multi-modal transportation network to provide access and connections to the rest of the city, especially Downtown Newberg.
- C. Preserve open space and incorporate natural features as part of the Riverfronts strong sense of place.
- D. Honor the long history of waterfront industry at this location.
- E. Provide an open and transparent planning process.
- F. Engage a diverse group of stakeholders throughout the planning process.

- G. Create a plan that works for community members of all ages, abilities, and cultural backgrounds.

The projects identified in the Plan for the Riverfront area were identified in the *Newberg Riverfront Master Plan* and include trails and the development of the esplanade facilitating recreational uses for all citizens of Newberg and Yamhill County. A large expanse of the Riverfront area within the Plan is identified to be park and open space stretching from Chehalem Creek on its western broader to Rogers Landing Park. From Rogers Landing Park east the steep slope is part of the Willamette River Greenway and will be left undisturbed except for the possibility of future trails. The Newberg-Dundee Bypass Trail is also a part of the Plan. This would connect the missing section between S River Street and E Weatherly Way enhancing the bicycle and pedestrian trail system. These projects help implement the County Policies A, D, G and I above. The Plan conforms with Section IV. Public Land, Facilities and Services Subsection A. Public Facilities and Services, Goal 1 of the Yamhill County Comprehensive Plan.

C. Willamette Greenway

GOAL STATEMENT

1. To protect, conserve, enhance and maintain the natural, scenic, historical, agricultural, economic and recreational qualities of lands along the Willamette River.

Finding: There are specific projects within the Plan that will provide for the development of an esplanade and new trails providing additional recreational opportunities in the Riverfront area. These projects will help implement the Willamette Greenway Goal Statement. The Plan conforms with Section IV. Public Land, Facilities and Services Goal 1. Willamette River Greenway of the Yamhill County Comprehensive Plan.

SECTION V. Environmental Quality

A. Air, Water and Land Resources Quality

GOAL STATEMENT

1. To conserve and to protect natural resources, including air, water, soil and vegetation and wildlife, from pollution or deterioration which would dangerously alter the ecological balance, be detrimental to human health, or compromise the beauty and tranquility of the natural environment.

GOAL STATEMENT

2. To preserve and enhance the charm and amenity values of the county, while accommodating change, through ensuring harmony between urban development and the natural environment, at the same time cultivating more attractive urban environments in which to live, work and play.

Finding (Goals 1 and 2): Development of the Riverfront area and Downtown area is a key goal of the Plan. This development will provide new industry to Newberg. This new industry will comply with the provisions of the Newberg Comprehensive Plan including Chapter 4 Open Space, Scenic Natural, Historic and Recreational resources. All new development will comply with the requirements of the City of Newberg to protect these resources.

There are specific projects within the Plan that will provide for the development of an esplanade and new trails in the Riverfront area. Providing new development within the urban growth boundary and providing more attractive environments in which to live, work and play in this Area will help the County implement the Air, Water, and Land Resource goal for the county as a whole. The Plan conforms with Section V. Environmental Quality Subsection A. Air, Water and Land Resources Quality, Goal 1 and 2 of the Yamhill County Comprehensive Plan.

SECTION VII. Implementation, Evaluation, and Review

A. Citizen Involvement

POLICY

A. Yamhill County will continue to implement an ongoing citizen involvement program that provides county residents opportunity to be involved in all phases of the planning process.

Finding: The preparation of the Plan was guided by a Citizens Advisory Committee (CAC). The Committee held fourteen meetings to guide preparation of the feasibility study, discuss the boundary, help prioritize the project list, review financial components of the Plan and review the draft Plan and Report. The CAC was comprised of taxing district representatives from Tualatin Valley Fire & Rescue, Newberg School District, Chehalem Park and Recreation District, and the Chehalem Valley Chamber of Commerce, Newberg Downtown Coalition, and five citizen representatives.

Once the feasibility study was completed, it was posted to the Newberg website as well as six videos explaining urban renewal technicalities. A Frequently Asked Questions fact sheet was also posted to the website as well as all documents from the Citizens Advisory Committee.

The City provided two updates to the City Council in televised meetings (Youtube) and three updates to the Planning Commission. Flyers in English and Spanish were distributed at the Wednesday Farmers' Market and throughout Newberg. Other briefings were provided to the Rotary (2), Kiwanis, and City Club (2).

The Plan itself is based on the numerous planning documents prepared in the City of Newberg all of which were thoroughly reviewed by the citizens of Newberg. These documents include *City of Newberg Riverfront Master Plan*, *City of Newberg Downtown Improvement Plan*, *A NewBERG Community Vision*, *the Newberg Comprehensive Plan*,

Storm water Master Plan, Water Master Plan, Wastewater Master Plan, Transportation Systems Plan, and the Newberg Economic Development Strategy.

The City briefed the County on the Plan on May 27, 2021, June 17, 2021, July 1, 2021 and July 29, 2021.. These were open public meetings which were also televised.

Finding: The Plan conforms with Section VII. Implementation, Evaluation, and Review Subsection A. Citizen Involvement, Policy A of the Yamhill County Comprehensive Plan.

The Plan conforms with the Yamhill County Comprehensive Plan.

I. Yamhill County Transportation System Plan, DKS, adopted by Ordinance 895 November 5, 2015

Goal 1: Provide for Efficient and Convenient Motor Vehicle Travel

Goal 2: Provide for the Safety of All Transportation Modes

Goal 3: Provide an Equitable, Balanced and Connected Multi-modal

Transportation System

Objective 1: Provide adequate facilities for all transportation modes.

Objective 2: Distribute the benefits and impacts of transportation decisions fairly and address the transportation needs and safety of all users, including the young, elderly, people with disabilities, and people of all races, ethnicities, and income levels.

Objective 3: Provide connections to all modes that meet applicable County and Americans with Disabilities Act (ADA) standards.

Goal 4: Increase the Quality and Availability of Pedestrian and Bicycle Facilities Objective 1: Improve bicycle and pedestrian facilities.

Goal 6: Manage the Transportation System to Support a Prosperous and Competitive Economy

Objective 1: Enhance access to major employment and industrial locations.

Goal 7: Provide Transportation Facilities and Services that are Fiscally Responsible and Economically Feasible

Objective 2: Identify and develop diverse and stable funding sources to implement recommended projects in a timely fashion and ensure sustained funding for road maintenance and transportation improvement projects.

Goal 8: Provide a Transportation System that Conserves Energy and Protects and Improves the Environment

Objective 1: Minimize impacts to preserve the natural, scenic, and cultural resources in the

County.

Objective 2: Minimize land use impacts.

Goal 9: Coordinate with Local and State Agencies and Transportation Plans

Objective 2: Coordinate with local agency transportation system plans for communities within Yamhill County.

Objective 4: Coordinate with local agencies and entities within Yamhill County including major employers, incorporated and unincorporated communities, and other stakeholders or groups, as appropriate, on transportation issues involving these entities.

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront Master Plan area and Downtown area. The projects will implement portions of the *City of Newberg Comprehensive Plan*, *City of Newberg Transportation System Plan*, and are therefore in conformance with the Newberg Comprehensive Plan. Some of the projects are designated in the *Riverfront Master Plan* and the *Downtown Improvement Plan*. These projects will comply with the City's policies and development standards.

These projects will provide multi-modal transportation networks including pedestrian and bicycle systems along with major street construction and reconstruction that will provide for future economic activity and increased jobs in the community. These projects and resulting economic activity will help Yamhill County implement the Yamhill County Transportation Systems Plan Goal 1: Provide for Efficient and Convenient Motor Vehicle Travel, Goal 2: Provide for the Safety of All Transportation Modes, Goal 3: Provide an Equitable, Balanced and Connected Multi-modal Transportation System, Goal 4: Increase the Quality and Availability of Pedestrian and Bicycle Facilities, Goal 6: Manage the Transportation System to Support a Prosperous and Competitive Economy, Goal 7: Provide Transportation Facilities and Services that are Fiscally Responsible and Economically Feasible, Goal 8: Provide a Transportation System that Conserves Energy and Protects and Improves the Environment, and Goal 9: Coordinate with Local and State Agencies and Transportation Plans.

The Plan conforms with the Yamhill County Transportation System Plan.

J. GROW YAMHILL COUNTY, YAMHILL COUNTY ECONOMIC DEVELOPMENT PLAN, 2013

SWOT

Weaknesses

- Lack of major employers and industrial activity
- Limited employment opportunities
- Insufficient water distribution systems to accommodate provide adequate fire flows for business expansion or development in some communities
- Infrastructure challenges in most communities making it difficult to support or

attract business growth.

- Insufficient commercial or industrial land
- Available land not meeting requirements for companies to locate/not suitable for development

Opportunities

- Potential manufacturing resurgence
- Upgrades to commercial areas and downtowns to develop for wine/tourism and retail—downtown improvement projects
- Proposed wastewater treatment and other infrastructure updates

Threats

- Lack of ready-to-build industrial and commercial sites to diversify employer base
- Lack of resources to address multitude of infrastructure issues
- Lack of resources for development

Key Findings

- Manufacturing is critical to the economy. The County has a great strength in the diversity of its manufacturing companies. There are external threats related to the sustainability of a strong manufacturing cluster, but there are also local supports that can be promoted to ensure that the companies located in the County are diverse and focused on high-demand or niche markets.
- Infrastructure issues play a major role in limiting economic development in Yamhill County. Infrastructure includes roads, bridges, railways, access to interstates, highways, and air service, inadequate water systems, available public services, etc. The Mid-Willamette Regional Economic Development Strategy identifies technical and community assistance projects for Yamhill County—most of which are infrastructure related. These issues can be prioritized and resources sought to address them in order to create more accessibility to business growth.

Research Conclusions

The economic development gaps described in the findings above must be closed. These gaps include:

- Infrastructure issues
- Lack of available industrial-zoned land
- Ongoing support of primary jobs and manufacturing
- Unemployment
- Limited skilled workers
- Lower wages than surrounding areas
- Alternatives to reliance on wine-centered tourism

Mission

Implementation of the Yamhill County Economic Development Plan will direct and prioritize the actions and resource allocations necessary to realize business growth, job retention and creation, and enhanced well-being for all individuals and communities.

Vision

The Yamhill County Economic Development Plan will contribute to the development of thriving, vibrant communities where people live, learn, work, shop and play; and will foster sustainability of a dynamic environment in which business and industry prosper.

Strategies

Strategy 1:

- Create Communities Ready to Receive Business

Strategy 2:

- Retain, Expand and Recruit Business

Strategy 3:

- Identify and Commit Resources that Will Invest in Yamhill County Economic Development

Strategy 4:

- Develop and Support Vibrant Communities

ACTION PLAN

Strategy 1: Create Communities Ready to Receive Business

Goals (The “What”)	Objectives (The “How”)
1.1 Understand the infrastructure issues and other economic development obstacles facing our communities	1.1.1 Catalogue infrastructure and other obstacles and issues creating economic development challenges. 1.1.2 Identify current infrastructure and other projects that will remove barriers to economic development. 1.1.3 Package the information in 1.1.1 and 1.1.2.
1.2 Inform our communities about solutions and resources to overcome infrastructure and other economic development obstacles.	1.2.1 Identify resources to address economic development obstacles. 1.2.2 Determine the best method(s) to communicate the knowledge gained in Goal 1.1 to key stakeholders. 1.2.3 Communicate the information to key stakeholders.

	1.2.4 Support communities in making improvements that will better attract business.
--	---

Strategy 3: Identify and Commit Resources that Will Invest in Yamhill County
Economic Development

Goals (The “What”)	Objectives (The “How”)
3.1 Identify and build a Toolbox of available business and community resources.	<p>3.1.1 Coordinate with resource partners (local, regional, state partners; workforce development, economic development, community action groups)</p> <p>3.1.2 Identify potential financial assistance (grants, foundations, loans, community growth programs, government assistance, partner agencies, private funding)</p> <p>3.1.3 Identify potential resources for human development (low-cost/no-cost training, development opportunities, education and skills development, high performance)</p> <p>3.1.4 Develop process for investing Video Lottery Fund.</p>

Finding: The Yamhill County Economic Development Plan includes a Strengths/Weaknesses /Opportunities/Threats (SWOT) analysis. The Plan identifies a series of issues noted below:

Weaknesses

- Lack of major employers and industrial activity
- Insufficient water distribution systems to accommodate provide adequate fire flows for business expansion or development in some communities
- Infrastructure challenges in most communities making it difficult to support or attract business growth
- Available land not meeting requirements for companies to locate/not suitable for development

Opportunities

- Upgrades to commercial areas and downtowns to develop for wine/tourism and retail—downtown improvement projects

Threats

- Lack of ready-to-build industrial and commercial sites to diversify employer base
- Lack of resources to address multitude of infrastructure issues
- Lack of resources for development

The Newberg Urban Renewal Plan (Plan) directly addresses the SWOT analysis. The focus of the Plan is it address infrastructure deficiency for both industrial and commercial lands for water distribution, wastewater, stormwater and transportation. Addressing these issues will position Newberg to attract major employers in the Riverfront Master Plan area and these types of industrial companies focus on lands that meets their site selection requirements to be as shovel ready as possible for their financial investments. In the Downtown area the transportation and water improvements will upgrade the area for infill development that has been identified in the Downtown Improvement Plan. The Riverfront and Downtown areas do not have ready to build sites because of the lack of sufficient infrastructure. Overall there is a lack of resources to address these infrastructure issues and the urban renewal program is a State Statute authorized program to directly address the infrastructure issues identified in the Newberg Urban Renewal Plan.

The Yamhill County Economic Development Plan identifies as key findings that manufacturing is critical. Additionally, that infrastructure plays a major role in limiting economic development. The Newberg Urban Renewal Plan directly addresses these findings identifying that manufacturing in the Riverfront area, on the former mill site, with redevelopment opportunities for new industrial uses, but the area has insufficient infrastructure to support this redevelopment.

Under the Research Conclusions section of the Yamhill County Economic Development Plan gaps were identified for:

- Infrastructure issues
- Lack of available industrial-zoned land
- Ongoing support of primary jobs and manufacturing
- Unemployment
- Limited skilled workers
- Lower wages than surrounding areas
- Alternatives to reliance on wine-centered tourism

The Newberg Urban Renewal Plan directly responds to several of these gaps for infrastructure, lack of available industrially zoned land (redevelopment of existing industrial land) rather than expanding the Urban Growth Boundary, and lower wages by attracting new industrial development through redeveloping prior developed land that was outside of the City of Newberg but within the Urban Growth Boundary.

The Yamhill County Economic Development Plan includes a statement for the Mission and Vision. The Newberg Urban Renewal Plan directly responds to the Mission component of allocation of resources for positioning for business growth, and job creation which enhance the well-being for residents of Newberg and Yamhill County. For the Vision the Newberg Urban Renewal Plan advances it by contributing to the development of a thriving, vibrant community where people live, learn, work, shop and play; and will foster sustainability of a dynamic environment in which business and industry prosper. This is achieved by investing in the identified infrastructure in the Newberg Urban Renewal Plan.

The Yamhill County Economic Development Plan identifies Strategies. The Newberg Urban Renewal Plan responds to the Strategies. For Strategy 1: Create Communities Ready to Receive Business, Goal 1.1, through a full analysis of the infrastructure issues and other economic development obstacles facing Newberg in the Plan Area. The Plan additionally responds to Goal 1.2 Inform our communities about solutions and resources to overcome infrastructure and other economic development obstacles by identifying ORS 457 as a tool to respond to the infrastructure and blight issues identified in the Plan Area.

Strategy 3: Identify and Commit Resources that Will Invest in Yamhill County Economic Development, Goal 3.1, is achieved by furthering Objective 3.1.2 Identify potential financial assistance (grants, foundations, loans, community growth programs, government assistance, partner agencies, private funding). This is achieved by the Yamhill County partnering with Newberg in approving the urban renewal plan and providing government assistance to fund the infrastructure deficiencies identified to attract and retain existing businesses for economic prosperity for Newberg and all of Yamhill County.

The Plan conforms with the Yamhill County Economic Development Plan.

Conclusion: Based on the above-mentioned findings, the request meets goals and policies within the Yamhill County Comprehensive Plan.

XIV. LEGAL DESCRIPTION

1

DESCRIPTION OF THE URBAN RENEWAL AREA OF THE CITY OF NEWBERG

Beginning at the Southwest corner of Lot 10 Block 1 of Deskin's Fourth Addition To Newberg, Oregon, a duly recorded subdivision in Yamhill County, Oregon, said point being the intersection of the east line of the 60-foot right-of-way of N. Meridian Street and north line of the 60-foot right-of-way of E. Sheridan Street;

U1001. THENCE East along said north right-of-way of E. Sheridan Street, 520 feet more or less to the east line of the 60-foot right-of-way of N. River Street.

U1002. THENCE South along said east right-of-way, 300 feet more or less to the north line of the 60-foot right-of-way of E. Hancock Street, said point also being the southwest corner of Woodward Place a\duy recorded subdivision in Yamhill County, Oregon;

U1003. THENCE South 60 feet more or less to the intersection of the south right-of-way line of E. Hancock Street and east right-of-way line of S. River Street; THENCE continuing South, along said east right-of-way, 95 feet more or less to an angle point; THENCE Southeasterly continuing along said east right-of-way, 16-feet more or less to an angle point; THENCE South continuing along said east right-of-way, 50 feet more or less to the north line of Highway 99W/E 1st Street right-of-way; THENCE South across the Highway 99W/E 1st Street right-of-way 177 feet more or less to a point on the south right-of-way of Highway 99W, said point being 10 feet east of the east line of the 60-foot right-of-way of S. River Street;

U1004. THENCE South, leaving said south right-of-way, 10-foot easterly and parallel to said east 60-foot right-of-way of S. River Street, 856 feet more or less to a point on the south line of the 60-foot right-of-way of East 4th Street, said point also being on east line of the 80-foot right-of-way line of S. River Street;

U1005. THENCE South along the said east right-of-way of S. River Street, 1,761 feet more or less to the north line of the 60-foot right-of-way of East 9th Street;

U1006. THENCE East along said north right-of-way 1,180 feet more or less to the southeast corner of Lot 14, Block 50, of Edwards Addition, a duly recorded subdivision in Yamhill County, Oregon, said point also being intersection of said north right-of-way line and extension of the east line of the plat of City Park Addition, a duly recorded subdivision in Yamhill County, Oregon;

U1007. THENCE South along said east line of the plat of City Park Addition and its extension thereof, 27 feet more or less to the Northwest corner of that tract of land described in Book 99 Page 1198, Yamhill County Deed Records;

U1008. THENCE East along the north line of said tract 440 feet more or less to the west line Wynyoski Street, said point being 20-feet westerly of the centerline of said Wynyoski Street;

U1009. THENCE Northeasterly, perpendicular to Wynyoski Street, 50 feet more or less to the east right-of-way of said Wynyoski Street, said point being 30 feet easterly of the centerline of said Wynyoski Street;

U1010. THENCE Southeasterly along said east right-of-way 240 feet more or less to a point on the north line of that tract of land described in Instrument No. 2003-23925, Yamhill County Deed Records, said point being 30 feet easterly from the centerline of said Wynyoski Street.

- U1011. THENCE continuing Southeasterly parallel to and 30-feet easterly of the centerline of said Wynooski Street, 368 feet more or less to a point on the south line of the tract of land described in Instrument No. 1993-3510, Yamhill County Deed Records, said point also being on the north line of the Newberg/Dundee Bypass right-of-way;
- U1012. THENCE East along the south line of said tract, 54 feet more or less to the southeast corner of said tract;
- U1013. THENCE North along the east line of said tract, 26 feet more or less to the south line of the tract of land described in Instrument No. 2003-23925, Yamhill County Deed Records;
- U1014. THENCE East along the south line of said tract, 594 feet more or less to the southeast corner of said tract;
- U1015. THENCE North along the east line of said tract, 2 feet more or less to the south line of Tract A, Highlands at Hess Creek – Phase 4, a duly recorded subdivision in Yamhill County, Oregon;
- U1016. THENCE Southeasterly along the south line of said Tract A, 580 feet more or less to an angle point, said point being on the north right-of-way of the Newberg/Dundee Bypass;
- U1017. THENCE South, departing from said south line, 264 feet more or less to the intersection point of the south right-of-way of the Newberg/Dundee Bypass and the east right-of-way line of NE Wynooski Road;
- U1018. THENCE Southeasterly along said south right-of-way line, 351 feet more or less to the northerly extension of the west line of the tract of land described in Instrument No. 2007-21167, Yamhill County Deed Records;
- U1019. THENCE South along said west line and its northerly extension, 1,055 feet more or less to the northerly right-of-way of NE Wynooski Road;
- U1020. THENCE Southeasterly along said northerly right-of-way, 679 feet more or less, to the northerly extension of the east line of Lot 27 of Wynooski Subdivision, a duly recorded subdivision in Yamhill County, Oregon;
- U1021. THENCE Southerly along the extension of said east line 121 feet more or less to the south right-of-way of NE Wynooski Road, said point also being on the north line of said Lot 27;
- U1022. THENCE Westerly along said south right-of-way and continuing along the north line of said Lot 27, 290 feet more or less to an angle point on said north line;
- U1023. THENCE Westerly continuing along said north line 325 feet more or less to the south right-of-way of NE Dog Ridge Road;
- U1024. THENCE Southwesterly along said south right-of-way 502 feet more or less to the point of intersection of the easterly extension of the north right-of-way of County Road 47;
- U1025. THENCE Westerly along the easterly extension of and north right-of-way of said County Road 47, 1,375 feet more or less to the old Wynooski Street Bridge also falling along the Yamhill County side of the Willamette River;
- U1026. THENCE Westerly along the Yamhill County side of the Willamette River 3,760 feet more or less to its confluence with the center of Chehalem Creek;

- U1027. THENCE Northwesterly along the center of Chehalem creek 4,480 feet more or less to the point of intersection with the southerly extension of the east line of Lot 11 of Glen Hollow Estates, a duly recorded subdivision in Yamhill County, Oregon;
- U1028. THENCE North along said southerly extension and east line of said Lot 11, 396 feet more or less to the southwest corner of Lot 14 of Hidden Meadows, a duly recorded subdivision in Yamhill County, Oregon;
- U1029. THENCE East along the south line of Hidden Meadows, 452 feet more or less to an angle point;
THENCE Easterly along said south line 616 feet more or less to the southeast corner of Lot 15 of said Hidden Meadows;
- U1030. THENCE North along the east line of said Hidden Meadows subdivision, 534 feet more or less to the Southwest corner of that tract of land described in Book 125, Page 0481, Yamhill County Deed Records;
- U1031. THENCE East along the south line of said tract, 351 feet more or less to an angle point; THENCE Northeasterly along said south line, 73 feet more or less to the east line of said tract;
- U1032. THENCE North along said east line, 186 feet more or less to the intersection with the center of Chehalem Creek;
- U1033. THENCE Northerly, departing from said east line, along the center of Chehalem Creek, 2,020 feet more or less to a point being southwesterly 83 feet more or less from the southwest corner of Partition Plat 97-53, a duly recorded partition plat in Yamhill County, Oregon;
- U1034. THENCE Northeasterly, leaving the said center of Chehalem Creek, 83 feet more or less to the Southwest corner of said Partition Plat;
- U1035. THENCE North along the west line of said Partition Plat, 295 feet more or less to an angle point;
THENCE Northwesterly along said west line 123 feet more or less to an angle point; THENCE Northeasterly along said west line 18 feet more or less to the north line of said Partition Plat;
- U1036. THENCE East along said north line and the extension thereof, 369 feet more or less to the west line of the 60-foot right-of-way of Charles Street;
- U1037. THENCE North along said west right-of-way, 62 feet more or less to the north line of the 60-foot right-of-way of W. 9th Street;
- U1038. THENCE East along said north right-of-way, 1,205 feet more or less to the west line of the 60-foot right-of-way of S Blaine Street;
- U1039. THENCE North along said west right-of-way, 517 feet more or less to the northeast corner of the tract of land described in Instrument No. 2002-14801, Yamhill County Deed Records;
- U1040. THENCE West along the north line of said tract and the northerly extension thereof, 528 feet more or less to the northwest corner of the tract of land described in Instrument No. 2014-14033, said point also being on the east line of the tract of land described in Instrument No. 1997-15269, Yamhill County Deed Records;
- U1041. THENCE North along said east line and the northerly extension of, 539 feet more or less to the most westerly northwest corner of the tract of land described in Instrument No. 2019-16593, Yamhill County Deed Records;

- U1042. THENCE East along the north line of said tract, 164 feet more or less to the most southeasterly northwest corner of said tract;
- U1043. THENCE North along the west line of said tract 37 feet more or less to the most northerly northwest corner of said tract; THENCE East along the north line of said tract 1 foot more or less to the southwest corner of the tract of land described in Instrument No. 2002-18241, Yamhill County Deed Records; THENCE North along the west line of said tract 147 feet more or less to the most southerly northwest corner of said tract;
- U1044. THENCE East 75 feet more or less along the along the north line of said tract to the most northerly southwest corner of said tract;
- U1045. THENCE North along the west line of said tract 45 feet more or less to the most northerly northwest corner of said tract, said point falling on the south line of that tract of land described in Instrument No. 2018-16315, Yamhill County Deed Records;
- U1046. THENCE Easterly along the South line of said tract 36 feet more or less to the southeast corner of said tract, said point is also on the west line of that tract of land described in Instrument No. 2006-09500, Yamhill County Deed Records;
- U1047. THENCE South along said west line 45 feet more or less to the southwest corner of said Instrument No. 2006-09500;
- U1048. THENCE East along the south line of said tract 84 feet more or less to the southeast corner of said tract;
- U1049. THENCE North along the east line of said tract 150 feet more or less to the south line of the 60-foot right-of-way of E. 5th Street;
- U1050. THENCE West along said south right-of-way 26 feet more or less to the intersection point of the southerly extension of the west line of the tract described in Instrument No. 2003-23268, Yamhill County Deed Records;
- U1051. THENCE North along the southerly extension of said west line of and its northerly extension thereof, 391 feet more or less to the south line of the tract described in Instrument No. 2017-06795, Yamhill County Deed Records;
- U1052. THENCE East along said south line, 41 feet more or less to the southeast corner of said tract, said point also being the southwest corner of Partition Plat 91-51, a duly recorded partition plat, in Yamhill County, Oregon;
- U1053. THENCE North along the east line of said Instrument No. 2017-06795, 141 feet more or less to the southwest corner of that tract of land described in Instrument No. 2019-15590, Yamhill County Deed Records;
- U1054. THENCE East along the south line of said Instrument No. 2019-15590, 50 feet more or less to the southeast corner of said tract;
- U1055. THENCE North along the east line of said tract, 140 feet more or less to the south line of the 60-foot right-of-way of E. 3rd Street;

- U1056. THENCE West along said south right-of-way, 958 feet more or less to the west line of the 60-foot right-of-way of S. Grant Street;
- U1057. THENCE North along said west right-of-way, 300 feet more or less to the south line of the 60-foot right-of-way line of W. 2nd Street;
- U1058. THENCE West along said south right-of-way and the westerly extension of, 520 feet more or less to the west line of the 60-foot right-of-way of S. Harrison Street;
- U1059. THENCE North along said west right-of-way, 282 feet more or less to the northeast corner of that tract of land described in Instrument No. 2004-05850, Yamhill County Deed Records;
- U1060. THENCE Southwesterly along the north line of said Instrument No. 2004-05850 and continuing along the north line of the tract described in Instrument No. 2008-03366, Yamhill County Deed Records, 147 feet more or less to the easterly right-of-way of the Southern Pacific Railroad;
- U1061. THENCE Northeasterly along said easterly right-of-way, 724 feet more or less to an angle point; THENCE Easterly along said easterly right-of-way 20 feet more or less to an angle point; THENCE Northeasterly along said easterly right-of-way 628 feet more or less to the south line of the 60-foot right-of-way E. Sherman Street;
- U1062. THENCE East along said south right-of-way, 107 feet more or less to the east line of the 14 foot wide alley, said point being the northwest corner of Lot 5, Block 3 of Deskins Addition to Newberg, a duly recorded subdivision in Yamhill County, Oregon;
- U1063. THENCE South along said east line, 240 feet more or less to the north line of the 60-foot right-of-way line of E. Sheridan Street;
- U1064. THENCE East along said north right-of-way, 613 feet more or less to the west line of the 60-foot right-of-way line of N. Blaine Street;
- U1065. THENCE North along said west right-of-way, 300 feet more or less to the north line of the 60-foot right-of-way of E. Sherman Street;
- U1066. THENCE East along said north right-of-way, 580 feet more or less to the east line of the 60-foot right-of-way N. School Street;
- U1067. THENCE South along said east right-of-way, 300 feet more or less to the north line of the 60-foot right-of-way of E. Sheridan Street;
- U1068. THENCE East along said north right-of-way, 905 feet more or less to the east line of the 60-foot right-of-way line of N. Meridian Street and the point of beginning.

Excepting the following described area:

Beginning at a point on the south line of the 60-foot right-of-way of E. 3rd Street, said point being 10 feet west of the west line of the 60-foot right-of-way of S. River Street;

U2001. THENCE South, parallel to and 10-feet west of the said west right of way of S. River Street, 300 feet more or less to the south line of the 60-foot right-of-way line of E. 4th Street, said point being also the west line of the 80-foot right-of-way for S. River Street;;

U2002. THENCE South along said west right-of-way, 1,761 feet more or less to the north line of the 60-foot right-of-way line of E. 9th Street;

U2003. THENCE West along said north right-of-way line, 1,865 feet more or less to the east line of the 60-foot right-of-way line of S. Blaine Street;

U2004. THENCE North along said east right-of-way, 1,399 feet more or less to the south line of the 60-foot right-of-way line of E. 5th Street;

U2005. THENCE East along said south right-of-way line, 260 feet more or less to the east line of the 60-foot right-of-way line of S. Howard Street;

U2006. THENCE North along said east right-of-way, 360 feet more or less to the south line of the 60-foot right-of-way of E. 4th Street;

U2007. THENCE East along said south right-of-way, 200 feet more or less to the west line of the 60-foot right-of-way of S. School Street;

U2008. THENCE North 60-feet more or less to the north right of way line of S. School St, said point being the southwest corner of the tract described in Instrument No. 1993-13456, Yamhill County Deed Records;
THENCE North along the west line of said Instrument No. 1993-13456, 240 feet more or less to the south line of the 60-foot right of way of E. 3rd Street;

U2009. THENCE East along said south right-of-way 1,414 feet more or less to the point of beginning.

Containing approximately 600 acres, more or less.

Newberg Urban Renewal Plan adopted by the City of Newberg

Date

Ordinance No. 2021-

This Plan was also approved by Yamhill County by Resolution No. ____ on ____ as
there are unincorporated properties in the Area.

TABLE OF CONTENTS

I.	INTRODUCTION	1
II.	THE PROJECTS IN THE AREA AND THE RELATIONSHIP BETWEEN URBAN RENEWAL PROJECTS AND THE EXISTING CONDITIONS IN THE URBAN RENEWAL AREA	6
III.	THE ESTIMATED TOTAL COST OF EACH PROJECT AND THE SOURCES OF MONEYS TO PAY SUCH COSTS	21
IV.	FINANCIAL ANALYSIS OF THE PLAN	22
V.	THE ESTIMATED AMOUNT OF TAX INCREMENT REVENUES REQUIRED AND THE ANTICIPATED YEAR IN WHICH INDEBTEDNESS WILL BE RETIRED	25
VI.	THE ANTICIPATED COMPLETION DATE FOR EACH PROJECT	31
VII.	REVENUE SHARING	36
VIII.	IMPACT OF THE TAX INCREMENT FINANCING	36
IX.	COMPLIANCE WITH STATUTORY LIMITS ON ASSESSED VALUE AND SIZE OF URBAN RENEWAL AREA	40
X.	EXISTING PHYSICAL, SOCIAL, AND ECONOMIC CONDITIONS AND IMPACTS ON MUNICIPAL SERVICES	41
XI.	REASONS FOR SELECTION OF EACH URBAN RENEWAL AREA IN THE PLAN	60
XII.	RELOCATION REPORT	60

I. INTRODUCTION

The Report Accompanying the Newberg Urban Renewal Plan (Report) contains background information and project details that pertain to the Newberg Urban Renewal Plan (Plan). The Report is not a legal part of the Plan but is intended to provide public information and support the findings made by the Newberg City Council as part of the approval of the Plan.

The Report provides the analysis required to meet the standards of ORS 457.087, including financial feasibility. The Report accompanying the Plan contains the information required by ORS 457.085, including:

- A description of the physical, social, and economic conditions in the area and expected impact of the plan, including fiscal impact in light of increased services; (ORS 457.087(1))
- Reasons for selection of the plan Area; (ORS 457.087(2))
- The relationship between each project to be undertaken and the existing conditions; (ORS 457.087(3))
- The estimated total cost of each project and the source of funds to pay such costs; (ORS 457.087(4))
- The estimated completion date of each project; (ORS 457.087(5))
- The estimated amount of funds required in the Area and the anticipated year in which the debt will be retired; (ORS 457.087(6))
- A financial analysis of the plan; (ORS 457.087(7))
- A fiscal impact statement that estimates the impact of tax increment financing (TIF) upon all entities levying taxes upon property in the urban renewal area; (ORS 457.0857(8))
- A relocation report. (ORS 457.087(9))

The relationship of the sections of the Report and the ORS 457.087 requirements is shown in Table 1. The specific reference in the table below is the section of this Report that most addresses the statutory reference. There may be other sections of the Report that also address the statute.

Table 1 - Statutory References

Statutory Requirement	Report Section
ORS 457.087 (1)	X
ORS 457.087 (2)	XI
ORS 457.087 (3)	II
ORS 457.087 (4)	III
ORS 457.087 (5)	VI
ORS 457.087 (6)	IV,V
ORS 457.087 (7)	IV,V
ORS 457.087 (8)	VIII
ORS 457.087 (9)	XII

The Report provides guidance on how the Plan might be implemented. As the Newberg Urban Renewal Agency (Agency) reviews revenues and potential projects each year, it has the authority to make adjustments to the implementation assumptions in this Report. The Agency may allocate budgets differently, adjust the timing of the projects, decide to incur debt at different timeframes than projected in this Report, and make other adjustments to the financials as determined by the Agency. The Agency may also make changes as allowed in the Amendments section of the Plan. These adjustments must stay within the confines of the overall maximum indebtedness of the Plan.

II. THE PROJECTS IN THE AREA AND THE RELATIONSHIP BETWEEN URBAN RENEWAL PROJECTS AND THE EXISTING CONDITIONS IN THE URBAN RENEWAL AREA

The projects identified for the Area are described below, including how they relate to the existing conditions in the Area. Much of the project descriptions and existing conditions come from the *Newberg Transportation System Plan (TSP)*, *Newberg Riverfront Master Plan*, the *Newberg Downtown Improvement Plan* and utility master plans (Water, Wastewater, and Stormwater) for Newberg.

A. Sub-Area A Riverfront:

1. Public Transportation and Infrastructure

- a) E Fourteenth Street Extension – S River Street to NE Dog Ridge Road. Includes street, curb, sidewalk, storm, water. New street to meet City of Newberg standards.
- b) E Industrial Street from E Fourteenth Street extension to NE Wynooski Road. Includes street, curb, sidewalk, storm, water, wastewater. New street to meet City of Newberg standards.
- c) NE Wynooski Street from Bypass to NE Dog Ridge Road. Includes street, curb, sidewalk, storm. This is currently a County Road. Improvements to existing road to meet City of Newberg standards.

2. Riverfront Trails

- a) Esplanade south of Mill Urban Multi-Use Trail.

EXISTING CONDITIONS: These street projects are listed as aspirational projects in the TSP.(p 85). With the exception of NE Wynooski Street these streets do not currently exist. Public storm, water, and wastewater improvements are limited or non-existent in this area. The esplanade is listed as an aspirational project in the TSP. (p 87)

Figure 4 – Sub-Area A Projects

Source: City of Newberg

B. Sub-Area B Riverfront:

1. Public Transportation and Infrastructure

- a) S River Street Improvements – Bypass to Rogers Landing Road. Includes street, curb, sidewalk, storm, water, wastewater to meet City of Newberg standards. South of E Thirteenth this is currently a County road.
- b) Rail crossing improvements No. 40A-000.40 at S River Street to meet ODOT Rail requirements for future development.
- c) E Fourteenth Street - S College Street to S River Street. Includes street, curb, sidewalk, storm, water. This is currently a County road. Improvements to existing road to meet City of Newberg standards.

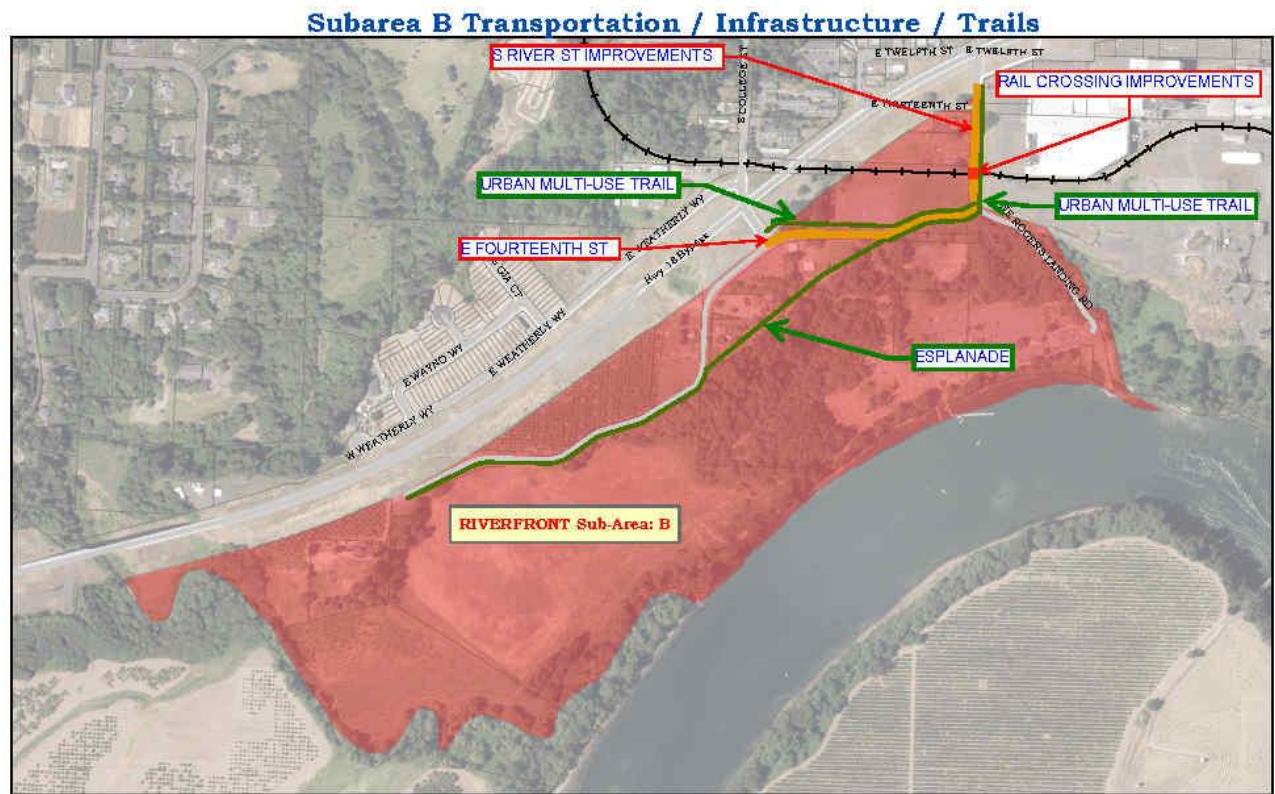

2. Riverfront Trails

- a) S River Street to S College Street – Urban Multi-Use Trail
- b) Esplanade west of S River Street - Urban Multi-Use Trail

EXISTING CONDITIONS:

S River Street is a two lane street with no curbs, sidewalks, bike lane, and planter strip. It does not meet city street standards for new streets and is aspirational in the TSP. The rail crossing improvements do not meet ODOT Rail requirements for future development in the area. E Fourteenth Street is a County road and does not meet city street standards and is aspirational in the TSP. The Riverfront Trails projects are listed as aspirational projects in the TSP. (p 87) Public storm, water and wastewater improvements are limited or non-existent in this area.

Figure 5 – Sub-Area B Transportation and Infrastructure

Source: City of Newberg

C. Sub-Area C Riverfront

1. Wastewater

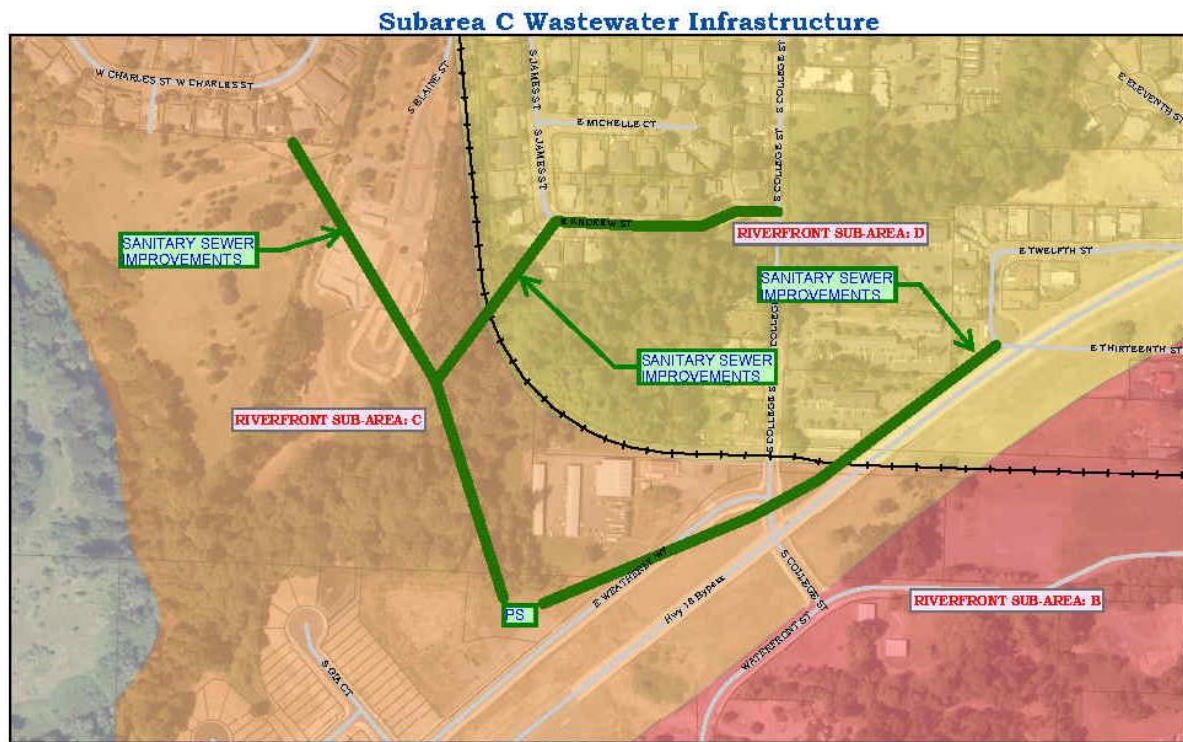

- a) Riverfront Lift Station. This project includes the following mainline projects from the Wastewater Master Plan to address the lack of wastewater infrastructure in this area.
 - i) Force Main B1
 - ii) Gravity Main B4

EXISTING CONDITIONS:

"Existing wastewater infrastructure within the Riverfront Area is mostly limited to the area north of the Bypass. The City of Newberg's wastewater treatment plant is located just east of the project study area.

The portion of the study area north of the Bypass is currently served by two lift stations (the Charles Lift Station and the Andrew Lift Station) and a network of gravity sewer mains and trunk lines, which ultimately convey wastewater to the City's wastewater treatment plant. A small lift station also serves Rogers Landing, conveying wastewater to the gravity sewer system to the north. The Riverfront Industrial Site is served by a single gravity sewer connection at the northwest corner of the site." (Riverfront Master Plan, p 50)

Figure 6 - Sub-Area C - Wastewater Projects

Source: City of Newberg

D. Sub-Area D Riverfront:

1. *Public Transportation and Infrastructure*

- a) S Blaine extension - E Ninth Street to S College Street. Includes street, curb, sidewalk, storm. New street to meet City of Newberg standards. Alignment to be generally adjacent to the existing railroad.
- b) S College Street – E Ninth Street to E Fourteenth Street. Includes street, curb, sidewalk, storm. This is currently a County road. Improvements to existing road to meet City of Newberg standards.
- c) Rail crossing improvements No. 40A-000.60 at S College Street to meet ODOT Rail requirements for future development.

EXISTING CONDITIONS:

S Blaine presently ends at E Ninth Street. It does not meet city standards for new streets. S College Street has a sidewalk partially on one side, curb partially on one side but no other street amenities. It does not meet city standards for new streets. Rail crossing improvements do not meet ODOT Rail requirements for future development in the area. This area is generally served with public storm, water and wastewater infrastructure.

Figure 7 – Sub-Area D Transportation and Infrastructure

Source: City of Newberg

E. Sub-Area E Riverfront:

1. Public Transportation and Infrastructure

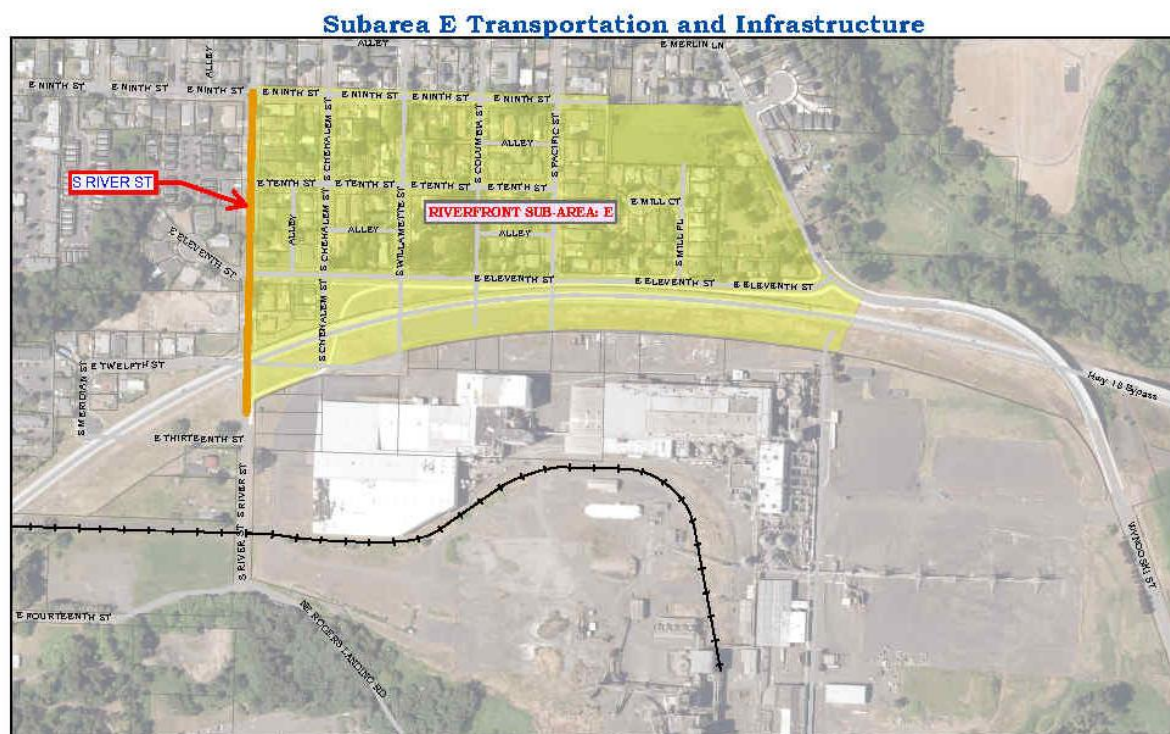

- a) S River Street improvements - E Ninth Street to Bypass. Includes street, curb, sidewalk, storm and water .

EXISTING CONDITIONS:

S River Street is a two lane street which has intermittent sidewalks, curbs and planting strips. It does not meet city standards for new streets. This area is generally served with public storm, water and wastewater infrastructure. It has been determined in the Water Master Plan that the public water main along this collector roadway is undersized to meet future development needs.

Figure 8 – Sub-Area E Transportation and Infrastructure

333

Source: City of Newberg

F. Sub-Area F Downtown

1. Public Transportation and Infrastructure

- a) S River Street improvements - E Third Street to E Ninth Street. Includes street, curb, sidewalk, storm, and wastewater.

EXISTING CONDITIONS:

S River Street is a two lane street which has intermittent sidewalks, curbs and planting strips. It does not meet city standards for new streets. This area is generally served with public, water and wastewater infrastructure. It has been determined in the Wastewater Master Plan that the public wastewater main along this collector roadway is undersized.

Figure 9 – Sub-Area F Transportation and Infrastructure

Source: City of Newberg

G. Sub-Area G: Downtown

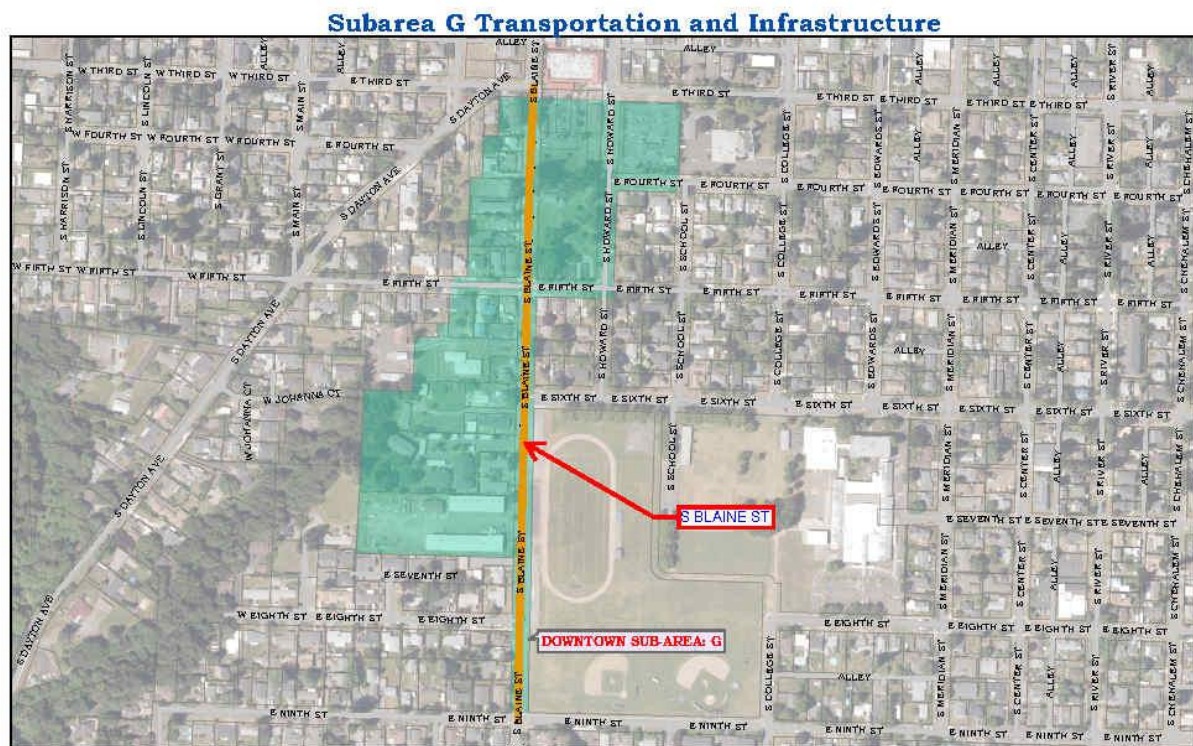

1. Public Transportation and Infrastructure

- b) S Blaine Street – E Third Street to E Ninth Street. The entire project includes street, curb, sidewalk, storm, and water. The Plan will be able to fund a portion of these costs. It is anticipated that plan could fund a portion of the storm improvement projects identified in the Stormwater Master Plan or a portion of the water replacement project identified in the Water Master Plan.

EXISTING CONDITIONS:

S Blaine Street has sidewalks on the west side of this section and limited areas of sidewalks on the east side. There is a railroad line running through the street with on street parking on both sides of the street. The street does not fully meet current City of Newberg Standards for a major collector. This area is generally served with public water and wastewater infrastructure. It has been determined in the Water Master Plan that the public water main along this collector roadway is undersized.

Figure 10– Sub-Area G Transportation and Infrastructure

Source: City of Newberg

H. Sub-Area H: Downtown

1. Public Transportation and Infrastructure

North/South Streets

- a) Meridian Street - E Third to E Sheridan- water line replacement.
- b) College Street - E Third to E Sheridan – water line replacement.
- c) Washington Street – water line replacement.
- d) Main Street - E Third to RR Tracks – water line replacement.
- e) Blaine Street E First to E Third – water line replacement.
- f) N College Street (Highway 219) at Hancock Street (Highway 99) Intersection Improvement - Add south bound right turn lane on N College Street.

EXISTING CONDITIONS:

North/South Streets

“The water distribution system serving the Newberg downtown area is well established. There are no specific projects within the study area identified in the City of Newberg Water Distribution System Plan to make improvements to the system, though the plan recommends replacing aging pipelines as part of the annual City budgeting process.” (Newberg Downtown Improvement Plan (NDIP), p 13) “It is assumed that water and sewer systems in the NDIP planning area will be upgraded and improved as needed to support growth in conjunction with new development or with transportation projects.” (NDIP Appendix F, p2)

Water replacements noted for the North/South Streets are from those identified in the Routine Main Replacement Program within the Water Master Plan. These replacements address small and old pipes, often under 6-inch in diameter and installed prior to 1936.

N College Street (Highway 219) in this area is currently developed with sidewalks and planter strips on both sides of the street. There is one travel lane in both directions. It does not meet current city standards for a minor arterial.

- g) First Street Road Diet. Includes street, curb, sidewalk, water line replacement, wastewater and stormwater.

EXISTING CONDITIONS:

There are three 12-foot travel lanes, a 6-foot bicycle lane and two 8-foot parking lanes and 10-foot to 11-foot sidewalks on each side of the street. (NDIP Appendix F, p3)

The Water, Wastewater and Stormwater Master plans include projects to address identified deficiencies in this area. Water lines in this area are primarily small and/or old as noted in the Routine Main Replacement Program within the Water Master Plan,

Inflow and infiltration (I&I) issues have been identified in segments of the wastewater lines (Project I&I #23) and there are storm line capacity issues in the downtown area identified in the Stormwater Master Plan (Project C-1A)

The TSP and the Downtown Improvement Plan (p11) recommend changing the traffic patterns in the downtown to include the road diet.

- h) Howard Street - E Third to E First - water line replacement.
- i) Sheridan Street - RR Tracks to ½ block east of N Main - water line replacement.
- j) S River Street improvements – E First Street to E Third Street. Includes street, curb, sidewalk, and wastewater and stormwater.

EXISTING CONDITIONS:

“The water distribution system serving the Newberg downtown area is well established. There are no specific projects within the study area identified in the City of Newberg Water Distribution System Plan to make improvements to the system, though the plan recommends replacing aging pipelines as part of the annual City budgeting process.” (Newberg Downtown Improvement Plan, p 13) Water replacements noted for the streets above are from those identified in the Routine Main Replacement Program within the Water Master Plan. These replacements address small and old pipes, often under 6-inch in diameter and installed prior to 1936.

“The downtown stormwater system is concentrated on Hancock Street, 1st Street, and Howard Street. The City of Newberg Drainage Master Plan identified a number of observed drainage problem areas, as reported by City staff. The plan identified one project within the study area. This project, located from Hancock near Howard Street, diagonally to Blaine Street, and only partially within the study area, recommends decommissioning a storm sewer line that runs on private property and upsizes surrounding lines to accommodate future anticipated flows.” (Newberg Downtown Improvement Plan, p13)

Inflow and infiltration (I&I) issues have been identified in segments of the wastewater lines in the downtown area. Wastewater Master Plan project I&I #18 addresses the issues in this area of S River Street.

- k) N Blaine Street/E Hancock Signal
- l) N Blaine Street/E First Street Signal

EXISTING CONDITIONS:

No signals exist at these locations, however, they are recommended in the Riverfront Master Plan Appendix H Transportation Planning Rule (TPR) Assessment and in the Transportation System Plan (TSP) – Addendum Riverfront Master Plan.

- m) Parking - Surface parking lots 1 and 2.

EXISTING CONDITIONS:

As part of the *Newberg Downtown Improvement Plan* (p15- p19), parking was surveyed and various parking lots were recommended. These parking lots do not presently exist and a specific location has not been identified.

2. Undergrounding Utilities

- a) Second Street utility undergrounding

EXISTING CONDITIONS:

Utilities in this location are presently above ground. To allow multi-story development, the above ground lines must be removed. Otherwise, there is no fire apparatus service to the upper stories of the structures.

Figure 11 – Sub-Area G Transportation, Infrastructure, Utilities and Parking

Source: City of Newberg

I. Acquisition/Disposition

Acquisition/Disposition are allowed in the Plan. Prior to any property being acquired, it must be identified in the Plan in Section VIII.

EXISTING CONDITIONS:

An urban renewal plan does not exist, so there is no existing urban renewal authority to acquire or dispose of property.

J. Administration

Authorizes expenditures for the administrative costs associated with managing the URA including budgeting and annual reporting, planning and the implementation of projects in the Area.

EXISTING CONDITIONS:

Once an urban renewal plan with its associated requirements for administration exists there will also be a need for administrative funds to be allocated for that administration.

II. THE ESTIMATED TOTAL COST OF EACH PROJECT AND THE SOURCES OF MONEYS TO PAY SUCH COSTS

Table 2 shows the costs of the projects in FYE 2020 constant dollars and the estimated year of expenditure dollars. These costs are also shown in “year of expenditure” costs, which assumes inflation of 3.0% annually. Cost estimates come from the City of Newberg staff as informed by various master plans, the *Newberg Downtown Improvement Plan*, the *Newberg Riverfront Master Plan*, *Newberg Transportation System Plan*, *Newberg Water Master Plan*, *Newberg Wastewater Master Plan*, and *Newberg Stormwater Master Plan*.

The Plan assumes that the Agency/City will use other funds to assist in the completion of the projects within the Area. The Agency/City may pursue regional, county, state, and federal funding, private developer contributions, and any other sources of funding that may assist in the implementation of the programs.

The Agency will be able to review and update fund expenditures and allocations on an annual basis when the annual budget is prepared.

Table 2 - Estimated Cost of Each Project in Constant FYE 2020 as Compared to Year of Expenditure Costs

Project Title	Constant FYE 2020	Year of Expenditure Project Cost
Sub-Area A Riverfront	\$ (10,993,346)	\$ (15,424,205)

III. FINANCIAL ANALYSIS OF THE PLAN

The estimated tax increment revenues through FYE 2052 are calculated based on projections of the assessed value within the Area and the consolidated tax rate that will apply in the Area.

The long-term projections for FYE 2022 and beyond assume an annual growth rate of 6.50% for assessed value in the area (equal to 3% maximum annual appreciation for existing property plus 3.5% exception value from new development). These projections of growth are the basis for the projections in Table 6, through Table 13.

These projections of growth were informed by conversations with City staff based on the large amount of development potential within the Area. If actual assessed value growth is less than forecast, then it would reduce the financial capacity of the URA to fund projects listed in the Plan over the anticipated duration of the Plan.

Table 3 shows the incremental assessed value, tax rates, and tax increment revenues each year, adjusted for discounts, delinquencies, and truncation loss. The tax rate used in this table reflects a blended rate of the incorporated and unincorporated properties as they have different tax rates. As properties incorporate, their tax rates will change and the future projections will vary from these original projections.

The first year of tax increment collections is anticipated to be fiscal year ending (FYE) 2023. Gross tax increment financing (TIF)¹ is calculated by multiplying the tax rate times the assessed value used. The tax rate is per thousand dollars of assessed value, so the calculation is “tax rate times assessed value used divided by one thousand.” The consolidated tax rate includes permanent tax rates only, and excludes general obligation bonds and local option levies as they will not be impacted by this Plan.

Figure 12 shows expected TIF revenues over time and the projected tax revenues after termination of the Area.

¹ TIF is also used to signify tax increment revenues

Table 3 - Projected Incremental Assessed Value, Tax Rates, and Tax Increment Revenues

					Current Year			Prior Year

Source: Tiberius Solutions Note: Future annexations will result in higher tax rates than shown in this table as the present table is compiled of both tax rates in the City of Newberg and in unincorporated Yamhill County. The result would be additional tax increment revenues for the Agency and potentially an earlier time frame of reaching the maximum indebtedness.

Figure 12 - TIF Projections

Source: Tiberius Solutions

IV. THE ESTIMATED AMOUNT OF TAX INCREMENT REVENUES REQUIRED AND THE ANTICIPATED YEAR IN WHICH INDEBTEDNESS WILL BE RETIRED

Table 4 shows a summary of the financial capacity of the URA, including how total TIF revenue translates to the ability to fund urban renewal projects in constant 2020 dollars in five-year increments. Table 6, Table 7, Table 8 and Table 9 show more detailed tables on the allocation of tax revenues to debt service. Table 10, Table 11, Table 12, and Table 13 show potential allocations to projects, programs, and administration over time.

The Area is anticipated to complete all projects and have sufficient tax increment finance revenue to terminate the urban renewal area in FYE 2052, a 30-year urban renewal plan. The Newberg Urban Renewal Plan has a specific duration provision of 30 years. If growth in assessed value is slower than projected, the Agency may not be able to complete all projects in the Plan. If growth in assessed value is more robust than the projections, it may take a shorter time period. These assumptions show one scenario for financing and that this scenario is financially feasible.

The maximum indebtedness is \$106,400,000 (One Hundred Six Million Four Hundred Thousand dollars). The estimated total amount of tax increment revenues required to service the maximum indebtedness of \$106,400,000 is \$123,197,148 and is from permanent rate tax levies. The increase over the maximum indebtedness is due to the projected cost of the interest on borrowings.

The financial analysis projects capacity of funding for projects in five-year increments is shown below in Table 4.

Table 4 - TIF Capacity of the Area in FYE 2020 Constant Rounded Numbers

Total Net TIF	\$ 123,197,148
Maximum Indebtedness	\$ 106,400,000
Capacity (2020\$)	\$ 56,084,001
Years 1-5	\$ 3,494,758
Years 6-10	\$ 6,733,599
Years 11-15	\$ 10,089,234
Years 16-20	\$ 10,950,166
Years 21-25	\$ 10,777,140
Years 26-30	\$ 14,039,104

Source: Tiberius Solutions

This financial analysis shows projected borrowings as identified in Table 5. This is only one scenario for how the Agency may decide to implement this Plan, and this scenario is financially feasible. The Agency may decide to do borrowings at different times or for different amounts, depending on their analysis at the time. The timeframes on these borrowings are designed to

have all borrowings repaid at the termination of the District in FYE 2052. The amounts shown are the principal amounts of the borrowings. The total amounts, including interest, are shown in the second column of Table 6.

V. THE ANTICIPATED COMPLETION DATE FOR EACH PROJECT

The schedule for construction of projects will be based on the availability of funding. The projects will be ongoing and will be completed as directed by the Agency. Annual expenditures for program administration are also shown. These are predicated on the fact that urban renewal activities will start off slowly in the beginning years and increase in the later years of the Area.

The Area is anticipated to complete all projects and have sufficient tax increment finance revenue to terminate the Area in FYE 2052, a 30-year program.

The amount of money available for projects in 2020 constant dollars for the Area is \$56,084,001. See Table 2 for the individual project analysis. This \$56,084,001 is calculated by taking the maximum indebtedness and bringing it back to constant 2020 dollars. This is done as the Agency's cost estimates are typically in constant dollars, so understanding how that relates to the overall MI over 30 years is important to enable the Agency to make projections on the allocation of funds throughout the life of the Area.

Table 10, Table 11, Table 12 and Table 13 show the \$56,084,001 of 2020 constant dollars for projects inflated over the life of the Area including administrative expenses. All costs shown in Table 10, Table 11, Table 12 and Table 13 are in year-of-expenditure dollars, which are adjusted by 3.0% annually to account for inflation. The year of expenditure total cost is \$106,388,048.

The 3% inflation rate is the rate to use in the future if any amendment to increase maximum indebtedness is pursued in accordance with ORS 457.470.

The Agency may change the completion dates in their annual budgeting process or as project decisions are made in administering the Plan. The following tables are prepared to show that the Area is financially feasible as required by ORS 457. It assumes completion of projects as funding becomes available. If the City is able to jumpstart the Area by providing alternative funding sources which are repaid when tax increment revenues are available, or if other outside funding sources are secured, including but not limited to, developer contributions, the timing on projects can be moved up.

VI. REVENUE SHARING

Revenue sharing targets are not projected to be reached as the threshold set in ORS 457 (annual tax increment revenues in excess of 10 percent of the maximum indebtedness) is not met during the expected life of the Plan.

Revenue sharing means that, at thresholds defined in ORS 457.470, the impacted taxing jurisdictions will receive a share of the incremental growth in the Area. The first threshold is when annual tax increment finance revenues exceed 10% of the original maximum indebtedness of the Plan (\$10,640,000). At the 10% threshold, the Agency will receive the full 10% of the initial maximum indebtedness plus 25% of the increment above the 10% threshold, and the taxing jurisdictions will receive 75% of the increment above the 10% threshold.

The second threshold is set at 12.5% of the maximum indebtedness (\$13,300,000). If this threshold is met, revenue for the district would be capped at 12.5% of the maximum indebtedness, with all additional tax revenue being shared with affected taxing districts.

If assessed value in the Area grows more quickly than projected, the revenue sharing triggers could be reached earlier.

VII. IMPACT OF THE TAX INCREMENT FINANCING

This section describes the impact of tax increment financing of the maximum indebtedness, both until and after the indebtedness is repaid, upon all entities levying taxes upon property in the Area.

The impact of tax increment financing on overlapping taxing districts consists primarily of the property tax revenues foregone on permanent rate levies as applied to the growth in assessed value in the Area. These projections are for impacts estimated through FYE 2052 and are shown in Table 14 and Table 15.

The Newberg School District 29J and the Willamette Regional Education Service District are not *directly* affected by the tax increment financing, but the amounts of their taxes divided for the urban renewal plan are shown in the following tables. Under current school funding law, property tax revenues are combined with State School Fund revenues to achieve per-student funding targets. Under this system, property taxes foregone, due to the use of tax increment financing, are substantially replaced with State School Fund revenues, as determined by a funding formula at the state level.

Table 14 and Table 15 show the projected impacts to permanent rate levies of taxing districts as a result of this Plan. Table 14 shows the general government levies, and Table 15 shows the education levies.

Table 16 shows the projected increased revenue to the taxing jurisdictions after tax increment proceeds are projected to be terminated. These projections are for FYE 2053.

The Frozen Base is the assessed value of the Area established by the county assessor at the time the Area is established. Excess Value is the increased assessed value in the Area above the Frozen Base.

VIII. COMPLIANCE WITH STATUTORY LIMITS ON ASSESSED VALUE AND SIZE OF URBAN RENEWAL AREA

State law limits the percentage of both a municipality's total assessed value and the total land area that can be contained in an urban renewal area at the time of its establishment to 25% for municipalities under 50,000 in population. As noted below, the frozen base (assumed to be FYE 2021 values), including all real, personal, personal, manufactured, and utility properties in the Area, is projected to be \$146,961,849. The Yamhill County Assessor will certify the frozen base once the urban renewal plan is adopted.

The percentage of total City assessed value in urban renewal areas is 6.87%, below the 25% threshold.

The Area contains approximately 600 acres, including public rights-of-way. The City of Newberg contains 3,719 acres. This puts 16.13% of the City's acreage in an urban renewal area, which is below the 25% threshold.

Table 17 - Urban Renewal Area Conformance with Assessed Value and Acreage Limits

	Acreage	Assessed Value
Newberg Urban Renewal Area	599.73	\$146,961,849
City of Newberg	3,719	\$2,137,960,474
% of City	16.13%	6.87%

IX. EXISTING PHYSICAL, SOCIAL, AND ECONOMIC CONDITIONS AND IMPACTS ON MUNICIPAL SERVICES

This section of the Report describes existing conditions within the Newberg Urban Renewal Area and documents the occurrence of “blighted areas,” as defined by ORS 457.010(1).

A. *Physical Conditions*

1. *Land Use*

The Area measures approximately 600 total acres in size, which is composed of 760 individual parcels encompassing 452 acres, and an additional 148 acres in public rights-of-way. An analysis of FYE 2021 property classification data from the Yamhill County Department of Assessment and Taxation database was used to determine the land use designation of parcels in the Area. By acreage, Industrial uses account for the most prevalent land use within the Area (34.11%). This was followed by Exempt uses (23.85%). Detailed land use designations in the Area can be seen in Table 18.

Table 18 - Land Use in the Area

Land Use	Parcels	Acreage	Percent of Acreage
Industrial	22	154.19	34.11%
Exempt	59	107.81	23.85%
Residential	444	75.96	16.81%
Farm	5	35.48	7.85%
Commercial	191	30.51	6.75%
Tract	15	28.31	6.26%
Multi-Family	19	14.29	3.16%
Forest	1	3.93	0.87%
Miscellaneous	4	1.52	0.34%
TOTAL:	760	452.00	100%

Source: Compiled by Elaine Howard Consulting, LLC with data from the Tiberius Solutions using the Yamhill County Department of Assessment and Taxation database (FYE 2021)

2. Comprehensive Plan Designations

Comprehensive plan designations in the Area can be seen in Table 19 – Comprehensive Plan Designations in the Area. The designations for unincorporated properties are what the properties will be when annexed in the city. The most prevalent comprehensive plan designation by acreage in the Area is Industrial/Riverfront District overlay (27.01%). The second most prevalent comprehensive plan designation in the Area is Public/Riverfront District overlay (26.12%). RD in the following tables is the Riverfront District overlay.

Table 19 – Comprehensive Plan Designations in the Area

Comprehensive Plan	Parcels	Acreage	Percent of Acreage
Industrial/RD	6	122.08	27.01%
Parks/RD	11	118.06	26.12%
Medium Density Residential/RD	309	107.75	23.84%
Commercial	247	39.25	8.68%
High Density Residential/RD	58	21.53	4.76%
High Density Residential	58	14.96	3.31%
Mixed Use/RD	11	8.68	1.92%
Medium Density Residential	28	7.25	1.60%
Public/Quasi Public	11	6.14	1.36%
Industrial	10	1.89	0.42%
Commercial/RD	2	1.82	0.40%
Parks	1	1.56	0.35%
Low Density Residential	8	1.04	0.23%
TOTAL:	760	452.0	100%

Source: Compiled by Elaine Howard Consulting, LLC with data from the Tiberius Solutions using the Yamhill County Department of Assessment and Taxation database (FYE 2021)

Figure 13 - Newberg Urban Renewal Area Comprehensive Plan Designations

3. Zoning Designations

Detailed zoning designations in the Area are shown in Table 20.

The most prevalent zone designation is Light Industrial/Riverfront District Overlay (27.58%). The second most prevalent zone designation is Medium Density Residential/Riverfront District Overlay (27.36%) For properties that are not yet annexed, the zoning designation will be shown as the designation that will be applied when annexed.

Table 20 - Zoning Designations in the Area

Zoning	Parcels	Acreage	Percent of Acreage
Light Industrial Riverfront District	4	124.65	27.58%
Riverfront District	312	123.67	27.36%
Community Facility Riverfront District	11	89.78	19.86%
Central Business District	242	38.44	8.50%
Community Facility	1	16.18	3.58%
High Density Residential Riverfront District	59	21.77	4.82%
High Density Residential	58	14.96	3.31%
Medium Density Residential	35	10.21	2.26%
Institutional	3	4.39	0.97%
Mixed Employment Riverfront District	10	3.87	0.86%
Light Industrial District	10	1.89	0.42%
Low Density Residential	8	1.04	0.23%
Neighborhood Commercial - Riverfront District	4	0.58	0.13%
Central Business District - Limited Use	1	0.23	0.05%
Residential Professional	1	0.23	0.05%
Community Commercial	1	0.13	0.03%
TOTAL:	760	452.0	100%

Figure 14 - Newberg Urban Renewal Area Zoning Designations

B. Infrastructure

This section identifies the existing conditions in the Area to assist in **establishing blight in the ordinance adopting the urban renewal plan.** There are projects listed in several City of Newberg's infrastructure master plans that relate to these existing conditions. They are listed by sub area and are the projects reviewed by the Urban Renewal Citizens Advisory Committee in identifying projects for the Area. **This does not mean that all of these projects are included in the urban renewal plan.** The specific projects that are included in the Plan are listed in Sections II and III of this Report and are highlighted in the table below.

Table 21 - Blighting Infrastructure Conditions in the Area

4. Stormwater

From the Newberg Riverfront Master Plan:

"The study area drains in three directions: west to Chehalem Creek, south to the Willamette River, and east to Hess Creek. The southern portion of the site lies within the 100-year flood plain of the Willamette River and Chehalem Creek. Underground stormwater lines are few in number, and largely confined to the northern portion of the study area. A stormwater main bisects the study area, conveying stormwater from the drainage lines in the northern portion of the study area south to outfall at the Willamette River. This line was previously the wastewater outfall from the former wastewater treatment plant.

Stormwater System - Recommended Improvements

Improve the Stormwater System. Collection and conveyance of stormwater runoff will likely consist of a combination of underground structure and pipes, and low-impact development conveyance improvements, such as swales and flow-through planters. Treatment of stormwater runoff will likely consist of either mechanical or low-impact development treatment facilities. Significant stormwater mitigation measures can often deter prospective developers from the area if they are prohibitively expensive, particularly for small- to medium-sized development projects. Therefore, larger stormwater infrastructure projects, such as regional stormwater solutions, should be a city-led initiative. Ultimately, however, solutions should largely be opportunistic with development and phased in a way that supports continued, incremental growth in the area.

Study the Potential Repurposing of the Existing Riverfront Industrial Site Lagoons as a Regional Stormwater Facility. The construction of a regional stormwater facility for treatment, detention, and/or disposal may address many of the difficulties individual developers face with stormwater management. There are, however, very limited options for locating such a facility. The existing lagoons provide an opportunity for stormwater management. However, any use of these ponds will likely necessitate investigation of the condition of the lagoon basin floor for contaminants which might adversely affect the Willamette River. Depending on the degree of contamination and the requirements of regulatory authorities, cleanup might also be required. In addition, some agreement would need to be made for stormwater conveyance to the pond, pond use, access, and maintenance between the property owner, the City, and properties contributing stormwater."
(p 53)

From the Newberg Downtown Improvement Plan:

"The downtown stormwater system is concentrated on Hancock Street, 1st Street, and Howard Street. The City of Newberg Drainage Master Plan identified a number of observed drainage problem areas, as reported by City staff. The plan identified one project within the study area. This project, located from Hancock near Howard Street, diagonally to Blaine

Street, and only partially within the study area, recommends decommissioning a storm sewer line that runs on private property and upsizes surrounding lines to accommodate future anticipated flows.” (p 13)

5. Wastewater

From the Newberg Riverfront Master Plan:

“Existing wastewater infrastructure within the Riverfront Area is mostly limited to the area north of the Bypass. The City of Newberg’s wastewater treatment plant is located just east of the project study area.

The portion of the study area north of the Bypass is currently served by two lift stations (the Charles Lift Station and the Andrew Lift Station) and a network of gravity sewer mains and trunk lines, which ultimately convey wastewater to the City’s wastewater treatment plant. A small lift station also serves Rogers Landing, conveying wastewater to the gravity sewer system to the north. The Riverfront Industrial Site is served by a single gravity sewer connection at the northwest corner of the site.

Wastewater Master Plan recommends improvements to the existing wastewater system within the planning area. The Wastewater Master Plan proposed abandoning the Charles Lift Station and Andrew Lift Station in the northeast portion of the study area, and replacing them with a single lift station (the Riverfront Lift Station) and a series of gravity mains (projects C4.b and C3.b in the Wastewater Master Plan). The Riverfront Lift Station would also serve a portion of the southeast portion of the study area with several gravity sewer extensions to the south and the east. The Wastewater Master Plan also recommended upsizing several gravity mains within the study area to convey future flows. No wastewater improvements are described for the eastern portion of the study area.

Wastewater System - Recommended Improvements

Improve the Wastewater System. The planning area currently lacks a complete wastewater system and will require extensive sewer infrastructure improvements to serve new development. Approximately six gravity mains, one force main, and a Riverfront Lift Station are recommended.” (p 50, 51)

From the Newberg Downtown Improvement Plan:

“Oriented on a grid system in downtown Newberg, the sanitary sewer system is well established to serve the study area. One of four named sanitary trunklines in the city, the 21-inch-diameter Wyooski Trunkline cuts through the east end of the study area. The City of Newberg Sewerage Master Plan recommends upsizing a portion of this trunkline in the study area from 21 inches to 24 inches to increase its capacity for modeled 2040 flows.” (p 13,14)

6. Water

From the Newberg Riverfront Master Plan:

"The existing water system is owned and operated by the City of Newberg. The study area is served by three reservoirs: the North Valley Reservoir Nos. 1 and 2 located on the north side of the City, and the Corral Creek Reservoir, located east of the City.

These reservoirs are fed by transmission mains from the water treatment plant, which is located on the southeast corner of the study area. A well field south of the study area supplies the City's water, which is conveyed to their water treatment plant. A water transmission main conveys treated drinking water from the treatment plant north through the Riverfront Industrial Site to the rest of the City. The area north of the Bypass is served by an existing water distribution network, with distribution mains. 2 to 8 inches in diameter. Several properties just south of the Bypass, including the Riverfront Industrial Site, are also served by water main extensions from the distribution system north of the Bypass.

The City of Newberg has a re-use water system, which is currently confined to the City's Wastewater Treatment Plant and nearby golf course for part of the year. The Riverfront Industrial Site property has water rights to water from the Willamette River, and this privately-owned non-potable water was used in the past for mill operations.

Water System - Recommended Improvements

Extend a Water Distribution Main West from the Transmission Main. To serve new development south of the Bypass, a water distribution main can be extended west from the transmission main near the water treatment plant. This new water distribution main should extend to the western portion of the study area and should connect to the existing water system to the north where possible to provide a fully looped system.

Extend a Water Main from S College Street. To serve the north side of the Bypass, a water main could be extended from S College Street southwest along S Weatherly Way. This water main should also be connected to the water main serving the area south of the Bypass to provide a fully looped system.

Improve the Water Distribution Network North of the Bypass. The existing mains are relatively small and will likely not provide sufficient fire flow for future connections as the area south of the Bypass develops. The minimum size of water distribution mains will be 8-inches, per City standards. Final sizing will require a more in-depth analysis to ensure that minimum fire flow is maintained throughout the water system in accordance with City standards." (p 49, 50)

From the Newberg Downtown Improvement Plan:

"The water distribution system serving the Newberg downtown area is well established. There are no specific projects within the study area identified in the City of Newberg Water

Distribution System Plan to make improvements to the system, though the plan recommends replacing aging pipelines as part of the annual City budgeting process. One location identified by the City of Newberg as having insufficient pressure for future development is the pipe on the south side of 1st Street.” (p 13)

7. Transportation

From the Newberg Downtown Improvement Plan:

The current transportation conditions through downtown Newberg vary by mode. As a state highway, OR 99W serves regional movement with three travel lanes in each direction along the 1st-Hancock couplet. Traffic signals along the corridor are timed to facilitate the movement of vehicular traffic and freight along the corridor, and the four intersections analyzed in the TSP currently meet ODOT mobility targets. Due to the traffic volume and width of the corridor, crossing the street at unsignalized intersections can be difficult for both motor vehicles and pedestrians/bicyclists that wait for gaps to travel north-south. The downtown area is well connected with sidewalks for pedestrian travel. Bicycle lanes are provided along the couplet and some connecting roadways. Transit service is provided along the couplet, but local and regional routes have limited service frequency with headways of one hour or longer. Additionally, transit stop information and other amenities are limited. p 7

The combined downtown parking system for Newberg includes 2,090 stalls nearly evenly split between on-street (45 percent of all spaces) and off-street (55 percent of all spaces) options. The on-street system is comprised of nine different stall types, the majority (68 percent) of which are unregulated, with no time restriction. An additional 28 percent of stalls are 2-Hour stalls, primarily located along 1st Street and the south side of Hancock Street. The remainder of stall types is a mix of 10- to 60-Minute stalls, Handicap, Theater, and Reserved stalls”. (p 16)

C. Social Conditions

The following social conditions were taken from the American Community Survey 2015-2019 Five Year Estimates. The most common age bracket in the Area is under 18-24 years at 28%.

Table 22 - Age in the Area

Age	Number	Percentage
Under 5 years	375	6%
5 to 9 years	180	3%
10 to 14 years	300	5%
15 to 17 years	204	3%
18 to 24 years	1,761	28%
25 to 34 years	1,175	19%
35 to 44 years	607	10%
45 to 54 years	518	8%
55 to 64 years	396	6%
65 to 74 years	227	4%
75 to 84 years	306	5%
85 years and over	187	3%
TOTAL:	6,236	100%

Source: American Community Survey 2015-2019 Five Year Estimates

The analysis of race and origin are shown in the table below.

Table 23 – Hispanic or Latino Origin by Race in the Area

	Number	Percentage
Not Hispanic or Latino	5,080	81%
White alone	4,539	73%
Black or African American alone	16	0%
American Indian and Alaska Native alone	132	2%
Asian alone	183	3%
Native Hawaiian and Other Pacific Islander alone	35	1%

Thirty two percent of the residents reported an education that included less than high school or gaining a high school diploma. Twenty eight percent had a bachelor's degree, master's degree or a professional school degree.

Table 24 -Education in the Area

Education	Number	Percentage
Less than high school	667	19.53%
High school graduate (includes equivalency)	424	12.41%
Some college	1,027	30.06%
Associate's degree	338	9.89%
Bachelor's degree	755	22.10%
Master's degree	190	5.56%
Professional school degree	15	0.44%
Doctorate degree	-	0.00%
TOTAL:	3,416	100%

Source: American Community Survey 2015-2019 Five Year Estimates

A standard income analysis was performed on the Area. The most prevalent income bracket in the Area was \$40,000 – \$49,999, with twenty three percent in this range.

Table 25 - Income in the Area

Income Range	Number	Percentage
Less than \$10,000	32	1.71%
\$10,000 to \$19,999	120	6.40%
\$20,000 to \$29,999	160	8.54%
\$30,000 to \$39,999	166	8.86%
\$40,000 to \$49,999	433	23.11%
\$50,000 to \$59,999	201	10.73%
\$60,000 to \$74,999	170	9.07%
\$75,000 to \$99,999	263	14.03%
\$100,000 to \$124,999	230	12.27%
\$125,000 to \$149,999	79	4.22%
\$150,000 to \$199,999	1	0.05%
\$200,000 or more	19	1.01%
TOTAL:	5,685	100%

Source: American Community Survey 2015-2019 Five Year Estimates

Additional data from the American Community Survey 2015-2019 Five Year Estimates shows that 57% of the responders drove alone to work and that 77% of those drove more than 10 minutes to work.

D. Economic Conditions

1. Taxable Value of Property within the Area

The estimated total assessed value of the Area calculated with data from the Yamhill County Department of Assessment and Taxation for FYE 2021 including all real, personal, manufactured, and utility properties, is estimated to be \$146,961,849.

2. Building to Land Value Ratio

An analysis of property values can be used to evaluate the economic condition of real estate investments in a given area. The relationship of a property's improvement value (the value of buildings and other improvements to the property) to its land value is generally an accurate indicator of the condition of real estate investments. This relationship is referred to as the "Improvement to Land Value Ratio," or "I:L." The values used are real market values. In urban renewal areas, the I:L is often used to measure the intensity of development or the extent to which an area has achieved its short- and long-term development objectives.

Table 26 shows the improvement to land ratios (I:L) for properties within the Area. In the Area 60 parcels representing 41% of the non-exempt acreage have I:L ratios less than 1.0. In other words, the improvements on these properties are worth less than the land they sit on. A reasonable I:L ratio for properties in the Area is 2.0. Only 121 of the 701 non-exempt parcels in the Area, totaling 5% of the acreage have I:L ratios of 2.0 or more as determined by an analysis of the real market values from the Yamhill County Assessor data for FYE 2020-2021. In summary, the area is underdeveloped and not contributing significantly to the tax base in Newberg. There are 59 parcels listed as Exempt from taxation, so they have no assessed value. No improvement value means there are no taxable structures on the tax lot.

Table 26 - Improvement to Land Ratios in the Area

Improvement to Land (I:L) Ratio	Parcels	Acreage	Percent of Acreage
Exempt	59	107.80	23.85%
No Improvement Value	64	55.70	12.32%
0.01-0.50	156	50.18	11.10%
0.51-1.00	273	77.60	17.17%
1.01-1.50	58	12.93	2.86%
1.51-2.00	29	124.41	27.52%
2.01-2.50	22	3.78	0.84%
2.51-3.00	13	2.15	0.48%
3.01-4.00	15	4.21	0.93%
> 4.00	71	13.24	2.93%
TOTAL:	760	452.00	100%

Source: Compiled by Elaine Howard Consulting, LLC with data from the Yamhill County Department of Assessment and Taxation (FYE 2020-2021)

E. Impact on Municipal Services

The fiscal impact of tax increment financing on taxing districts that levy taxes within the Area (affected taxing districts) is described in Section VIII of this Report. This subsection discusses the fiscal impacts resulting from potential increases in demand for municipal services.

The projects being considered for future use of urban renewal funding are for transportation improvements including auto oriented and non-auto-oriented projects, water, sewer and stormwater and other utility infrastructure improvements, facilitating redevelopment of properties, and plan administration. The use of tax increment allows the city to add an additional funding source to the City of Newberg general fund or system development charge funds to allow these projects to be completed.

It is anticipated that these improvements will catalyze development on the undeveloped and underdeveloped parcels in the Area. This development will require city services. However, as the property is within the city limits or the urban growth boundary, the city has anticipated the need to provide services to the Area. As the development will be new construction or rehabilitation, it will be up to current building code which will aid in any fire protection needs.

The financial impacts from tax increment collections will be countered by future economic development, and, in the future, adding increases in assessed value to the tax base for all taxing jurisdictions, including the City.

X. REASONS FOR SELECTION OF EACH URBAN RENEWAL AREA IN THE PLAN

The reason for selecting the Area is to provide the ability to fund projects and programs necessary to cure blight within the Area. The outcome of implementing these projects is anticipated to be a substantial increase to the economic growth in Newberg by providing new industrial parcels for development and providing infrastructure improvements inside the Area to assist with economic development.

XI. RELOCATION REPORT

When the Agency acquires occupied property under the Plan, residential or commercial occupants of such property shall be offered relocation assistance, as required under applicable state law. Prior to such acquisition, the Agency shall adopt rules and regulations, as necessary, for the administration of relocation assistance. The Agency will comply with all applicable state law in providing these potential benefits.

Exhibit “C” to Planning Commission Resolution 2021-373
Findings –File GEN19-0017
Newberg Urban Renewal Plan and Report

A. *Newberg Comprehensive Plan*

The Comprehensive Plan is a set of policies and a map of land use designations that guide growth and development in the city. The Plan reflects community needs and goals, and is consistent with established statewide goals and guidelines. The Comprehensive Plan contains the following sections: Introduction and Background; Goals and Policies; Plan Classifications; Population Growth; Land Need and Supply; and Summary. As the Comprehensive Plan is updated in the future, this document will automatically incorporate those updates without the Plan having to be formally amended. This section of the Plan should be updated if there is a substantial amendment completed in the future.

A. CITIZEN INVOLVEMENT

GOAL: To maintain a Citizen Involvement Program that offers citizens the opportunity for involvement in all phases of the planning process.

Finding: The preparation of the Plan was guided by a Citizens Advisory Committee (CAC). The Committee held fourteen meetings to guide preparation of the feasibility study, discuss the boundary, help prioritize the project list, review financial components of the Plan and review the draft Plan and Report. The CAC was comprised of taxing district representatives from Tualatin Valley Fire & Rescue, Newberg School District, Chehalem Park and Recreation District, and the Chehalem Valley Chamber of Commerce, Newberg Downtown Coalition, and five citizen representatives.

Once the feasibility study was completed, it was posted to the Newberg website as well as six videos explaining urban renewal technicalities. A Frequently Asked Questions fact sheet was also posted to the website as well as all documents from the Citizens Advisory Committee.

The City provided two updates to the City Council in televised meetings (Youtube) and three updates to the Planning Commission. Flyers in English and Spanish were distributed at the Wednesday Farmers’ Market and throughout Newberg. Other briefings were provided to the Rotary (2), Kiwanis, and City Club (2).

The Plan itself is based on the numerous planning documents prepared in the City of Newberg all of which were thoroughly reviewed by the citizens of Newberg. These documents include *City of Newberg Riverfront Master Plan*, *City of Newberg Downtown Improvement Plan*, *A NewBERG Community Vision*, *the Newberg Comprehensive Plan*, *Stormwater Master Plan*, *Water Master Plan*, *Wastewater Master Plan*, *Transportation Systems Plan*, and *the Newberg Economic Development Strategy*.

E. AIR, WATER, AND LAND RESOURCE QUALITY

GOAL: To maintain and, where feasible, enhance the air, water and land resource qualities within the community.

POLICIES:

3. As public sanitary sewer systems become available, all development shall connect to the public system. To encourage economic development, the City may permit subsurface sewerage disposal where the system meets State and County requirements and where unique circumstances exist.

5. New industry should be located in areas which minimize impacts.

9. The City will seek abatement of the aesthetic degradation of the environment resulting from blighted neighborhoods, indiscriminate waste disposal, offensive outdoor storage.

12. The City will require development to establish and maintain adequate levels of natural area buffers between new development and the waterways in the Riverfront District.

13. The City will discourage the development of uses that will generate or import quantities of hazardous substances into the Riverfront District.

14. Development in the Riverfront District will be encouraged to retain existing native vegetation that contributes to habitat functions and values.

Finding: Development of the Riverfront District and Downtown is a key goal of the Plan. This development will provide new industry to Newberg. This new industry will comply with the provisions of the Comprehensive Plan as all new development will comply with the requirements of the City of Newberg. In the Downtown area new development and infill development will comply with the provisions of the Comprehensive Plan as all new development will comply with the requirements of the City of Newberg.

F. AREAS SUBJECT TO NATURAL HAZARDS

GOAL: To protect life and property from flooding and other natural hazards.

POLICIES:

6. The City will discourage development on hazardous slope areas and natural resource areas in the Riverfront District.

Finding: Development of the Riverfront District and Downtown is a key goal of the Plan. This new development will comply with the provisions of the Comprehensive Plan as all new development will comply with the requirements of the City of Newberg.

G. OPEN SPACE, SCENIC, NATURAL, HISTORIC AND RECREATIONAL RESOURCES

"Working Together For A Better Community-Serious About Service"

Z:\MISC\WP5FILES\FILES.G (General File)\G 2019\GEN19-0017 Urban Renewal\Planning Commission\7-22-21\Comp Plan Urban Renewal PC Report Final.doc

GOALS:

1. To ensure that adequate land shall be retained in permanent open space use and that natural, scenic and historic resources are protected.
2. To provide adequate recreational resources and opportunities for the citizens of the community and visitors.
3. To protect, conserve, enhance and maintain the Willamette River Greenway.

1. Open Space & Natural Resources Policies

d. The dedication of easements for public drainageways and stream corridors should be encouraged when properties are either developed or redeveloped. Developed densities that would normally be allocated to portions of the property within delineated stream corridors may be transferred to adjoining areas up to a maximum increase of 20 percent.

2. Scenic Resources Policies

- b. The City will encourage identification of scenic drives, sites and viewpoints.
- c. The City will encourage the protection and enhancement of views of the Willamette River throughout the Riverfront District.
- d. The City shall seek to protect identified key views of the Willamette River that are identified through area plans, specific plans, and other planning processes.

4. Recreation Policies

- n. The City will encourage the development of greenways or trails connecting the Riverfront to other open spaces and/or parks in the Newberg areas.
- o. The City will encourage the development of a regional Riverfront pedestrian/bicycle path connection, including connections to Champoege State Park, the French Prairie, and Dundee.

5. Willamette River Greenway Policies

- f. Recreational access to the Willamette River for pedestrians, boaters (motorized and non-motorized), and other users who wish to appreciate the River from its banks should be provided.
- i. Existing waterfront parklands should be developed to maximize their water orientation and provide for a variety of active and passive recreational uses, including motorized and non-motorized boating, picnicking, walking, hiking, and other activities that make use of the waterfront and waterways.
- j. The City will encourage the development of a pedestrian esplanade in the Riverfront District to provide views of the river and connections to the riverfront.

- k. Waterfront recreational and park development along the Willamette River will be given emphasis to provide recreational resources for future generations.

Finding: There are specific projects within the Plan that will provide for the development of an esplanade and new trails in the Riverfront District. These projects will comply with the City's policies and development standards.

H. THE ECONOMY

GOAL: To develop a diverse and stable economic base.

POLICIES:

1. General Policies

- a. In order to increase the percentage of persons who live in Newberg and work in Newberg, the City shall encourage a diverse and stable economic base. Potential methods may include, but are not limited to, land use controls and capital improvement programs.
- b. The City shall encourage economic expansion consistent with local needs.
- c. The City will encourage the creation of a diversified employment base, the strengthening of trade centers and the attraction of both capital and labor intensive enterprises.
- d. Newberg will encourage the development of industries which represent the most efficient use of existing resources including land, air, water, energy and labor.
- g. The City shall encourage business and industry to locate within the Newberg City limits.
- j. A mixed-use river-oriented commercial area should be encouraged to be developed near the Willamette River.

2. Industrial Areas Policies

- d. The City shall undertake specific activities to encourage the growth of existing businesses, to encourage a diversity of businesses, and to attract new businesses to the community in industries that will provide local employment opportunities consistent with community needs and goals.
- g. The City shall identify land that will provide for expansion of existing businesses and/or attract new businesses and shall reserve that land for future industrial development that is consistent with community needs and goals.
- i. Industrial land shall be reserved for industrial uses.

3. Commercial Areas Policies

- a. The City shall encourage the retention of the downtown core as a shopping, service and

financial center for the Newberg area. New commercial developments shall be encouraged to locate there.

d. To maintain the integrity and function of the highway system, new commercial development shall be discouraged along the route of any limited access highway.

4. Riverfront District Policies

a. The City will enhance commercial diversity and activity in the Riverfront District by encouraging a business mix that provides goods and services to satisfy neighborhood and visitor needs and that also draws people from the greater region.

b. The City will encourage development of the Riverfront District as a distinct river oriented center that can help support a variety of local businesses.

c. The City will encourage the development of commercial, retail, industrial, and employment uses that have a strong reason for locating near the Riverfront and support the vision of the Riverfront District as a walkable and bikeable mixed-use area.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The majority of funding in the Plan is allocated to transportation and infrastructure. The Riverfront District is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. This development will comply with the City's policies and development standards.

I. HOUSING

GOAL: To provide for diversity in the type, density and location of housing within the City to ensure there is an adequate supply of affordable housing units to meet the needs of City residents of various income levels.

2. Location Policies

c. The City will encourage medium - to high density- housing in and adjacent to the commercial core of the Riverfront District medium-density residential uses in the western and northern portions of the Riverfront District.

3. Mix Policies

k. The City shall encourage an adequate supply of multi-family housing dispersed throughout the City to meet the needs of renters.

n. The City will encourage housing development in commercial areas within the Riverfront District as part of mixed use developments

Finding: The majority of funding in the Plan is allocated to transportation and infrastructure. These projects are intended to facilitate development including development in commercial areas within the Riverfront District as part of mixed use developments and in the Downtown area for mixed use development.

J. URBAN DESIGN

GOAL 1: To maintain and improve the natural beauty and visual character of the City.

1. General Policies

h. Curbs, gutters, and sidewalks should be required in all new developments.

i. Curb ramps should be required at intersections and pedestrian crosswalks wherever new curbs are installed. These ramps improve access for the elderly and handicapped, as well as for strollers, bicycles and other wheeled vehicles.

5. Downtown Policies

a. The City should encourage improvement of the central business district as the economic, cultural, business and governmental center of the Newberg area.

c. The City should encourage a variety of commercial and service activities to locate in the central business district, including mixed-use commercial/residential buildings and mixed-use commercial/craft industrial to create a vital downtown core with a strong retail sector.

d. The City should discourage the use of the central business district for non- intensive land uses or uses which have a low floor area to site size ratio.

e. The City should encourage a higher utilization of downtown space, encouraging intensive use of all building levels.

f. A concerted effort should be made to revitalize the central business district through rehabilitation or redevelopment of existing areas.

g. The City should consider:

- Adequate off-street parking.
- Adoption of a downtown improvement plan which should include design standards for all new private and public improvements.
- Various options to make the downtown more pedestrian friendly, particularly as traffic volumes change with the opening of the Phase 1 Bypass.

Finding: The Plan provides for the extensive provision of new streets and street reconstruction. These streets will have curbs, gutters, sidewalks, and curb ramps to conform with the City standards

for streets. Off street parking is one of the projects in the Plan. The projects are intended to help support the Downtown by providing transportation and infrastructure improvements to help facilitate redevelopment and development in the Downtown area.

6. Riverfront District Policies

- a. The City will encourage a mix of employment, housing, commercial, and industrial uses serving the neighborhood and the surrounding community to enhance the Riverfront District's identity as a vital and attractive City asset and to ensure an active, pedestrian friendly, and thriving Riverfront District.
- b. Development and land uses will be encouraged that promote the Riverfront District as a convenient and attractive environment for residents of Newberg as well as for visitors from other cities and the region as a whole.
- c. The development of mixed commercial uses will be encouraged in the Riverfront District along E Fourteenth, NE Waterfront, S College, and S River Streets.
- d. The City will encourage the use of common design elements such as gateways, wayfinding signage, streetscape features, and building design elements for new and/or improved development in the Riverfront District in order to create a sense of identity that is unique to this area of Newberg.
- e. The City will permit land uses with design features along S River Street that are compatible with or provide a buffer between residential and retail uses on the west side of the street and industrial and mixed employment uses on the Riverfront Mill Site.
- f. The City will encourage commercial structures within the Riverfront District that are in scale with commercial sites and suitable for river-oriented businesses.

Finding: The Riverfront District is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. These projects will comply with the City's policies and development standards.

K. TRANSPORTATION

GOAL 1: Establish cooperative agreements to address transportation based planning, development, operation and maintenance.

POLICIES:

- b. The City should work to ensure that the transportation system is developed in a manner consistent with state and federal standards for the protection of air, land and water quality, including the State Implementation Plan for complying with the Clean Air Act and the Clean Water Act.

GOAL 2: Establish consistent policies which require concurrent consideration of transportation/land use system impacts.

POLICIES:

- a. Transportation improvements should be used to guide urban development and should be designed to serve anticipated future needs.
- e. The City will encourage the development of retail development within the downtown area.
- f. Within the Riverfront District Mixed Employment area, the City shall limit new retail development to up to 60,000 square feet and new office development to up to 60,000 square feet in order to mitigate traffic impacts identified in the 2019 Riverfront Master Plan

GOAL 3: Promote reliance on multiple modes of transportation and reduce reliance on the automobile.

POLICIES:

- a. Design the transportation system and related facilities to accommodate multiple modes of transportation where appropriate and encourage their integrated use;
 - 1) The City should plan for a network of transportation facilities and services including but not limited to air, water, rail, auto, pedestrian, bicycle and public transit.
 - 3) All local and commuter transit services must implement the accessible transportation requirements established by the Americans with Disabilities Act of 1990.
- d. The City should develop a program in coordination with the rail line owner to operate a trolley on the rail line down Blaine Street to connect the downtown area to the Riverfront Mill Site.

GOAL 4: Minimize the impact of regional traffic on the local transportation system.

POLICIES:

- a. Enhance the efficiency of the existing collector/arterial street system to move local traffic off the regional system.

GOAL 5: Maximize pedestrian, bicycle and other non-motorized travel throughout the City.

POLICIES:

- a. The City should provide safe, convenient and well-maintained bicycle and pedestrian transportation systems that connect neighborhoods with identified community
- a. Enhance the efficiency of the existing collector/arterial street system to move local traffic

off the regional system.

- i. A bicycle path should be provided along or near the bypass.

GOAL 6: Provide effective levels of non-auto oriented support facilities (e.g. bus shelters, bicycle racks, etc.).

- a. The City should develop land use, density, and design standards to encourage development patterns that accommodate pedestrian, bicycle and transit uses.

- b. New development should be designed to accommodate integrated multiple modes of transportation.

- d. The City should provide a transportation system (traffic, bicycle, pedestrian and transit) with facilities that are accessible to all people, complying in the process with applicable provisions of the Americans with Disabilities Act (ADA).

GOAL 7: Minimize the capital improvement and community costs to implement the transportation plan.

POLICIES:

- a. The Transportation System Plan shall identify needed improvements to the collector/arterial street system, the public transit system, the pedestrian/bicycle system and the air, rail, water, and pipeline systems. Improvements should be identified as likely funded or aspirational projects for the 20-year planning horizon. (Ordinance 2016-2810, December 19, 2016)

- b. The list of improvement projects in the Transportation System Plan shall guide development of the city's capital improvement plan for transportation projects.

- i. New development and existing development undergoing expansion or modification should be designed to accommodate planned long-term transportation improvement projects in the vicinity of the development.

GOAL 9: Create effective circulation and access for the local transportation system.

POLICIES:

- a. Enhance existing routes and add alternative routes for local travel.

- 3) The City should coordinate the development of an integrated bike and pedestrian system that provides for connections between and through adjacent development and that provides convenient links to community destinations.

- b. Develop a system of roads that provide for efficient movement of traffic. Specific design guidelines for the different classifications of roadways is found in the Transportation System

Plan and the Newberg Public Works Design and Construction Standards. The functional classifications of roadways in the City of Newberg includes the following:

Expressway. Expressways should be designed to expedite the movement of regional traffic through the urban area; they function as freeways with limited access points and no private development access points.

Within the City of Newberg, the Highway 99W Bypass Corridor is intended to be an expressway, which is generally aligned east/west along the southern alignment route depicted in the Newberg/Dundee Bypass Location Environmental Impact Statement. The length of the Highway 99W Bypass within the City is approximately 3 miles. Expressways shall be designed to ODOT guidelines.

Major Arterials. Major Arterials expedite the movement of traffic to and from major trip generators and between communities, collect and distribute traffic from principal arterials to collector streets, or directly to traffic generators. The functional emphasis is on the movement of people, goods, and services through the city, therefore consolidating access points, minimizing parking, and managing traffic flow to promote through-travel is the desired condition. Exceptions may occur in the central business district and in designated neighborhood commercial areas. Within the City of Newberg, Highway 99W is a major arterial that is generally aligned east/west. The length of Highway 99W within the City is approximately 3.3 miles.

Minor Arterial. Minor Arterials collect and distribute traffic from major arterials to collector and local streets, and facilitate traffic movement between neighborhoods. Highway 219 (Hillsboro-Silverton Highway) from first street to the southern urban growth boundary is a minor arterial that is generally aligned north/south. The length of Highway 219 within Newberg (south of Villa Road) is approximately 3.0 miles. Springbrook Road and Mountainview Drive are other examples of minor arterials.

Major Collectors. Major collectors serve multi-neighborhood areas. They are intended to channel traffic from local streets and/or minor collectors to the arterial street system. A major collector can also provide access to abutting properties. Villa Road, Haworth Avenue, and Wyooski Road are all examples of major collectors.

Minor Collectors. A minor collector provides access to abutting properties and serves the local access needs of neighborhoods by channeling traffic to the major collector and arterial street system. A minor collector is not intended to serve through traffic. Meridian Street, Columbia Drive, and Vittoria Way are all examples of minor collectors.

Local Streets. Local streets provide direct access to adjoining properties and connect to collector streets. Most residential neighborhood streets are local streets.

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront District and Downtown area. The projects will implement portions of the *City of Newberg Comprehensive Plan*, *City of Newberg Transportation System Plan*, and are

therefore in conformance with the Comprehensive Plan. Some of the projects are designated in the *Riverfront Master Plan* and the *Downtown Improvement Plan*. These projects will comply with the City's policies and development standards.

L. PUBLIC FACILITIES AND SERVICES

GOAL: To plan and develop a timely, orderly and efficient arrangement of public facilities and services to serve as a framework for urban development.

POLICIES:

1. All Facilities & Services Policies

- a. The provision of public facilities and services shall be used as tools to implement the land use plan and encourage an orderly and efficient development pattern.
- b. The extension of publicly-owned facilities and services into currently undeveloped areas shall occur only in accordance with the Water Master Plan, Wastewater Master Plan, Stormwater Master Plan and Newberg Design and Construction Standards.
- c. New public facilities and services shall be designed at levels consistent with planned densities and designated land uses for the area.
- d. Services shall be planned to meet anticipated community needs.
- e. Owners of properties which are located on unimproved streets should be encouraged to develop their streets to City standards.
- f. Maximum efficiency for existing urban facilities and services will be encouraged through infill of vacant land within the Urban Growth Boundary.
- g. Public facilities and services necessary to meet the special needs of industrial and mixed employment activities should be planned for those areas designated industrial on the comprehensive plan map and should be provided at a level sufficient to support proposed activities, if public funds are available.
- h. New residential areas shall have: paved streets, curbs, pedestrian ways, water, wastewater, stormwater, street lights and underground utilities.

2. Wastewater, Stormwater and Water Policies

- a. All existing development within the City limits shall connect to public wastewater, stormwater and water systems as soon as they become available.
- b. Water systems within the planning area will be designed to provide an adequate peak flow for fire protection.

g. Stormwater systems should be designed to convey stormwater based on impervious area within the Urban Growth Boundary to protect, maintain, and enhance the public health, safety, and general welfare.

h. The design of the stormwater system should provide for the drainage of surface water from development, minimize erosion, and reduce degradation of water quality due to sediments and pollutants in stormwater runoff.

i. Encourage new development to maximize infiltration of stormwater runoff when soil conditions allow.

Finding: There are numerous infrastructure projects in the Plan. These projects are intended to develop a timely, orderly and efficient arrangement of public facilities in the Area. These projects will comply with the City's policies and development standards.

M. ENERGY

GOAL: To conserve energy through efficient land use patterns and energy- related policies and ordinances.

POLICIES:

1. Planning Policies

a. The City will encourage energy-efficient development patterns. Such patterns shall include the mixture of compatible land uses and a compactness of urban development.

Finding: The projects in the Plan provide support for development in the Downtown, an established area with a compactness of urban development. The projects will also encourage development in the Riverfront District which is zoned for a mixture of compatible uses and a compactness of urban development. These projects will comply with the City's policies and development standards.

B. *City of Newberg Transportation System Plan December 2016, updated March 2021 adding Addendum Riverfront Master Plan*

The Transportation System Plan (TSP) provides a long-term guide for City transportation investments by incorporating the vision of the community into an equitable and efficient transportation system. The plan evaluates the current transportation system and outlines policies and projects that are important to protecting and enhancing the quality of life in Newberg through the next 20 years. The TSP represents a collection of past and current ideas, incorporating projects, policies, decisions, and standards from past and current plans into a single document.

A TSP is required by the State of Oregon to help integrate local plans into the statewide transportation system. The plan balances the needs of walking, bicycling, driving, transit, freight, and rail into an equitable and efficient transportation system.

Goal 1: Maintain or improve access to existing properties and employment areas; improve freight traffic and/or minimize downtown trips for through traffic; have minimal impact on adjacent properties.

Goal 2: Emphasize visual and aesthetic qualities in their design; minimize any potential energy, social, environmental, and economic impacts; improve rail, water, and air transportation systems where possible.

Goal 3: Enhance access for emergency response; include improvements meant to reduce crash frequency and severity and/or to enhance pedestrian/bicyclist safety.

Goal 4: Include “complete street” principles with both vehicle and pedestrian/bicycle improvements; improve the connectivity of the street and/or sidewalk system; improve access to public transit.

Goal 5: Provide the most cost effective improvement option and identify stable funding sources for improvements; repair, maintain, and/or improve existing facilities and protect needed right-of-way for future projects; or constructed as a mitigation requirement by private development.

Potential Additional Funding Sources

Urban Renewal District

An Urban Renewal District (URD) would be a tax-funded district within the City. The URD would be funded with the incremental increases in property taxes resulting from construction of applicable improvements. This type of tax increment financing has been used in Oregon since 1960. Use of the funding includes, but is not limited to, transportation improvements, which are funded by the incremental taxes rather than fees. (P 53 of TSP)

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront District and Downtown areas. The projects are intended to implement the *City of Newberg Transportation System Plan*. These projects will comply with the City’s policies and development standards.

C. *City of Newberg Wastewater Master Plan May 2018, updated May 2021 adding Appendix K: Addendum to include Riverfront Master Plan*

In 2016, the City of Newberg, Oregon, contracted with Keller Associates, Inc. (Keller) to complete a wastewater facility planning study for the City’s sanitary sewer collection system and wastewater treatment plant (WWTP). The study area consists of all areas within the City of Newberg Urban Growth Boundary (UGB). This study was updated in 2021 to include provisions in the Riverfront Master Plan.

Finding: There are wastewater projects identified for East Industrial Street, S River Street, and First Street in the Plan including new lines in new streets, improvements in existing streets, a Riverfront

lift station, a force main and a gravity main project. These projects will comply with the City's policies and development standards.

D. *City of Newberg Water Master Plan May 2017, updated May 2021 adding Appendix E: Addendum Riverfront Master Plan*

The purpose of this Water Master Plan (WMP) is to perform an analysis of the City of Newberg's (City's) water system and:

- Document existing water system service area, facilities and operation
- Estimate future water requirements including potential water system expansion areas
- Identify deficiencies and recommend water facility improvements that correct deficiencies and provide for growth
- Update the City's capital improvement program (CIP)
- Evaluate the City's existing operation and maintenance (O&M) program
- Evaluate the City's existing system development charges (SDCs)

Finding: There are water projects identified in the Plan for East Industrial Street, S River Street, E Fourteenth Street, S Blaine Street, First Street, Meridian Street, N College Street, Howard Street, Washington Street, Main Street, E Sheridan Street, including new lines in new streets, improvements in existing streets and replacing water lines in some Downtown streets. These projects will comply with the City's policies and development standards.

E. *City of Newberg Stormwater Master Plan, updated June 2021*

In 2013, the City of Newberg (City) initiated development of a multi-objective Stormwater Master Plan (Master Plan) to provide a clear understanding of the existing stormwater system and provide a capital improvement project (CIP) program to address deficiencies in the system. The main objectives of this plan are as follows:

- a) Update the City's stormwater system's hydrologic and hydraulic models to evaluate system capacity.
- b) Develop an integrated stormwater system capital improvement program to address storm system capacity needs and water quality.
- c) Evaluate stream channel conditions with respect to erosion and impacts from future development.
- d) Continue to comply with water quality regulations.
- e) Review the City's stormwater management program and make recommendations on activities and staffing where applicable.

- f) Identify implementation priorities and impacts to the program budget.
- g) Develop a Master Plan document that is useful and easy to read, reference, and update.

Finding: There are stormwater projects identified on S Blaine Street, S River Street, and First Street in the Plan. There are also stormwater projects in all new streets in Subarea A. These projects will comply with the City’s policies and development standards.

Conclusion: Based on the above-mentioned findings, the request meets goals and policies within the Newberg Comprehensive Plan.

F. Newberg Economic Development Strategy Updated 2019

Goal: *Having a qualified and educated workforce; an environment of openness to business investment; programs for retention, expansion and recruitment of businesses; public investment in critical infrastructure; metrics to measure economic activity; all while being sustainable.*

INDUSTRIAL SECTOR

Goal: Enhance industrial development capabilities and opportunities

COMMERCIAL SECTOR

Goal: Enhance commercial development capabilities and opportunities

BUSINESS DEVELOPMENT AND WORKFORCE

Goal: Create a premier business and workforce development program

DOWNTOWN NEWBERG

Goal: Complete funding, administrative, and organizational actions for Newberg Downtown Improvement Plan.

TOURISM AND HOSPITALITY

Goal: Newberg / Chehalem Valley a regional, national & international tourist destination

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The majority of funding in the Plan is allocated to transportation and infrastructure. The Riverfront District is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. This development will comply with the City’s policies and development standards.

Conclusion: Based on the above-mentioned findings, the request conforms with the Newberg Economic Development Strategy.

G. *Newberg Municipal Code Title 15 Development Code*

The land uses in the Area will conform to the zoning designations in the Municipal Code, including the maximum densities and building requirements, and are incorporated by reference herein. The existing zoning is shown in Figure 4. It shows the expected zoning designations of the parcels that are outside of the city limits but inside the urban growth boundary.

As the Municipal Code is updated, this document will be automatically updated. If a substantial amendment is completed in the future, this section will be updated to match the current zoning designations.

The zoning categories at the time of the Newberg 2021 Urban Renewal Plan preparation follow. They are in the order that they occur in Title 15 of the Municipal Code.

Existing Zoning Categories

R-1 Low Density Residential District.

1. The purpose of this land use designation is to provide for low density urban single-family residential uses at an average overall density of 4.4 units per gross buildable acre in the district. It is intended to provide a stable and healthful environment together with the full range of urban services.

2. Typical housing types will include single-family dwellings, duplex dwellings, and planned unit developments. The district also is intended to allow low intensity institutional uses that operate consistent with peaceful enjoyment of residential neighborhoods. The R-1 district is intended to be consistent with the low density residential (LDR) designation of the comprehensive plan.

R-2 Medium Density Residential District.

1. The purpose of this land use designation is to provide a wide range of dwelling types and styles at an average overall density of nine units per gross buildable acre in the district.

2. Typical housing types will include single-family dwellings on small lots, attached single-family, duplex dwellings, or multifamily dwellings, and manufactured dwelling parks. The district also is intended to allow low intensity institutional uses that operate consistent with peaceful enjoyment of residential neighborhoods. The R-2 district is intended to be consistent with the medium density residential (MDR) designation of the comprehensive plan.

R-3 High Density Residential District.

1. The purpose of this land use designation is to provide multifamily dwellings of different types and styles at an average overall density of 16.5 units per gross buildable acre in the district.

2. Typical housing types will include duplex dwellings, multifamily dwellings, and manufactured dwelling and mobile home parks. The district also is intended to allow low intensity institutional uses that operate consistent with peaceful enjoyment of residential neighborhoods. Density may vary depending on lot size, off-street parking area, transportation, landscaping and other site considerations. The R-3 district is intended to be consistent with the high density residential (HDR) designation of the comprehensive plan.

RP Residential-Professional District. The RP residential-professional district provides for a desirable mixing of residential land uses with medical and local business office uses in possible close proximity to adjacent residential areas. The office building and parking coverage, traffic generation, open space and other external factors are intended to be compatible with the residential uses permitted. This district may be appropriate in transition areas between major land uses as indicated in the adopted plan. The RP district is intended to be consistent with commercial or residential designations on the Newberg comprehensive plan. RP districts shall be located as to conform to goals and policies identified within the Newberg comprehensive plan and in areas which have a minimal impact on the livability or appropriate development of abutting property.

C-1 Neighborhood Commercial District. The C-1 neighborhood commercial district is intended to create, preserve and enhance areas of retail establishments serving frequently recurring needs in convenient locations. It is typically appropriate for small convenience stores or neighborhood shopping centers located within residential neighborhoods. The C-1 district is intended to be consistent with the commercial (COM) designation of the comprehensive plan.

C-2 Community Commercial District. The C-2 community commercial district is intended to create, preserve and enhance areas with a wide range of retail sales, commercial services, and office establishments. Typical development types include individual commercial buildings on small and large sites, community shopping centers, and some outdoor retail uses. This district is typically located along highways and arterials. This district also includes some development which does not strictly fit the description of “commercial” but also does not merit a separate zoning district. The C-2 district is intended to be consistent with the commercial (COM) and mixed use (MIX) designations of the comprehensive plan.

C-3 Central Business District. The C-3 central business district is intended to preserve and enhance areas within which the greatest possible concentration of retail sales and business will occur. The district will be applied to the “core” area based upon the guidelines established in the comprehensive plan. The buildings and uses permitted reflect the desire to have parking provided on a district-wide basis rather than having each individual building or use provide parking. The C-3 district is intended to be consistent with the commercial (COM) designation of the comprehensive plan.

C-4 Riverfront Commercial District.

1. The purpose of the C-4 riverfront commercial district is to allow a mix of uses that:
 - a. Provides a variety of retail, commercial, and residential uses that benefit from proximity to the river.
 - b. Encourages access to and enjoyment of the Willamette River.
 - c. Ensures compatibility of development with the surrounding area and minimizes impacts on the environment.
2. Properties zoned in this district must comply with the development standards of the riverfront overlay subdistrict, as described in NMC 15.352.010 through 15.352.060.
3. The C-4 district is intended to be consistent with the commercial/riverfront district (COM/RD) designation of the comprehensive plan.

M-2 Light Industrial District. The M-2 light industrial district is intended to create, preserve and enhance areas containing a wide range of manufacturing and related establishments and is typically appropriate to areas providing a wide variety of sites with good rail or highway access. The M-2 district is intended to be consistent with the industrial (IND) designation of the comprehensive plan.

CF Community Facilities District. The purpose of the CF community facilities district is to provide for appropriate development of community facilities, primarily by public agencies or nonprofit organizations. It encourages the preservation of natural resources and open space resources inventoried in the comprehensive plan. The CF district is intended to be consistent with the parks (P) and public/quasi-public (PQ) designations in the comprehensive plan. It may also be consistent with any other designation of the comprehensive plan as determined by the city council.

I Institutional District. The I institutional district is intended to support and promote institutional uses. The district provides for the establishment and growth of large institutional campuses as well as accessory and compatible uses. The institutional district is intended to be consistent with the public/quasi-public (PQ) designation of the comprehensive plan.

M-E Mixed Employment District. The M-E mixed employment district is intended to create a mix of light industrial and limited commercial uses that provide employment opportunities for the City of Newberg while also creating a high-quality urban environment. This designation can provide a buffer between industrial uses with a high degree of external impact and other uses such as residential and recreational areas. The M-E designation is intended to be consistent with the industrial (IND) and mixed use (MIX) designations of the comprehensive plan.

CC Civic Corridor Overlay Subdistrict. The CC subdistrict is intended to emphasize the

civic and historic character of that portion of downtown Newberg generally bounded by Sherman Street on the north, Blaine Street on the west, 5th Street on the south and Howard and School Streets on the east and as depicted on the zoning map. The subdistrict overlay may be applied within any zoning district. The subdistrict shall be designated by the suffix CC added to the symbol of the parent district.

H Historic Landmarks Overlay Subdistrict. The historic landmarks overlay subdistrict may be created within any zoning district. The overlay shall be designated by the suffix H added to the symbol of the parent district. All uses permitted in the parent zone shall be allowable in the H overlay zone except as otherwise may be limited by this code.

IO Institutional Overlay Subdistrict. The institutional overlay subdistrict may be created within any zoning district. The overlay shall be designated by the suffix IO added to the symbol of the parent district. All uses permitted in the parent zone shall be allowable in the IO overlay zone except as otherwise may be limited by this code.

RD Riverfront Overlay Subdistrict. The riverfront overlay subdistrict may be applied to R-1, R-2, R-3, M-1, M-2, M-3, M-E, C-1, C-4, and CF zoning districts. This subdistrict may be applied to lands south of Ninth Street to the Willamette River. The overlay shall be designated by the suffix RD added to the symbol of the parent district. All uses permitted in the parent zone shall be allowable in the RD overlay zone except as otherwise may be limited in this code. Where provisions of the subdistrict are inconsistent with the parent district, the provisions of the subdistrict shall govern.

Bypass Interchange (BI) Overlay. The bypass interchange overlay shall apply to lands within the city limits and within approximately one-quarter mile of the end of ramps of the East Newberg and Oregon 219 interchanges to the bypass. The bypass interchange overlay may be applied in combination with any zoning district. The overlay shall be designated by the suffix BI added to the symbol of the parent district. All uses permitted in the parent zone shall be allowed within the bypass interchange overlay except as specifically limited by this code.

Finding: The Plan conforms with Title 15 of the Newberg Municipal Code as the projects will support the development of parcels in the Area and those parcels will be developed in accordance with the Municipal Code through the normal City of Newberg development review process.

Conclusion: Based on the above-mentioned findings, the request conforms with the Newberg Development Code.

H. Yamhill County Comprehensive Plan

The following findings were prepared by the City of Newberg in coordination with Yamhill County staff.

Section I Urban Growth and Change and Economic Development

A. Urban Area Development

GOAL STATEMENT

1. To encourage the containment of growth within existing urban centers, provide for the orderly, staged, diversified and compatible development of all of the cities of Yamhill County, and assure an efficient transition from rural to urban land use.

POLICIES

A. Yamhill County will, in cooperation with the cities and special districts of the county, encourage urban growth to take the form of a series of compact, balanced communities, each with its own business and community center and each related to industrial areas and other centers of employment.

C. Yamhill County will recognize the lands within established urban growth boundaries as the appropriate and desired location for urban development.

GOAL STATEMENT

2. To encourage the containment of urban services and facilities and other public capital improvements within existing urbanizing areas in order to achieve an orderly pattern of urban growth.

POLICIES

A. Yamhill County will continue to seek full cooperation and coordination among the cities, the school districts, other special-purpose districts of the county and the county itself in jointly planning and programming all land use, urban services and facilities and other public improvements having an impact on the rate and direction of urban growth.

B. Yamhill County will seek to establish a general commitment by all providers of urban services that no subdivision of lands in designated urban areas on the Plan Map will be permitted without the provision of urban services commensurate with the location, nature and scale of the proposed development, recognizing the overall capital program for community services and the ultimate net cost to the community of the services to be provided.

Finding (Goals 1 and 2): One of the major goals of the Plan is to develop a diverse and stable economic base while providing for orderly, staged, diversified and compatible development and assuring an efficient transition from rural to urban land use. All unincorporated areas within the Urban Renewal Plan (Plan) are within the urban growth boundary (UGB) and are intended to be developed to urban densities in the future.

The majority of funding in the Plan is allocated to transportation and infrastructure. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. However, it is within the UGB so

providing infrastructure for future development will provide for orderly, staged, diversified and compatible development.

The projects designated for the Downtown Improvement Plan area also provide key transportation and infrastructure improvements to encourage economic development including rehabilitation of existing structures and new development. These projects will encourage the containment of growth within the existing urban center. The City of Newberg has coordinated with providers of urban services with the UGB and the proposed Plan area consistent with Goal 2. Policy A. The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection A. Urban Area Development, Goals 1 and 2 of the Yamhill County Comprehensive Plan.

GOAL STATEMENT

3. To create convenient and attractive residential neighborhoods which can be efficiently serviced with roads, utilities, schools, parks and commerce, and can take advantage of desirable physical features; and to give a satisfactory range of choice to the prospective householder through the imaginative use of a variety of design concepts.

POLICIES

A. Yamhill County will continue to recognize that the appropriate location of medium-density residential development is in areas having a full range of urban services and amenities within or immediately adjacent to central business districts; immediately adjacent to public traffic generators, such as schools, parks, hospitals, and regional or neighborhood shopping centers; or in selected small areas having unique scenic qualities and a location where community water supply and sewage-disposal systems, adequate access by way of a road of collector or higher status and other urban services necessary to meet the needs of the intended residents can and will be provided.

Finding: There are 117 parcels in the Plan Area designated for High Density Residential uses and another 35 parcels designated for Medium Density Residential uses. The utility undergrounding on Second Street will allow for higher density residential uses on this street as TVF&R will be able to service the higher density uses. Most of the funding in the Plan is allocated to transportation and infrastructure. These projects are intended to facilitate development including development within the Riverfront Master Plan area as part of mixed use developments and in the Downtown area for mixed use development. Improving the transportation system will allow residents to easily access recreational opportunities at the riverfront. The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection A. Urban Area Development, Goal 3 of the Yamhill County Comprehensive Plan.

C. Alternative Development

The planned unit development (PUD) concept provides a viable alternative to conventional urban development patterns.

Finding: Not applicable this proposal is not a Planned unit development.

E. Housing

"Working Together For A Better Community-Serious About Service"

Z:\MISC\WP5FILES\FILES.G (General File)\G 2019\GEN19-0017 Urban Renewal\Planning Commission\7-22-21\Comp Plan Urban Renewal PC Report Final.doc

GOAL STATEMENT

1. To assure the provisions of safe, sanitary and decent housing for all residents of the county at a reasonable cost.

POLICIES

A. Yamhill County will continue to cooperate with all governments and housing agencies within the region in promoting unified housing policies and action programs as well as an equitable distribution of assisted housing throughout the county.

E. Yamhill County will coordinate its efforts with each city in order to avoid potential conflicts with respect to countywide housing opportunities and demand.

Finding: There are 117 parcels in the Area designated for High Density Residential uses and another 35 parcels designated for Medium Density Residential uses. The utility undergrounding on Second Street will allow for higher density residential uses on this street as TVF&R will be able to service the higher density uses. Most of the funding in the Plan is allocated to transportation and infrastructure. These projects are intended to facilitate development including development within the Riverfront Master Plan area as part of mixed use developments and in the Downtown area for mixed use development. Improving the transportation system such as E First Street, S River Street, S Blaine Street and S Wyooski Street will allow residents to easily access recreational opportunities in the Downtown area at the riverfront. The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection E. Housing, Goal 3 of the Yamhill County Comprehensive Plan.

F. Economic Development

GOAL STATEMENT

1. To maintain a rate and pattern of economic growth sufficient to prevent recurring high levels of unemployment and under-employment in the county, balance the real property tax base of the various cities, and strengthen local economic bases.

POLICIES

A. Yamhill County will, in cooperation with the cities, the local chambers of commerce and affiliated industrial promotion groups, and State agencies concerned with State and regional economic development, encourage a diversified employment base, the strengthening of trade centers, and the attraction of both capital and labor intensive enterprises, consistent with the needs of each community and the county as a whole.

B. Yamhill County will encourage economic development projects which do not conflict with the predominant timber and agricultural character of the county.

C. Yamhill County will ensure citizen participation in economic development planning through the continued involvement of the Yamhill County Economic Development Committee.

D. Yamhill County will develop an Overall Economic Development Program which is consistent with the county comprehensive plan. This program will be outlined in an updated Overall Economic Development Plan which, upon completion, will be incorporated into the economic element of the county comprehensive plan.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. This will provide a strengthening of trade centers, and the attraction of both capital and labor intensive enterprises, consistent with the needs of the community. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. The Riverfront Area is projected to create both construction and permanent jobs. 300 – 400 permeant jobs are anticipated on the former mill site property in addition to employment within the Riverfront commercial and in the Downtown area

The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development.

Citizen participation has been a key component of the planning for this Area. As a base for developing the Plan, the following plans were prepared, all of which had significant public involvement:

Riverfront Master Plan

Downtown Improvement Plan

A NewBERG Vision

Newberg Economic Development Strategy

Newberg Strategic Tourism Plan

Newberg Housing Needs Analysis

Newberg Economic Opportunity Analysis

Urban Renewal Feasibility Study

In addition to these plans, there was extensive citizen involvement in the Plan. The preparation of the Plan was guided by a Citizens Advisory Committee (CAC). The Committee held fourteen meetings to guide preparation of the feasibility study, discuss the boundary, help prioritize the project list, review financial components of the Plan and review the draft Plan and Report. The CAC was comprised of taxing district representatives from Tualatin Valley Fire & Rescue, Newberg School District, Chehalem Park and Recreation District, and the Chehalem Valley Chamber of Commerce, Newberg Downtown Coalition, and five citizen representatives.

Once the feasibility study was completed, it was posted to the Newberg website as well as six videos explaining urban renewal technicalities. A Frequently Asked Questions fact sheet was also posted to the website as well as all documents from the Citizens Advisory Committee.

The City provided two updates to the City Council in televised meetings (Youtube) and three updates

to the Planning Commission. Flyers in English and Spanish were distributed at the Wednesday Farmers' Market and throughout Newberg. Other briefings were provided to the Rotary (2), Kiwanis, and City Club (2).

The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection F. Economic Development, Goal 1 of the Yamhill County Comprehensive Plan.

G. Commercial Development

GOAL STATEMENT

1. To create an environment for commercial development which will preserve and enhance the vitality of the central business districts, assure safer, more convenient and attractive community and neighborhood commercial centers, and protect prime commercial sites for use in advance of need.

POLICIES

E. Highway service and tourist commercial uses catering to the needs of the traveling public will be encouraged to locate within existing urban centers. Traditional central commercial uses will be encouraged to locate or relocate only in existing town centers and the dispersal of such uses to peripheral highway locations will be discouraged.

F. As part of the on-going planning program the county will coordinate with the cities to:

1. Prepare and maintain an inventory of buildable commercial lands; and
2. Work with businessmen and community groups to formulate re-development plans for existing commercial areas.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development including commercial development in the area.

The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development. The Downtown area is a key tourist hub of commercial uses and is within the Plan Area. The City has an inventory of buildable commercial lands as part of its Economic Opportunities Analysis which has obtained County input and been shared with the County. The Urban Renewal Plan also address the redevelopment of the Downtown area with infill development and in the Riverfront Master Plan area supported by infrastructure improvements identified in the Plan.

The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection G. Commercial Development, Goal 1 of the Yamhill County Comprehensive Plan.

H. Industrial Development

GOAL STATEMENT

1. To concentrate industries of similar types, service needs, and performance characteristics within designated areas of each of the existing urban centers; to encourage adequate land for new industrial development within urban growth boundaries; to encourage the relocation of existing industries from undesirable locations in order to eliminate land use conflicts; to attract new industries in accordance with the need to achieve a more balanced local property tax and employment base, while maintaining a high standard of environmental quality; and to protect the stability and functional aspect of industrial areas by protecting them from incompatible uses.

POLICIES

B. To the greatest extent possible, industrial areas will be located within urban growth boundaries. Those industrial areas located outside urban growth boundaries will be compatible with the industrial development goal and will be located where they can be adequately served by necessary major utility lines, including electric power substations and transmission lines, trunk sewer lines, trunk water lines, and where appropriate, trunk gas lines.

D. Industrial uses which are compatible with surrounding residential development and are willing to bear the cost of maintaining high performance characteristics and attractive site and building layout and design, will be encouraged to locate or relocate in designated industrial parks and that such parks and their staged development will be subject to planned unit development agreements.

E. Industrial uses will be located so that adequate buffer space is provided between incompatible land uses.

H. Established industrial areas may be extended and new industrial areas designated by plan amendment where development trends warrant such extension or designation and full urban services are extended into the area, if appropriate, and the extension or designation of land use and services is consistent with all other goals and policies of the comprehensive plan.

I. Industrial development will utilize the transportation system in an efficient and safe manner and reduce energy consumption by identifying for industrial development areas with alternative transportation opportunities, and by locating employment opportunities close to public transportation and, where appropriate, in community areas.

Finding: One of the major goals of the Plan is to develop a diverse and stable economic base. The Riverfront Master Plan area is presently a non-economic use and is blighted. Without the provision of infrastructure, this area will not develop to its full capacity. The Plan will provide transportation and infrastructure projects to encourage new development in the area. Twenty-seven percent of the Area is zoned for industrial uses in the M-2 Light Industrial zone within the Riverfront Master Plan area. This area is within the urban growth boundary in alignment with Policy B. The City of

Newberg has established design standards for industrial development within the Plan Area that mitigates impacts and is in alignment with Policy D. The industrial area within the Riverfront Master Plan provides transitional buffering using different approaches in alignment with Policy E. No extension of industrial areas are proposed within the Plan Area and Policy H is not applicable. The industrial area within the Plan is located within the Newberg urban growth boundary. The City continues to coordinate with the Yamhill County Transit Area on providing alternative access through transit options in alignment with Policy I.

The projects designated for the Downtown area also provide key transportation and infrastructure projects to encourage economic development including rehabilitation of existing structures and new development.

The Plan conforms to Section I Urban Growth and Change and Economic Development Subsection H. Industrial Development, Goal 1 of the Yamhill County Comprehensive Plan.

SECTION II. The Land and Water

A. Agricultural Lands

GOAL STATEMENT

2. To conserve Yamhill County's soil resources in a manner reflecting their suitability for forestry, agriculture and urban development and their sustained use for the purposes designated on the county plan map.

Finding: The Plan is within the urban growth boundary where urban density development is identified to occur. There are no agricultural designated lands within the Plan Area. Focusing development within the urban growth boundary and within the Plan Area aligns with Yamhill County's soils resources by not having urban scale development expanding onto agricultural and forest lands.

The Plan conforms to Section II The Land and Water Subsection A. Agricultural Lands, Goal 2 of the Yamhill County Comprehensive Plan.

C. Water Resources

GOAL STATEMENT

1. To conserve and to manage efficiently our water resources in order to sustain and enhance the quantity and quality of flows for all consumptive and non-consumptive uses and to abate flood, erosion and sedimentation problems.

Finding: The Plan Area will be served by a municipal water system operated by the City of Newberg. Newberg's water source is well fields located in Marion County across the Willamette River. The City's Water Treatment Plant is located just outside of the Plan Area in its southeast corner. The Plan Area encompasses lands that are within a flood area and the Willamette River Greenway. The City has

overlay provisions for these area to protect them from development and conserve the areas.

The Plan conforms to Section II The Land and Water Subsection C. Water Resources, Goal 1 of the Yamhill County Comprehensive Plan.

E. Open Space

GOAL STATEMENT

1. To insure the continuance of the open space character that has always existed in Yamhill County.

POLICIES

A. Yamhill County will cooperate with all governmental and recreation agencies within the region to identify open space and scenic resources, to determine resident and non-resident recreation needs, and to formulate and implement measures for open space preservation and use.

GOAL STATEMENT

2. To preserve and improve potential recreational and other open spaces in both urban and rural environments for all to enjoy.

POLICIES

A. Yamhill County will seek to establish a permanent county open space net; increased public access to areas of prime recreational significance; the development of additional water-based recreational opportunities; and continuity of scenic views, buffer areas, wildlife and natural habitat and associated natural environments.

Finding (Goals 1 and 2): The goals of the adopted *Newberg Riverfront Master Plan* support and will help implement the goals and policies of Yamhill County. The specific goals are:

- A. Provide a mix of land uses: public, residential, commercial/mixed use, and industrial.
- B. Plan for a multi-modal transportation network to provide access and connections to the rest of the city, especially Downtown Newberg.
- C. Preserve open space and incorporate natural features as part of the riverfront's strong sense of place.
- D. Honor the long history of waterfront industry at this location.
- E. Provide an open and transparent planning process.
- F. Engage a diverse group of stakeholders throughout the planning process.
- G. Create a plan that works for community members of all ages, abilities, and cultural backgrounds.

The projects identified in the Plan for the waterfront area were identified in the *Newberg Riverfront Master Plan* and include trails and the development of the esplanade facilitating recreational uses for all citizens of Newberg and Yamhill County.

The Plan conforms to Section II The Land and Water Subsection E. Open Space Goals 1 and 2 of the Yamhill County Comprehensive Plan.

G. Ecologically and Scientifically Significant Natural Areas

GOAL STATEMENT

To protect land and water areas that have substantially retained their natural character and land and water areas that, although altered in character, are important as habitat for plant, animal or marine life, for the study of natural historical, scientific, or paleontological features or for the appreciation of their natural features.

Finding: The Plan area includes frontage along the Willamette River. This area is identified to be retained as park and open spaces that maintains as much of the natural character as possible. The former Newberg Landfill and Rogers landing Park are within the Plan boundaries. Between these two areas the Riverfront Master Plan identifies keeping it as open space that can be viewed from the esplanade at the top of the bluff. This will preserve the habitat for plant, animal or marine life.

The Plan conforms to Section II The Land and Water Subsection G. Ecologically and Scientifically Significant Natural Areas of the Yamhill County Comprehensive Plan.

I. Historic Areas, Sites, Structures and Objects and Cultural Areas

GOAL STATEMENT

1. To protect sites, structures and objects that have local, regional, statewide, or national historical significance, and areas characterized by evidence of an ethnic, religious or social group with distinctive traits, beliefs, and social forms, for future generations.

J. Potential and Approved Federal Wild and Scenic Waterways and State Scenic Waterways

GOAL STATEMENT

1. To protect approved federal wild and scenic waterways and state scenic waterways, and to coordinate with state and federal agencies studying potential federal wild and scenic waterways and state scenic waterways.

Finding: The Willamette River Greenway is located within the Plan boundaries. This area is protected as a Goal 5 Resource by the Newberg Comprehensive Plan. The area has a Stream Corridor designation which limits development activities. The proposed esplanade in the Plan is located just outside this designated area but will provide for recreational viewing opportunities to the Willamette River and French Prairie located south of the river in Marion County.

The Plan conforms to Section II The Land and Water Subsection H. Historic Areas, Sites, Structures and Objects and Cultural Areas of the Yamhill County Comprehensive Plan.

SECTION III. Transportation, Communications and Public Utilities

A. Transportation

GOAL STATEMENT

1. To provide and encourage an efficient, safe, convenient and economic transportation and communication system, including road, rail, waterways, public transit and air, to serve the needs of existing and projected urban and rural development within the county, as well as to accommodate the regional movement of people and goods and the transfer of energy, recognizing the economic, social and energy impacts of the various modes of transportation.

POLICIES

A. Yamhill County will encourage the establishment of a transportation system supportive of a geographically distributed and diversified industrial economy for the county including coordination with all city comprehensive plans.

B. All transportation-related decisions will be made in consideration of land use impacts including but not limited to adjacent land use patterns, both existing and planned, and their designated uses and densities.

D. Yamhill County will, in cooperation with the State Highway Division and the cities of the county, establish a comprehensive list of recommended road improvements throughout the county, establish a suitable review mechanism for arriving at and amending priorities on a continuing basis and work towards the creation of an on-going capital improvement program closely coordinated with all agencies of government responsible, including cities for road location, construction, finance and maintenance.

I. Yamhill County will encourage bicycle and pedestrian traffic as an element of the transportation system by coordinating with the cities within the county to develop an integrated system of safe and convenient bicycle and pedestrian ways to complement other modes of transportation.

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront Master Plan area and Downtown area. The projects will implement portions of the *City of Newberg Comprehensive Plan*, *City of Newberg Transportation System Plan*, and are therefore in conformance with the Newberg Comprehensive Plan. Some of the projects are designated in the *Riverfront Master Plan* and the *Downtown Improvement Plan*. These projects will comply with the City's policies and development standards. These projects will help the County implement Policy A to coordinate with cities and Policy I to encourage bicycle and pedestrian ways to complement other modes of transportation. The Plan conforms with Section III. Transportation, Communications and Public Utilities Subsection A. Transportation, Goal 1 of the Yamhill County Comprehensive Plan.

SECTION IV. Public Land, Facilities, and Services

A. Public Facilities and Services

"Working Together For A Better Community-Serious About Service"

Z:\MISC\WP5FILES\FILES.G (General File)\G 2019\GEN19-0017 Urban Renewal\Planning Commission\7-22-21\Comp Plan Urban Renewal PC Report Final.doc

GOAL STATEMENT

1. To develop a timely, orderly and efficient arrangement of public services and facilities to serve as a framework for urban and rural development, including public lands and buildings, parks and recreation areas and facilities, schools, police and fire protection, domestic water supply, sanitary and storm sewerage and other drainage facilities, and power, gas and telephone services.

POLICIES

A. Yamhill County will coordinate with the cities within its jurisdiction to provide an orderly phasing of water, sanitary sewerage, storm drainage and other public services and facilities within the urban growth boundaries.

Q. The development of sanitary sewerage systems will be supported where such systems conform to all applicable federal and state standards pertinent to the collection, treatment, and final disposal of effluent; support will be given for the continued separation of sanitary and stormwater collection systems and the development of correction programs to reduce ground and surface water infiltration; support will be given for the separation and disposal of industrial wastes which differ significantly from normal domestic sewage in strength or composition, or which contain significant quantities of grease, chemicals or suspended metals; and the planning management criteria enunciated for domestic water systems should be applied with equal consideration to sanitary sewerage systems.

Finding: There are numerous infrastructure projects in the Plan. These projects are intended to develop a timely, orderly and efficient arrangement of public facilities in the Area. They will supply infrastructure to unincorporated areas that are also in the UGB that will allow them to annex into the city and provide needed jobs and economic activity. The Plan conforms with Section IV. Public Land, Facilities and Services Subsection A. Public Facilities and Services, Goal 1 of the Yamhill County Comprehensive Plan.

B. Parks and Recreation

GOAL STATEMENT

1. To provide adequate recreational opportunities in both the rural and urban environments to meet existing and projected needs.

POLICIES

A. Yamhill County will cooperate with all governments and recreation agencies within the region to identify recreation, open space, and scenic resources; determine resident and nonresident needs and formulate and implement measures for providing recreation services.

D. Yamhill County will encourage the location of urban parks in scenic areas which are easily accessible to much of the urban population and which can be developed to provide recreation opportunities for a variety of age and interest groups.

G. Yamhill County will promote the development of an integrated bicycle and pedestrian trail system to provide recreational opportunities and to link open space, Yamhill County communities and park

areas.

I. Yamhill County will encourage cooperation among government agencies to increase recreation opportunities, programs and facilities for county residents, and will explore the possibilities of providing recreation programs for the small towns and rural areas of the county.

Finding: The goals of the adopted *Newberg Riverfront Master Plan* support and will help implement the goals and policies of Yamhill County. The specific goals are:

- A. Provide a mix of land uses: public, residential, commercial/mixed use, and industrial.
- B. Plan for a multi-modal transportation network to provide access and connections to the rest of the city, especially Downtown Newberg.
- C. Preserve open space and incorporate natural features as part of the Riverfronts strong sense of place.
- D. Honor the long history of waterfront industry at this location.
- E. Provide an open and transparent planning process.
- F. Engage a diverse group of stakeholders throughout the planning process.
- G. Create a plan that works for community members of all ages, abilities, and cultural backgrounds.

The projects identified in the Plan for the Riverfront area were identified in the *Newberg Riverfront Master Plan* and include trails and the development of the esplanade facilitating recreational uses for all citizens of Newberg and Yamhill County. A large expanse of the Riverfront area within the Plan is identified to be park and open space stretching from Chehalem Creek on its western border to Rogers Landing Park. From Rogers Landing Park east the steep slope is part of the Willamette River Greenway and will be left undisturbed except for the possibility of future trails. The Newberg-Dundee Bypass Trail is also a part of the Plan. This would connect the missing section between S River Street and E Weatherly Way enhancing the bicycle and pedestrian trail system. These projects help implement the County Policies A, D, G and I above. The Plan conforms with Section IV. Public Land, Facilities and Services Subsection A. Public Facilities and Services, Goal 1 of the Yamhill County Comprehensive Plan.

C. Willamette Greenway

GOAL STATEMENT

1. To protect, conserve, enhance and maintain the natural, scenic, historical, agricultural, economic and recreational qualities of lands along the Willamette River.

Finding: There are specific projects within the Plan that will provide for the development of an esplanade and new trails providing additional recreational opportunities in the Riverfront area. These

projects will help implement the Willamette Greenway Goal Statement. The Plan conforms with Section IV. Public Land, Facilities and Services Goal 1. Willamette River Greenway of the Yamhill County Comprehensive Plan.

SECTION V. Environmental Quality

A. Air, Water and Land Resources Quality

GOAL STATEMENT

1. To conserve and to protect natural resources, including air, water, soil and vegetation and wildlife, from pollution or deterioration which would dangerously alter the ecological balance, be detrimental to human health, or compromise the beauty and tranquility of the natural environment.

GOAL STATEMENT

2. To preserve and enhance the charm and amenity values of the county, while accommodating change, through ensuring harmony between urban development and the natural environment, at the same time cultivating more attractive urban environments in which to live, work and play.

Finding (Goals 1 and 2): Development of the Riverfront area and Downtown area is a key goal of the Plan. This development will provide new industry to Newberg. This new industry will comply with the provisions of the Newberg Comprehensive Plan including Chapter 4 Open Space, Scenic Natural, Historic and Recreational resources. All new development will comply with the requirements of the City of Newberg to protect these resources.

There are specific projects within the Plan that will provide for the development of an esplanade and new trails in the Riverfront area. Providing new development within the urban growth boundary and providing more attractive environments in which to live, work and play in this Area will help the County implement the Air, Water, and Land Resource goal for the county as a whole. The Plan conforms with Section V. Environmental Quality Subsection A. Air, Water and Land Resources Quality, Goal 1 and 2 of the Yamhill County Comprehensive Plan.

SECTION VII. Implementation, Evaluation, and Review

A. Citizen Involvement

POLICY

A. Yamhill County will continue to implement an ongoing citizen involvement program that provides county residents opportunity to be involved in all phases of the planning process.

Finding: The preparation of the Plan was guided by a Citizens Advisory Committee (CAC). The Committee held fourteen meetings to guide preparation of the feasibility study, discuss the boundary, help prioritize the project list, review financial components of the Plan and review the draft Plan and Report. The CAC was comprised of taxing district representatives from Tualatin Valley Fire & Rescue, Newberg School District, Chehalem Park and Recreation District, and the Chehalem Valley Chamber of Commerce, Newberg Downtown Coalition, and five citizen representatives.

Once the feasibility study was completed, it was posted to the Newberg website as well as six videos explaining urban renewal technicalities. A Frequently Asked Questions fact sheet was also posted to the website as well as all documents from the Citizens Advisory Committee.

The City provided two updates to the City Council in televised meetings (Youtube) and three updates to the Planning Commission. Flyers in English and Spanish were distributed at the Wednesday Farmers' Market and throughout Newberg. Other briefings were provided to the Rotary (2), Kiwanis, and City Club (2).

The Plan itself is based on the numerous planning documents prepared in the City of Newberg all of which were thoroughly reviewed by the citizens of Newberg. These documents include *City of Newberg Riverfront Master Plan*, *City of Newberg Downtown Improvement Plan*, *A NewBERG Community Vision*, *the Newberg Comprehensive Plan*, *Stormwater Master Plan*, *Water Master Plan*, *Wastewater Master Plan*, *Transportation Systems Plan*, and *the Newberg Economic Development Strategy*.

The City briefed the County on the Plan on May 27, 2021, June 17, 2021, July 1, 2021 and July 29, 2021.. These were open public meetings which were also televised.

Finding: The Plan conforms with Section VII. Implementation, Evaluation, and Review Subsection A. Citizen Involvement, Policy A of the Yamhill County Comprehensive Plan.

Conclusion: Based on the above-mentioned findings, the request meets goals and policies within the Yamhill County Comprehensive Plan.

I. Yamhill County Transportation System Plan, DKS, adopted by Ordinance 895 November 5, 2015

Goal 1: Provide for Efficient and Convenient Motor Vehicle Travel

Goal 2: Provide for the Safety of All Transportation Modes

Goal 3: Provide an Equitable, Balanced and Connected Multi-modal

Transportation System

Objective 1: Provide adequate facilities for all transportation modes.

Objective 2: Distribute the benefits and impacts of transportation decisions fairly and address the transportation needs and safety of all users, including the young, elderly, people with disabilities, and people of all races, ethnicities, and income levels.

Objective 3: Provide connections to all modes that meet applicable County and Americans with Disabilities Act (ADA) standards.

Goal 4: Increase the Quality and Availability of Pedestrian and Bicycle Facilities Objective 1: Improve bicycle and pedestrian facilities.

Goal 6: Manage the Transportation System to Support a Prosperous and Competitive Economy Objective 1: Enhance access to major employment and industrial locations.

Goal 7: Provide Transportation Facilities and Services that are Fiscally Responsible and Economically Feasible

Objective 2: Identify and develop diverse and stable funding sources to implement recommended projects in a timely fashion and ensure sustained funding for road maintenance and transportation improvement projects.

Goal 8: Provide a Transportation System that Conserves Energy and Protects and Improves the Environment

Objective 1: Minimize impacts to preserve the natural, scenic, and cultural resources in the County.

Objective 2: Minimize land use impacts.

Goal 9: Coordinate with Local and State Agencies and Transportation Plans

Objective 2: Coordinate with local agency transportation system plans for communities within Yamhill County.

Objective 4: Coordinate with local agencies and entities within Yamhill County including major employers, incorporated and unincorporated communities, and other stakeholders or groups, as appropriate, on transportation issues involving these entities.

Finding: There are numerous transportation projects, including non-auto oriented projects in the Plan in both the Riverfront Master Plan area and Downtown area. The projects will implement portions of the *City of Newberg Comprehensive Plan*, *City of Newberg Transportation System Plan*, and are therefore in conformance with the Newberg Comprehensive Plan. Some of the projects are designated in the *Riverfront Master Plan* and the *Downtown Improvement Plan*. These projects will comply with the City's policies and development standards.

These projects will provide multi-modal transportation networks including pedestrian and bicycle systems along with major street construction and reconstruction that will provide for future economic activity and increased jobs in the community. These projects and resulting economic activity will help Yamhill County implement the Yamhill County Transportation Systems Plan Goal 1: Provide for Efficient and Convenient Motor Vehicle Travel, Goal 2: Provide for the Safety of All Transportation Modes, Goal 3: Provide an Equitable, Balanced and Connected Multi-modal Transportation System, Goal 4: Increase the Quality and Availability of Pedestrian and Bicycle Facilities, Goal 6: Manage the Transportation System to Support a Prosperous and Competitive Economy, Goal 7: Provide Transportation Facilities and Services that are Fiscally Responsible and Economically Feasible, Goal 8: Provide a Transportation System that Conserves Energy and Protects and Improves the Environment, and Goal 9: Coordinate with Local and State Agencies and Transportation Plans.

Conclusion: Based on the above-mentioned findings, the request meets goals and objectives within the Yamhill County Transportation System Plan.

J. GROW YAMHILL COUNTY – Yamhill County Economic Development Plan, 2013

SWOT

Weaknesses

- Lack of major employers and industrial activity
- Limited employment opportunities
- Insufficient water distribution systems to accommodate provide adequate fire flows for business expansion or development in some communities
- Infrastructure challenges in most communities making it difficult to support or attract business growth.
- Insufficient commercial or industrial land
- Available land not meeting requirements for companies to locate/not suitable for development

Opportunities

- Potential manufacturing resurgence
- Upgrades to commercial areas and downtowns to develop for wine/tourism and retail—downtown improvement projects
- Proposed wastewater treatment and other infrastructure updates

Threats

- Lack of ready-to-build industrial and commercial sites to diversify employer base
- Lack of resources to address multitude of infrastructure issues
- Lack of resources for development

Key Findings

- Manufacturing is critical to the economy. The County has a great strength in the diversity of its manufacturing companies. There are external threats related to the sustainability of a strong manufacturing cluster, but there are also local supports that can be promoted to ensure that the companies located in the County are diverse and focused on high-demand or niche markets.
- Infrastructure issues play a major role in limiting economic development in Yamhill County. Infrastructure includes roads, bridges, railways, access to interstates, highways, and air service, inadequate water systems, available public services, etc. The Mid-Willamette Regional Economic Development Strategy identifies technical and community assistance projects for Yamhill County—most of which are infrastructure related. These issues can be prioritized and resources sought to address them in order to create more accessibility to business growth.

Research Conclusions

The economic development gaps described in the findings above must be closed. These gaps include:

- Infrastructure issues
- Lack of available industrial-zoned land

"Working Together For A Better Community-Serious About Service"

Z:\MISC\WPSFILES\FILES.G (General File)\G 2019\GEN19-0017 Urban Renewal\Planning Commission\7-22-21\Comp Plan Urban Renewal PC Report Final.doc

- Ongoing support of primary jobs and manufacturing
- Unemployment
- Limited skilled workers
- Lower wages than surrounding areas
- Alternatives to reliance on wine-centered tourism

Mission

Implementation of the Yamhill County Economic Development Plan will direct and prioritize the actions and resource allocations necessary to realize business growth, job retention and creation, and enhanced well-being for all individuals and communities.

Vision

The Yamhill County Economic Development Plan will contribute to the development of thriving, vibrant communities where people live, learn, work, shop and play; and will foster sustainability of a dynamic environment in which business and industry prosper.

Strategies

Strategy 1:

- Create Communities Ready to Receive Business

Strategy 2:

- Retain, Expand and Recruit Business

Strategy 3:

- Identify and Commit Resources that Will Invest in Yamhill County Economic Development

Strategy 4:

- Develop and Support Vibrant Communities

ACTION PLAN

Strategy 1: Create Communities Ready to Receive Business

Goals (The “What”)	Objectives (The “How”)
1.1 Understand the infrastructure issues and other economic development obstacles facing our communities	1.1.1 Catalogue infrastructure and other obstacles and issues creating economic development challenges. 1.1.2 Identify current infrastructure and other projects that will remove barriers to economic development. 1.1.3 Package the information in 1.1.1 and 1.1.2.
1.2 Inform our communities about solutions and resources to overcome infrastructure and other economic development obstacles.	1.2.1 Identify resources to address economic development obstacles. 1.2.2 Determine the best method(s) to communicate the knowledge gained in Goal 1.1 to key stakeholders. 1.2.3 Communicate the information to key stakeholders.

	1.2.4 Support communities in making improvements that will better attract business.
--	---

Strategy 3: Identify and Commit Resources that Will Invest in Yamhill County
Economic Development

Goals (The “What”)	Objectives (The “How”)
3.1 Identify and build a Toolbox of available business and community resources.	<p>3.1.1 Coordinate with resource partners (local, regional, state partners; workforce development, economic development, community action groups)</p> <p>3.1.2 Identify potential financial assistance (grants, foundations, loans, community growth programs, government assistance, partner agencies, private funding)</p> <p>3.1.3 Identify potential resources for human development (low-cost/no-cost training, development opportunities, education and skills development, high performance)</p> <p>3.1.4 Develop process for investing Video Lottery Fund.</p>

Finding: The Yamhill County Economic Development Plan includes a Strengths/Weaknesses /Opportunities/Threats (SWOT) analysis. The Plan identifies a series of issues noted below:

Weaknesses

- Lack of major employers and industrial activity
- Insufficient water distribution systems to accommodate provide adequate fire flows for business expansion or development in some communities
- Infrastructure challenges in most communities making it difficult to support or attract business growth
- Available land not meeting requirements for companies to locate/not suitable for development

Opportunities

- Upgrades to commercial areas and downtowns to develop for wine/tourism and retail—downtown improvement projects

Threats

- Lack of ready-to-build industrial and commercial sites to diversify employer base
- Lack of resources to address multitude of infrastructure issues
- Lack of resources for development

The Newberg Urban Renewal Plan (Plan) directly addresses the SWOT analysis. The focus of the Plan is it address infrastructure deficiency for both industrial and commercial lands for water distribution, wastewater, stormwater and transportation. Addressing these issues will position Newberg to attract major employers in the Riverfront Master Plan area and these types of industrial companies focus on lands that meets their site selection requirements to be as shovel ready as possible for their financial investments. In the Downtown area the transportation and water improvements will upgrade the area for infill development that has been identified in the Downtown Improvement Plan. The Riverfront and Downtown areas do not have ready to build sites because of the lack of sufficient infrastructure. Overall there is a lack of resources to address these infrastructure issues and the urban renewal program is a State Statute authorized program to directly address the infrastructure issues identified in the Newberg Urban Renewal Plan.

The Yamhill County Economic Development Plan identifies as key findings that manufacturing is critical. Additionally, that infrastructure plays a major role in limiting economic development. The Newberg Urban Renewal Plan directly addresses these findings identifying that manufacturing in the Riverfront area, on the former mill site, with redevelopment opportunities for new industrial uses, but the area has insufficient infrastructure to support this redevelopment.

Under the Research Conclusions section of the Yamhill County Economic Development Plan gaps were identified for:

- Infrastructure issues
- Lack of available industrial-zoned land
- Ongoing support of primary jobs and manufacturing
- Unemployment
- Limited skilled workers
- Lower wages than surrounding areas
- Alternatives to reliance on wine-centered tourism

The Newberg Urban Renewal Plan directly responds to several of these gaps for infrastructure, lack of available industrially zoned land (redevelopment of existing industrial land) rather than expanding the Urban Growth Boundary, and lower wages by attracting new industrial development through redeveloping prior developed land that was outside of the City of Newberg but within the Urban Growth Boundary.

The Yamhill County Economic Development Plan includes a statement for the Mission and Vision. The Newberg Urban Renewal Plan directly responds to the Mission component of allocation of resources for positioning for business growth, and job creation which enhance the well-being for residents of Newberg and Yamhill County. For the Vision the Newberg Urban Renewal Plan advances it by contributing to the development of a thriving, vibrant community where people live, learn, work, shop and play; and will foster sustainability of a dynamic environment in which business and industry prosper. This is achieved by investing in the identified infrastructure in the Newberg Urban Renewal Plan.

The Yamhill County Economic Development Plan identifies Strategies. The Newberg Urban

Renewal Plan responds to the Strategies. For Strategy 1: Create Communities Ready to Receive Business, Goal 1.1, through a full analysis of the infrastructure issues and other economic development obstacles facing Newberg in the Plan Area. The Plan additionally responds to Goal 1.2 Inform our communities about solutions and resources to overcome infrastructure and other economic development obstacles by identifying ORS 457 as a tool to respond to the infrastructure and blight issues identified in the Plan Area.

Strategy 3: Identify and Commit Resources that Will Invest in Yamhill County Economic Development, Goal 3.1, is achieved by furthering Objective 3.1.2 Identify potential financial assistance (grants, foundations, loans, community growth programs, government assistance, partner agencies, private funding). This is achieved by the Yamhill County partnering with Newberg in approving the urban renewal plan and providing government assistance to fund the infrastructure deficiencies identified to attract and retain existing businesses for economic prosperity for Newberg and all of Yamhill County.

The Plan conforms with the Yamhill County Economic Development Plan.

Conclusion: Based on the above-mentioned findings, the request conforms with Grow Yamhill County – Yamhill County Economic Development Plan.

Attachment 2: Community Support Letters

“Working Together For A Better Community-Serious About Service”

Z:\MISC\WPSFILES\FILES.G (General File)\G 2019\GEN19-0017 Urban Renewal\Planning Commission\7-22-21\Comp Plan Urban Renewal PC Report Final.doc

June 7, 2021

To Whom it May Concern,

We, the Chehalem Valley Chamber of Commerce, are submitting this letter of support for the City of Newberg's Urban Renewal District Plan. By definition, Urban Renewal is a development tool used by local government to revitalize areas which need investment to, in turn, stimulate private development – the City of Newberg, through regular Urban Renewal committee meetings and presentations have displayed the need for use of this tool. Members of our Chamber of Commerce have attended these regular meetings and have been well-informed of the benefits which the project's success will bring to the city.

Private investment will bring increased opportunities for employment, housing development, and growth of related services – all of which have positive short-term as well as long-term impacts on the local economy. Included in the project are plans to revitalize critical areas of Newberg's downtown core and transform a blighted mill area into a thriving network of businesses and residential spaces. Our fellow community members, Newberg Downtown Coalition, Downtown Wineries Association and the Chehalem Valley Innovation Accelerator all agree that this project is the perfect catalyst to both improve the city for residents and create a vibrant, connected community which will attract innovative and aspiring new businesses to our city.

Integral to this project is that local residents will not see an increase in property taxes – which is essential as our communities recover from the economic travesty of global pandemic. With public investment being used to improve the conditions for private investment to occur, a cycle can begin which sees manageable development costs inspire new homes, businesses, and access public spaces (esplanades, park spaces, waterfront trails to neighboring communities), to be constructed. We whole-heartedly support the increased economic vitality, livability, and environmental sustainability proposed initially through the Downtown Improvement Plan, the Riverfront Masterplan, the Newberg Economic Development Strategy and finally expressed through their Urban Renewal Plan.

Please add our voice to the chorus of those who believe in the project.

Sincerely,

A handwritten signature in black ink, appearing to read "Joshua Duder". The signature is fluid and stylized, with a long horizontal stroke extending to the right.

Joshua Duder

May 25, 2021

Newberg Downtown Coalition
210 N. Blaine Street
Newberg, OR 97132

To Whom it may concern:

I write to express my strong support for Newberg's Urban Renewal Plan. It is a plan that brings the potential for more jobs, more housing, and implementation of a long-time vision of a revitalization of Newberg's downtown core. It has been carefully crafted, is well-rounded, is consistent with visioning plans developed over the last several years, and has the support of all major agencies and stakeholders: Newberg Public Schools, Tualatin Valley Fire and Rescue, Chehalem Parks and Recreation Department, The Chehalem Valley Chamber of Commerce and us, the Newberg Downtown Coalition.

Specifically relevant to downtown Newberg, the plan includes a First Street Road Diet and the undergrounding of the utilities on Second Street. Both of these will improve the walkability of the downtown core as well as increase the potential for downtown vertical housing. Specifically, the utility undergrounding on Second Street will allow for upstairs residences not possible with the current above-ground power lines.

The Newberg Downtown Coalition, through physical improvements, events and promotions, is helping to make downtown Newberg into a destination that enriches the lives of those who visit and live here. As its Executive Director, I see that the Urban Renewal Plan will improve livability and pedestrian safety in the downtown core and increase business to local restaurants, shops, and merchants -- the downtown core, which the Newberg Downtown Association supports.

I strongly urge the approval of this request.

Sincerely,

A handwritten signature in black ink that reads "Polly Peterson". The signature is written in a cursive style with a large, looping "P" and "T".

Newberg City Council
P.O. Box 970
Newberg, OR 97132

RE: Newberg Urban Renewal District

Dear City Council Members,

I am writing this letter in support of the Newberg Urban Renewal District. For many years the Newberg Riverfront has been used mainly for launching boats and other water craft. The Willamette River has always been one of the jewels of Oregon. As Newberg and the surrounding area continue to grow it will be important to develop recreational opportunities everyone in the community can use and enjoy.

The potential to redevelop and reimagine what was historically a large heavy industrial use at the former mill site into something accessible to the whole community is something that doesn't occur very often. The Urban Renewal District will be vital in helping develop the infrastructure (transportation, water, wastewater, and stormwater systems) required to make the area a redevelopment success.

While the recreational opportunities are one important piece the others are jobs and housing. As a growing community it is important to provide good jobs and affordable housing to residents. The combination of these two things will ultimately help keep Newberg a great place to live, play and raise a family.

Sincerely,
Gary T. Baker

Mayor and City Council
City of Newberg
PO Box 970
Newberg, Oregon 97140

Dear Mayor and Councilors:

As owner of the former WestRock mill at 1301 Wynooski Road, Newberg LLC supports Newberg's Urban Renewal Plan and related Urban Renewal District (URD). We work closely with the City on the critical role the URD will play in redevelopment of WestRock. We recognize its positive impacts on infrastructure investments and job creation. The regional benefit will also be positive by attracting hundreds of millions of dollars of private investment that bring living-wage jobs to this strategic industrial site.

In addition to 100 acres of industrial redevelopment, the URD will provide public access to existing and new parks and trails along the Willamette River, as described in the City's Riverfront Master Plan. The 600 acres included in the URD will help implement the community's vision and bring positive benefits to downtown businesses, local citizens, and visitors to Yamhill County.

The \$95.5 million URD investment in roads, water, wastewater and walking trails will bring jobs closer to home, a priority for residents. This visionary plan will bring prosperity to Yamhill County as residents and businesses emerge and recover from the pandemic.

We appreciate Newberg officials' vision and leadership and look forward to working together to build an even more vibrant and dynamic community and region.

Yours truly,

A handwritten signature in cursive script, appearing to read "Steve Collins".

Stephen R. Collins CCIM

Newberg, Oregon 97140

To Whom It May Concern:

The Chehalem Valley Innovation Accelerator (ChehalemVIA) fully supports the City of Newberg's Urban Renewal District Plan. Urban renewal is routinely used to improve and revitalize areas within a city. It allows local governments to focus investments on a particular area to encourage public and private development. In this case, Newberg's proposed Urban Renewal District would encompass 600 acres with a planned \$95.5M in infrastructure investment over 30 years (roads, water, wastewater, stormwater, rail crossing improvements, trails). This investment will provide hundreds of job opportunities for city residents, providing up to 1.5M square feet of industrial/mixed employment building space and approximately 339 new residential units (227 medium density, 67 High Density, 45 mixed use).

This plan is the culmination of years of planning and includes elements from comprehensive studies including:

- A NewBERG Community Vision (2019) for enhancing Economic Development, and Livability & Development
- Newberg Economic Development Strategy (2016/Updated 2019)
- Riverfront Master Plan (2019)
- Downtown Improvement Plan (2016) and its 10 Big Ideas
- Newberg Strategic Tourism Plan (2016)

Providing industrial, commercial, and residential properties to scale a balanced, growing economy is the primary goal of this effort. It will also promote diversity and equity in our communities. A diverse offering of business and residential resources attracts a diverse workforce and population, with Newberg as its nexus. And those of us with experience in startups and growing businesses understand that diversity in the workforce and its supporting community pay large dividends when it comes to business success.

The key to balanced economic and community capacity expansion is infrastructure. Without infrastructure, businesses will not have the buildings/facilities needed to move-in and expand. And without a mix of residential offerings, the workforce won't be local. This plan will implement improvements including roads and associated underground infrastructure, esplanades, parks, and pedestrian spaces, wastewater and water lines,

Page 1 of 2

WWW.CHEHALEMVIA.COM

transportation improvements, and so on. These improvements range from the south side of the city and the old mill site to the city core and its surroundings. As delineated in the plan and related planning documents, consideration is given to environment protections as well as lifestyle considerations.

The key to successful urban renewal is balanced business expansion. Through tax increment financing, the city will be able to direct property taxes generated from new businesses to specific areas, which will open new business recruitment opportunities. This creates a long-term cascading expansion effect as new businesses become established. Incoming businesses establish themselves, then provide the tax-base and financing to open areas to more new businesses – providing the needed commercial/industrial facilities. Effectively, it relieves the taxpayer of the burden of financing economic expansion and places that responsibility on businesses at a rate that is sustainable. More importantly, it provides an incentive for local businesses to recruit complementary businesses, building a robust regional supply chain within our various industries.

ChehalemVIA and its volunteers and supporters have spent the past 5 years trying to foster this kind of business development and economic expansion. It's hard work. And it's frustrating to work with startups and entrepreneurs, only to have them relocate to a different city because Newberg doesn't have the capacity to provide facilities locally. That's why we wholeheartedly support the City of Newberg's Urban Renewal District Plan.

Please let me know if you have questions or how ChehalemVIA can further support this important initiative.

Sincerely,

Carr Biggerstaff
Chief Wrangler
Chehalem Valley Innovation Accelerator

About the Chehalem Valley Innovation Accelerator: ChehalemVIA was established by the local community in 2016 and is one of the first two rural accelerators in the state of Oregon. Staffed by volunteer businesspeople and funded by community contributions, the purpose of the accelerator is to foster entrepreneurship, expand the diversity of local businesses, and support the development of a skilled, and talented workforce.

To whom it may concern:

On behalf of the Newberg Downtown Wineries, I am writing in support of the Urban Renewal initiative from a downtown business perspective.

Urban renewal has proven successful in reinvigorating communities across Oregon. In Newberg, it also aims to create better road connectivity across the city, improve bicycle and pedestrian safety, and update some downtown streets and storefronts.

The outcome will be a city that is more enjoyable and accessible for community and family activities. It will bring new investment, jobs and housing where it is needed and position us squarely as an outstanding destination for locals and visitors.

An attractive and vibrant downtown will also attract more businesses and enhance our appeal as a destination with visitors and locals alike, keeping all-important revenues circulating within our city.

The funds for this project will not come from a property tax increase, nor will it be diverted from our schools.

Please consider supporting our much-needed Urban Renewal. We encourage you to visit the City of Newberg's website for further information.

Sincere regards,

Sincerely,

Sheila Nicholas

Newberg City Council
PO Box 970
Newberg, OR 97140

Dear Mayor and Councilors,

The Friendsview Community wishes to register our support for the Newberg Urban Renewal Plan and Report and corresponding Urban Renewal District (URD). Thanks to Doug Rux, Newberg Community Development Director, we have become more familiar with the URD process. We recognize that the URD is a useful tool utilized by many communities within our state to fund investment and revitalization of communities.

We support the need to create new industrial jobs to replace the jobs vacated by the paper mill with its closure in 2016. We can see how refocusing of investments in this 600-acre URD can bring about this and other benefits to the downtown area.

The plans to create new homes will be of great benefit to Friendsview. We have suffered for several years with the inability to recruit and house beginning wage employees. The focus on high to medium density housing in the Riverfront and downtown areas of the URD should benefit Friendsview and other health care businesses in town.

The added focus on the downtown area will benefit Friendsview too. Our residents need walkable pathways between our community and the downtown. Walkable paths within the downtown will benefit our community members and the businesses they will visit.

Friendsview is pleased to see the focus on diversity, equity and inclusion. We understand that when we include all, all will succeed and benefit. We need what a diverse Newberg can bring.

Thank you for your continued work to make Newberg a better place, now and in the future!

Sincerely,

Todd Engle
Executive Director

Newberg City Council
Mayor Rick Rogers
cc: Doug Rux, Community Development Director

Council Members and Mayor Rogers,

As a citizen and local business owner, I am writing in my enthusiastic support of Newberg's proposed Urban Renewal Area (URA).

The transformative nature of URA's in Storefront and Streetscape improvements, public facilities, and to assist with development infrastructure has been a proven boon to other Oregon communities, and across America as a whole.

This is an opportunity for City Council to approve a bold investment in our community that will have a generation impact, and I thank you for your serious consideration in approving the Urban Renewal program.

RE: Newberg Urban Renewal Plan

Newberg is a unique case when it comes to urban renewal and tax increment financing and I would urge your support for this important initiative.

As someone who has been involved with the creation of an Urban Renewal District in another Oregon city, and experience with seeing how they work in a number of smaller towns across the Willamette Valley, I can wholeheartedly say the way Newberg has initiated this current proposal follows all of the best practices.

For almost two years the city has worked with volunteers and experienced staff to analyze the need, look at boundaries and prioritize project lists more than any other government agency I have seen. The development process, while impacted by the COVID-19 outbreak, the City of Newberg has done an amazing job reaching out to impacted agencies, doing citizen outreach and using creative ways to communicate with the community at large.

Of all the modern urban renewal districts I have seen, Newberg fits the definition more than most. Whenever you discuss urban renewal and Tax Increment Financing, one of the definitions is "blight." Many cities make the argument that farm fields are "blighted" because they are not being used to their highest and best use. In the case of Newberg, the blight definition isn't about developing unused land, but reclaiming two sites in the Riverfront area that wouldn't be developed without some sort of incentive. First you have the abandoned mill property, which by any definition, would be considered blighted. Simply ask the neighbors what it's like living next to that site. In addition, the plan also covers redeveloping the shuttered landfill. This is another great argument that the Newberg Urban Renewal Plan meets all legal definitions.

When it comes to urban renewal, one of the philosophical arguments is that the government shouldn't be playing in economic development. In the case of the Newberg Urban Renewal Plan, with the challenges of redeveloping the riverfront and the unknown issues that will come with it, urban renewal is the only tool that will prompt private development to take the risk. In addition, as we see across the Willamette Valley, perfectly good farmland is being developed. Here is a chance for our local government to do what it can to protect farmland by redeveloping and reclaiming property that had a previous industrial use.

The Newberg Urban Renewal Plan will tap into the mountains of work done in community outreach by addressing and funding the Riverfront Master Plan and the Downtown Improvement Plan. Imagine a situation where we ask people what they want their town to look like, and local government can help to make that happen. Remember in the Newberg Community Visioning program we asked that question. We shouldn't just put the plans on a shelf. In the case of the Riverfront Master Plan, not only will industrial property be included and developed, but workforce housing to not only help with the housing shortage, but also by having affordable housing close to living-wage jobs, it will take stress off our transportation system.

By using already established master plans as a guide, and verifying with Newberg residents and other taxing districts that this is how they would like tax dollars invested, with Tax Increment Financing, Newberg can take currently blighted property, and reclaim them to increase business and tax revenue. Any foregone tax revenue should be seen as an investment into future property tax revenue. In addition, as these properties redevelop, there will be an increase in SDC and Construction Excise Tax revenue helping taxing districts that rely on those funding mechanisms.

If Newberg is to have a reclaimed riverfront area and vibrant downtown, urban renewal and tax increment financing are the only way to ensure that happens within the next three decades. With the economic, environmental and transportation challenges the area outlined in the district has, the Newberg Urban Renewal Plan is the most efficient way to assist the community in realizing the visioning the city worked so hard to create.

Thank you,

Patrick Johnson
Former Newberg City Councilor

Portland General Electric
121 SW Salmon Street • Portland, Ore. 97204

May 27, 2021

Newberg City Council
PO Box 970
Newberg, OR 97140

Dear Mayor and Councilors:

Portland General Electric (PGE) wishes to share its support of the proposed Newberg Urban Renewal Plan and Report and corresponding Urban Renewal District (URD). PGE has worked closely with many URD's throughout the region and values the many positive impacts they have on local socio-economic development and job creation. The Newberg URD will be a critical tool to help fund the infrastructure improvements and expansions needed for this growing region.

We are happy to see that the proposed URD includes the former WestRock mill site. In addition to its 100 acres of "new redevelopment" industrial land, the URD will bring public access to existing and new park areas, creating a new doorway to the Willamette River envisioned in the Riverfront Master Plan. With 600 acres in the Newberg URD, an opportunity comes alive for the community's vision for future downtown businesses, citizens and visitors enjoy life and prosper in Yamhill County.

PGE looks forward to working with the URD projects to deliver resilient, environmentally clean and affordable power. The \$95.5 million URD investment in roads, water, wastewater and walking trails, in addition to other projects, brings new jobs and affordable housing to many in need. The envisioned destination commercial development on E Fourteenth Street and the esplanade along the Willamette River bluff, help bring new prosperity to Yamhill County residents as they move beyond recent pandemic impacts.

Finally, I want to personally recognize the Newberg URD's diversity, equity and inclusion statement. These goals are shared by PGE and we believe the URD investments will foster and attract an increasingly diverse population by building infrastructure to support living wage jobs in a thriving, un-biased community where all people can live safely.

Thank you for your collective leadership. You have PGE's commitment to help the Newberg URD fulfill its mission and benefit the region for many years to come.

Sincerely,

Dave Robertson
Vice President, Public Affairs

Newberg City Council
PO Box 970
Newberg, OR 97132

I am writing in reference to the Urban Renewal Program currently being reviewed by the Council. I have been interested in and working toward the successful completion of this project for several years. I first became involved when invited by then Mayor Andrews to serve on the Riverfront Master Plan Committee to review possible development and redevelopment options. At the time I was a Yamhill County Commissioner and was very concerned about the impact of the mill closure and the Bypass completion on that portion of the county and the cities of Dundee and Newberg.

Doug Rux and I have spoken many times about the current project and I want to make the Council aware of my hope that you will move forward with the plans that are being brought forth. I realize the outcomes of this project will be spread over 30 years. However, without a carefully and fully thought-out plan now, there is little chance of the future needs of Newberg being met in a way that enhances the livability and desirability of the community.

The Urban Renewal Plan being brought forward incorporates the work of many committees and planning groups. In this Plan there are multiple areas being addressed all of which are very important to the future of the City of Newberg and to Yamhill County. It addresses economic development, housing, water infrastructure, multi modal transportation, wastewater infrastructure, and tourism to name a few. It additionally addresses the improvements to the downtown area when the Bypass is completed.

The vitality and livability of the entire Newberg community are impacted by this Plan. I am excited about all the possibilities for diversity and inclusion it includes and I am hopeful the City Council will see fit to approve this proposal and move forward with the Urban Renewal funding necessary to provide for the future of Newberg and its citizens that this Plan provides.

Sincerely,

Stan Primozych

RE: Newberg Urban Renewal Plan

Dear Mayor Rogers:

As the regional economic development organization serving Oregon's Mid-Willamette Valley, SEDCOR focuses our efforts on traded sector companies seeking to grow, expand, or locate in our region. We are excited to see the economic development opportunities that will be facilitated through Newberg's Urban Renewal Plan and look forward to working with the community as you move forward.

The redevelopment of the former WestRock site in Newberg will provide much-needed land for employers seeking to invest and grow in the region. Including that site in the city's Urban Renewal Plan will focus public infrastructure investments and incentivize improvements and redevelopment that will provide long-term benefits to the regional economy. Compared to most other states, Oregon does not have many tools to promote economic development, which makes urban renewal, and the significant planning and preparation behind it, so important, providing certainty to investors and ensuring appropriate infrastructure is in place to support development.

SEDCOR is working with the City of Newberg on a variety of innovative projects, including public-private partnerships that address challenges facing local workers and their families, such as childcare and affordable housing. The Urban Renewal Plan, with its emphasis on redevelopment of the WestRock site and implementation of the city's Downtown Improvement Plan and Riverfront Master Plan, provides a mechanism for Newberg to continue to innovate as you seek to create a livable city for current residents and future generations.

Thank you for your consideration.

Erik Andersson

To whom it may concern,

On behalf of Taste Newberg, Newberg's destination/visitor marketing organization, I would like to enthusiastically endorse the City of Newberg's Urban Renewal District plan. This plan would enable the City of Newberg to enhance economic growth in the downtown and Riverfront districts, via tax increment financing. It would facilitate public and private investment in projects that could include street and sidewalk improvements, existing building rehabilitation, storefront façade enhancements and so much more.

This plan would include goals identified by Newberg community and business stakeholder input, including from Newberg Economic Development Strategy group, NewBERG Community Vision project, Riverfront Master Plan, Newberg Strategic Tourism Plan and Downtown Improvement Plan. It would enable a collaborative long-time vision to be carried out, for improvement of resident livability, pedestrian and bicycle safety, better road interconnectivity, the potential to add much-needed workforce housing, while strengthening Newberg's brand, accessibility and appeal from a tourist perspective.

Visitors, who travel from all over the country to Newberg, are drawn to the area because of its diversity of tourist attractions, including wine tasting, culinary options, arts & culture, shopping, historical sites, as well as outdoor recreation including water sports on Willamette River at Rogers Landing, as well paths for walking, running, and safe cycling. An Urban Renewal plan that supports tourism and historic preservation as components of its downtown and waterfront improvements would serve to enhance Newberg's position as a compelling regional tourist destination with inviting visitor experiences.

Taste Newberg wholeheartedly encourages your support for the Urban Renewal District plan.

Sincerely,

A handwritten signature in cursive script that reads "Leslie Caldwell".

Leslie Caldwell
Executive Director
